THE VOICE WITH THE SMILE

When your Bell telephone operator answers your call, she says "Number, please?"

She says it with the pleasant rising inflection which expresses better than words her desire to serve you.

She was chosen for her ability and intelligence.

She was trained to be quick, careful and accurate.

She has all of these qualities.

And in addition, she has "the voice with the smile."

It's not just a part of her "stock in trade."

The desire to serve her neighbors and friends is in her very nature.

So she says "Number, please?"

That little word "please" takes a lot of time when thousands of calls are considered.

But its worth all the time it takes.

For the telephone operator knows that *courtesy pays*.
