

# Aspirin

Say "Bayer" and Insist!

Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer product prescribed by physicians over twenty-two years and proved safe by millions for

- Colds
- Headache
- Toothache
- Lumbago
- Earache
- Rheumatism
- Neuralgia
- Pain, Pain

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proper directions. Handy boxes of twelve tablets cost few cents. Drug-gists also sell bottles of 24 and 100. Aspirin is the trade mark of Bayer Manufacture of Monocetatechloride of Salicylicacid.—Advertisement.

Duty and conscience, when they both call at once, make an extremely loud noise.

## DAUGHTER HAD TO HELP MOTHER

Now Can Do All Her Housework Alone Because Lydia E. Pinkham's Vegetable Compound Helped Her

Jasper, Minn. — "I saw in the paper about Lydia E. Pinkham's Vegetable Compound and took it because I was having such pains in my stomach and through my back that I could not do my work. I had tried other medicines, but none did me the good that your Vegetable Compound did. Now I am able to do all my work alone while before I had my daughter staying at home to do it. I have told a number of friends what it has done for me and give you permission to use my letter as a testimonial."—Mrs. JESSE PETERSEN, Route 1, Jasper, Minn.

There is no better reason for your trying Lydia E. Pinkham's Vegetable Compound than this—it has helped other women. So if you suffer from displacements, irregularities, backache, nervousness or are passing through the Change of Life remember this splendid medicine. What it did for Mrs. Petersen it may do for you.

The Vegetable Compound stands upon a foundation of nearly fifty years of service.

### Recommended

"Vaseline" Petroleum Jelly benefits all bumps, sores, bruises, sunburn, blisters, cuts and chafed skin. Never be without a bottle of it in the house. It's safe, always effective and costs but a trifle.

### Dizzy Spells Are Usually Due to Constipation

When you are constipated, not enough of Nature's lubricating liquid is produced in the bowel to keep the food waste soft and moving. Doctors prescribe Nujol because it acts like this natural lubricant and thus replaces it.

Nujol is a lubricant—not a medicine or laxative—so cannot gripe. Try it today.

**Nujol**  
A LUBRICANT—NOT A LAXATIVE

## DEGREASING AND WASHING WOOLS

New Method Has Been Devised by Department of Agriculture.

### WASH SAMPLES THREE TIMES

Results Obtained by Various Tests to Be Used in Matting Sheep in Attempt to Improve Fleeces of Different Breeds.

(Prepared by the United States Department of Agriculture.)

In order to compare the grease and dirt contents of various wools and to improve wools in these respects, the United States Department of Agriculture has devised a new method for degreasing and washing dirt from samples. In the course of this work it was found that samples from the side of the fleece are best for the purpose as the contents of dirt and grease in this part are closely related to the average for the entire fleece.

Washed With Gasoline. In the method for determining grease, as now used by the department, the samples are washed three times with gasoline, which is drained off through a filter paper that retains all foreign matter. It has been found that this treatment leaves only 0.17 per cent of grease in Rambouillet wool and only 0.28 per cent in wool of the crossbred sheep used.

Dirt is taken out of the samples by washing with soap and water. The wool is cleaned well if the water is at a temperature between 40 and 45 degrees C., which is not hot enough to felt the wool.

Aim to Improve Fleeces. Results obtained by testing various samples of wool for grease and dirt will be used in planning the matting of

Wool Sorting—Grading Fleeces.

sheep in an attempt to improve the fleeces in these respects.

Details of this experimental work have been published in Department Bulletin 1100, A Method of Determining Grease and Dirt in Wool, by D. A. Spencer, J. I. Hardy and Mary J. Brandon. Copies may be obtained by addressing the Department of Agriculture, Washington.

### BIG VALUE OF FORAGE CROPS

Should Possess as Many Desirable Characteristics as Possible—Some Are Enumerated.

A forage crop to be of most value should possess as many desirable characteristics as possible, including (1) adaptability to soil and local climate, (2) palatability, (3) heavy yield of digestible matter, (4) narrow nutritive ratio, not wider than 1:5, (5) succulence, (6) long growing seasons with ability to endure tramping and grazing, (7) permanency, (8) reasonable cost and ease of seeding, (9) capability of quick pasturage at any time during the growing season, (10) leguminous characteristics.

