

# HOW TWO WOMEN ESCAPED OPERATIONS

## Doctor Advised Use of Lydia E. Pinkham's Vegetable Compound

### Happy Results in Both Cases

St. Joseph, Missouri.—"Both of my sides swelled and hurt me so that I could not move or do any of my work. There was heavy pressure and pains through my lower organs and the doctor told me to try Lydia E. Pinkham's Vegetable Compound for these troubles. He said I had this one chance, and if the Vegetable Compound did not help me nothing but an operation would. After taking several bottles I felt it was helping me and now I am able to do my own work. If my testimonial will help others I shall be glad for them to read it and hope your Vegetable Compound will do them as much good as it did me."—Mrs. Wm. Lockman, 513 N. 4th St., St. Joseph, Mo.

White Plains, N. Y.—"I had such a pain that I could hardly walk and the doctor said that I needed an operation. I was sick for a year before I started taking your medicine and I could not work. I saw your advertisement in a little book and that is how I came to take Lydia E. Pinkham's medicine. I have been taking the Vegetable Compound and Lydia E. Pinkham's Blood Medicine, also Lydia E. Pinkham's Liver Pills and used Lydia E. Pinkham's Sanative Wash and the capsules and prescription recommended. I am doing all my work and have gained twenty pounds. I am taking the medicines still, but I feel fine. You have my permission to use this letter for the good of others."—Mrs. MARY MARK, 37 Hamilton Ave., White Plains, N. Y.

Some female troubles may through neglect reach a stage when an operation is necessary. But most of the commoner ailments are not the surgical ones; they are not caused by serious displacements, tumors, or growths, although the symptoms may appear the same.

When disturbing ailments first appear, take Lydia E. Pinkham's Vegetable Compound to relieve the present distress and prevent more serious troubles. Many letters have been received from women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after operations have been advised by attending physicians.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent you free upon request. Write to the Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

# WESTERN CANADA For Big Wheat Crops

Canada is the world's greatest producer of wheat—second only to the United States—yet only about 12% of the tillable area has been worked. Yields of 40 bushels of wheat per acre are not uncommon. Oats have given as high as 100 bushels per acre, while 40 to 50 bushels per acre are ordinary yields; barley and rye in like proportion. Cattle and horses thrive on the native grasses which grow abundantly and corn and sunflower culture are highly successful.

## PRISON LOSES "CAMERA EYE"

**Man With Exceptional Endowment Gives Up Position He Had Long Held at Sing Sing.**  
Sing Sing is without the "human camera eye" which pierced through disguises and made alibi futile, for Louis Powers, Bertillon expert at the prison for 20 years, who finger-printed and photographed more than 20,000 Sing Sing convicts during his service, has retired.  
He was famous for his ability to identify criminals, and for years has been known as "the camera eye of Sing Sing." He was often called on for information about criminals in various parts of the world, and frequently attended trials to establish prison records of men and women on trial. Besides learning by experience that women, even though preparing for the death sentence, were "very vain," Powers said that he had profited little from his unique position except what he obtained in the way of salary.

**Passports a Nuisance.**  
Up to the time of the beginning of the war the passport regulations were very simple and the fees inexpensive, but when the great contest broke loose it was necessary to make it more difficult and unfortunately the rigid regulations of the war times have never been changed. The fee for issuing and vising was \$2, but it was increased to \$10 by the United States. At once the nations of Europe made their charges accordingly so that in order to visit a few countries the matter of securing a passport was a serious one. The matter remained in this shape although there was considerable grumbling by those who were compelled to submit, not only against the charges but the amount of red tape which was necessary in order to get a passport.

**Man and the Flowers.**  
The fragrance of plants is not for man's pleasure; it is a means of attracting insects to fertilize them. The object of many present-day florists is to improve a flower in its coloring, size and substance—in short to "paint the lily." They cannot improve the fragrance, which is perhaps the reason they seem to care so little for its disappearance under their handling.—Exchange.

**Italy Leads in Violins.**  
The best violin strings have always come from Italy. Why this should be is something of a mystery, but in the making of strings, as in the making of violins, Italy has always led the world.

**Hopeless.**  
She was a pretty young thing and terribly in earnest when she applied for a staff position on a Chicago paper. A woman reporter, emissary from the city editor, carried the usual message, "No vacancies."  
"Well," she sighed, "I don't wish the women on the newspaper any harm, but I wish some of them would get out and give the rest of us a chance."  
"They don't though," the woman reporter assured her cheerfully. "Even when they get married they hold on to their jobs harder than ever."  
The youthful applicant regarded her speculatively.  
"And they live a long time, too, don't they?" she concluded.

"Mum-mum-Mister Johnson," stammered young Sankey Spink. "I want to mum-mum your daughter, Zanzabelle. I'm not good enough for her, but—"  
"You're dead safe in telling that to me," interrupted Gap Johnson of Rumpus Ridge, Ark., "but don't let her maw hear you say it. When I was courting the girl that is my present wife I told her mother that I wasn't good enough for her daughter, and b'dogged if she didn't believe me, and has been a-mentioning it ever-pu-since."—Kansas City Star.

**When England Had No Dukes.**  
The duke of Norfolk was brought to the block in 1572, and in him perished the last surviving English duke. For more than half a century England had to do its best—defeat the Spanish armada, conquer Ireland, circumnavigate the globe, lay the foundations of empire, produce the literature of the Elizabethan age—without any dual assistance.—From Pollard's "History of England."

A man is expected to take off his hat because it is nothing to look at, anyway.