### LEGUMES IN IMPROVING SOIL

Thousands of Farmers Have Introduced Various Crops into Their Cropping Systems.

Over 350,000 farmers, according to reports to the United States Department of Agriculture, introduced legumes, principally soy beans, cowpeas, velvet beans, and alfalfa, into their cropping system as a result of demonstrations in the use of legumes in soil improvement given in 1921 by agricultural-extension agents.

### POULTRY RAISED AT PROFIT

Farmer Has Little Knowledge as to Cost of Production of Fowls Sold for Meat.

Poultry meat is a by-product on most farms. The farm flock is supposed to lay enough eggs to satisfy the family and provide a balance to help out with the grocery bill, but when the birds are sold as meat they are turned off without much knowledge as to the cost of production. It is necessary to keep track of the feed that the birds use and know if they are paying a profit. There is no reason why poultry meat should not be raised at a profit the same as cattle and hogs.

## PREVENTING CHOLERA IN VARIOUS STATES

Department of Agriculture Is Extending Control Work.

Farmers Will Save More Hogs and Avoid Disastrous Losses if They Do Not Delay in Reporting Suspicious Cases.

(Prepared by the United States Department of Agriculture.)

The United States Department of Agriculture this year extended its co-operative hog-cholera control work to South Dakota, Washington, New Mexico and West Virginia, making a total of 34 states in which work is being done in co-operation with state authorities. Co-operation among the different agencies is now at its best, and is therefore more effective than ever.

The object of the work with the various states is to prevent and control

One Way to Prevent Disease Among Hogs Is to Provide Good Sanitary Quarters—Hog Cot in Use at Beltsville Farm.

outbreaks of hog cholera and to prevent the spread of the infection and to reduce losses.

During the year, hog cholera has been kept well under control, but special care must be taken when there is an increase in its prevalence. Farmers will save more hogs and prevent disastrous losses if they do not delay reporting immediately to the state veterinarian, the county agricultural agent, the representative of the bureau of animal industry, or local veterinary practitioner any suspicious cases of sickness among their hogs. Hog-cholera serum is not a cure, but a preventive treatment, and should be applied as soon as possible when the disease appears in the herd or in the neighborhood. The preventive treatment is a good insurance against losses from hog cholera.

### GREEN MANURING AIDS SOIL

Organic Matter Is Added, as Is Nitrogen—On Poor Land Turn Under an Entire Crop.

Green manuring means turning under suitable crops to enrich the soil. Such crops may be turned under green or when ripe.

Green manuring adds organic matter and, directly or indirectly, nitrogen to the soil.

Leguminous crops are most desirable for green manuring, since they add to the soil nitrogen gathered from the air in addition to the organic matter which they carry.

Besides the nitrogen in the legumes turned under, an additional supply of nitrogen is fixed in the soil by the action of bacteria, using the carbon in the organic matter as a source of energy.

Turning under an entire crop is advised only when the soil is poor and for the purpose of starting a rotation. Turning under catch crops or winter-growing green crops is an economical and successful method of supplying nitrogen.

### GIVE HARNESS BEST OF CARE

Hardened Grease Is Conveniently Removed by Scraping With Knife—Oil While Damp.

Harness should be washed and oiled when it becomes dirty or extremely dry. For washing, use tepid water, a neutral soap, such as castile or white toilet soap, and a sponge or fairly stiff brush. Hardened grease is very conveniently removed by scraping with a dull knife. Rinse in clean, tepid water, and allow the harness to stand in a warm place until it is no longer wet but still damp. Then oil it and leave it in a warm place for 24 hours before being used. Harness should be oiled or greased while still damp; otherwise, it may take up so much grease that it will pull out of shape or take up sand and grit, which will injure it, as well as spoil its appearance. Harness should never look or feel greasy.

### GRADED POTATOES ARE BEST

More Attention to Proper Handling Will Boost Price—Dirt Is Most Undesirable.

Potatoes properly graded bring a better price than the ungraded product. Whether stored or sold direct, the freer the crop from dirt the better. Provision should be made for storage of 45 to 50 degrees in the storage ventilation and a steady temperature cellar.

## Deft Fingers Help Santa

### To Screen the Phone

Little conveniences that adorn the house carry messages of good will at Christmas time. A phone screen covered with plain and figured cretonne, and providing a place for records of telephone numbers and calls will be welcome to men and women alike.

### Ever Welcome Bags

Christmas time is the springtime of bright cretonnes when they blossom out into all sorts of ingenious and beautiful gifts. The picture shows a work or shopping bag folded and unfolded. It is merely a capacious oblong bag of cretonne, with small envelope, bound with braid, sewed to one side, and, by means of snap fasteners, it can be folded and converted into a pretty shopping bag.

### This Year's Camisoles

Every Christmas brings its camisoles and this year's are the daintiest ever. Many of them are made of net and lace, like the model pictured here; others, less transparent, of crepe de chine satin, wide ribbons or georgette. Baby ribbon adjusts them at the bust line and flat elastic at the waist. They are easily made and are lovely gifts from woman to woman.

### For Men or Women

Christmas brings its pretty candies zily decked out this year with sealingwax flowers, or painted and gilded. They make lovely gifts for men or women, and so will the ribbon or cretonne-covered picture frame, fastened to a glass front and cardboard back with gold braid binding. The cardboard back is cut out to form an easel support.

### Gay Little Pin Trees

We can help start the new year right by giving Christmas gifts of little pin trees to our women and girl friends. Two corks and a florist's pin, sharpened at both ends, make the foundation for the pin tree illustrated. The large cork—of wood—is painted green and the smaller cork is gilded. They are joined by the long pin, and into the gilded cork many pins, with colored heads, are thrust, to form a tree. A band of baby ribbon, tied about the larger cork, holds small safety pins.

### Smart Nanette Fans

These brilliant little Nanette fans began their careers humbly in France one of them, as a plain, small palm leaf and the other as a platted fiber fan. By means of paint, satin ribbons, organdie or millinery flowers they have graduated into the smart set and will accompany gay frocks to joyous parties. One of the fans pictured has a shirred binding of ribbon in green. Its handle is bound with ribbon, finished with a loop and organdie roses in soft colors adorn it. Painted flowers or millinery flowers and foliage adorn the platted fan and ribbon covers its handle.

### Among House Slippers

Most people look to Santa Claus to provide them with house slippers and he always carries a generous supply of all kinds in his pack. This year you will find among them beautiful bedroom slippers, like those shown above, that are made of ribbons and adorned with little ribbon flowers.

### To Remember the Baby

Everyone wants to remember the baby and here are two bibs for him, one of them made of pink and white Turkish toweling and the other of honeycomb cotton. The square bib is bound with tape which provides the ties and the edges of the smaller bib are finished with a shell crochet of mercerized cotton.

C. J. Dearolf

Trenton, N. J.—"Dr. Pierce's Golden Medical Discovery has done wonders for me. I was stricken with typhoid fever and it left me in a very weak condition, with a badly ulcerated stomach. I had heard of the healing and strength-giving qualities of Dr. Pierce's Golden Medical Discovery and sent to the drug store for a bottle of it. I quickly realized that it was doing me good, soothing and healing my stomach and imparting strength and vigor to my entire body. I took several bottles and am happy to say I am today absolutely well."—J. J. Dearolf, 78 West End Ave.

Obtain the Discovery in tablets or liquid from your nearest druggist or send 10c for trial pkg. to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y.

## WHAT IT MEANS TO BE "RUN DOWN"

A "RUN DOWN" feeling is a danger signal. If you neglect it, you are leaving the door wide open to dangerous diseases.

Build yourself up to health and strength with Gude's Pepto-Mangan. It will purify and enrich your blood, tone up your nervous system, and help you eat well, sleep well and feel well. Gude's Pepto-Mangan is a time-tried tonic, recommended by physicians for over 30 years. At your druggist—liquid or tablets, as you prefer.

## Gude's Pepto-Mangan Tonic and Blood Enricher

### THE "MAGIC" OF THE MEDICINE MEN

The Indian medicine men were supposed to work wonderful cures by magic. What they really did was to make medicines from roots and plants, after age-old formulas, handed down from generation to generation. Of these ancient plants is compounded a formula for constipation, the most effective, quick, pleasant relief ever known, and has been used in Wright's Indian Vegetable Pills since 1877. They will work "magic" for you. At all Druggists, 25c.
