Baltimore Man Tells How to Stop Pains, Build Yourself Up.

SIMPLE HOME TONIC BRINGS EASY RELIEF

"I suffered so bad with rheumatism, neuralgia, nervousness and indigestion that I lost time from work. At times I could hardly move my legs or arms—they pained me so bad. The nervous headaches I had and the indigestion attacks also made me miserable. I finally found the remedy I was looking for. I have been declared cured. John C. Steinbach, 142 Hanover St., Baltimore. "I tried everything in the way of medicine without results until a friend of mine told me about Hypo-Cod. The first bottle worked so well I took five more and I must say that I am a well man today. It seemed like magic to me. I don't believe there is any medicine on earth that will do the work like Hypo-Cod did, and I'm sure it will do the same for others who suffer as I did. My wife was so amazed she started taking Hypo-Cod also, and it made her well, strong and hearty. Then we gave it to the children to build them up and it did the work so fine in each case we praise Hypo-Cod always," concluded Mr. Steinbach. Every person's body can throw off any ailment, provided they are not weakened down. Begin building, toning and run strengthening yourself. Then watch nature throw off its you have worried nature long. This is the sensible way. The SANDMAN STORY

FOX BROTHERS' TRICK

IT WAS a long way around the pond and a long way across, so which ever way he went it meant a long walk for Mr. Fox, and he was in a hurry to get to the farm on the hill on the other side of the pond.

"If I could only slide across," thought he, "and I could, for I have an old sled. If only I had some one to push me and give me a good start. Coming home I could take my time."

The more he thought the better it

Mr. Fox Had Met the Little Fox Brothers.

seemed to him, and so Mr. Fox trotted off to Mr. Coon's house to ask him to push the sled.

If Mr. Fox had not been unkind to little Reddy Fox and his brother Rey he would very likely have had a long slide across the pond and arrived early at the farm.

But Mr. Fox had met the little Fox brothers one morning very early when they had been out hunting and taken from them a fat chicken which they were carrying home for breakfast, which was very wrong as well as unkind, because the strong should never take advantage of the weak.

The little brother Foxes did not forget this, and when Mr. Fox called on Mr. Coon to ask his help the little Fox brothers happened to be passing and heard what he said.

All the way home they were thinking what they could do to plague Mr. Fox and spoil his trip across the pond that night, and before it was time for Mr. Coon to be at the pine tree by the pond the Fox brothers had thought of a plan to pay Mr. Fox for taking their chicken.

It was not a moonlight night, and so when Mr. Fox and Mr. Coon met they did not see any one behind the tall bushes and rocks by the fir tree.

Mr. Fox was leaning against the rock, with his back to the bushes, and

when he felt something on his back he looked around quickly, but the wind was blowing, swaying the bushes and he thought that was what he felt, but it wasn't; it was something far different.

"Now, you understand, you are to place your paws against my back as I sit on the sled," said Mr. Fox to Mr. Coon; "push hard, and away I will go across the frozen pond, and when I come back I will give you a good breakfast to pay you for helping me."

Mr. Coon said he understood perfectly, and Mr. Fox took his seat on the sled. "Now, when I say three," said Mr. Fox, "run a step or two with your paws pushing on my back. One, two, three!"

But instead of skimming across the pond on the sled, the sled went skimming, and Mr. Fox sat on the ground, with Mr. Coon flat on his stomach behind him, his paws still fast to Mr. Fox's back.

"What do you mean by pulling me off that sled?" asked Mr. Fox, very angry. "Let got of me! You are pulling me over."

Mr. Coon tried to get up, but every time he moved he pulled Mr. Fox over backward, and soon they were scrambling and kinking like two jumpingjacks, while the little Fox brothers, with a paw over their mouths, ran as fast as they could until they were out of the hearing of Mr. Fox and Mr. Coon. Then they rolled over, laughing, on the ground at the funny sight they had left by the pond.

"That glue was very clinging stuff," said Reddy, sitting up on the ground. "Mr. Fox is a very smart fellow, but

"What's in a Name?"

Dr. MILDRED MARSHALL FACTS about your name; its history; meaning; whence it was derived; significance; your lucky day and lucky jewel

ALICE

ALICE, curiously enough, is a man's name, not a woman's. Originally it was given to the sons of the family, and is, without doubt, derived from the Anglo-Saxon Adelgis, of which the feminine form was Adelgisa. It means noble, in both its masculine and feminine forms.

It is clear that Alice represents Adelgisa and not Adelgisa, and that the proper feminine form would be Aliza. Some believe that Eliza, generally thought to be a derivative of Elizabeth, is this missing form. For proof of Aliza as the representative of Adelgisa, the Liber Vitae of Durham records the changes in Adelgisa from the first noble lady of that name who laid her gifts upon the altar. By contraction it became by steps Adeliza, Anliza, and Aliza.

Aaliza is still given to daughters of noble families in Europe. Adalitz, Adliz and finally Aliz, are other contractions. Aliza is a derivation which represents an effort at euphony lacking in Alisa, but Alisa is not so derived as is popularly supposed, but has a completely different origin.

Alise is purely English with a slight Teutonic flavor, since another explanation of its origin is that the name is derived from the feminine Adalbert or Adelchen, signifying "daughter" in Frankland. Aliz or Alisa in Lombardy was naturalized in England when Aliz la Belle married Henry I.

Alexandrite is the talismanic stone of Alice. It is found in the emerald mines of Russia and its splendid green, which changes pulsatingly to

columbine red, makes it representative of the Russian national colors and therefore honored as a national stone. The Russians believe that it brings great fortune. It denotes hope and, when dreamed of, indicates much to look forward to. Monday is Alice's lucky day and 7 her lucky number. Her flower is the white hawthorne, which means hope.

Alice has been traditionally surrounded by all the virtues and simplicity which man is supposed to desire in woman. Indeed, the name is poetically synonymous with "true blue." It has been immortalized in the old song, "Ben Bolt":

Oh, do you remember Sweet Alice, Ben Bolt, Sweet Alice with hair so brown: Who thrilled with delight when you gave her a smile, And trembled with fear at your frown?

The Friendly Path

By WALTER I. ROBINSON

THE FUTURE

LEARN to stand on your own feet. A few make headway by depending on others, but the majority must hoe their own path. Unless one, therefore, has confidence in himself and is able to cause others to trust and believe in him as he deserves, he is not likely to make much headway and his pathway will in all probability, be hedged with thorny briars. Day after day, as he plods onward toward his uncertain goal, his life is likely to be disturbed and his happiness destroyed by the thorn pricks every time he halts to reflect on the best way to gain his desires.

In the social world introductions are necessary. Those who push themselves into the midst of a formal party unannounced could expect nothing else but icy stares and an unpleasant departure through a rear door. But in the world of business, industry and finance introductions are not essential to success. Those who bemoan their misfortunes in not being able to have some one of high standing help shove them ahead are themselves their own worst handicaps.

A vice president of the United States Chamber of Commerce, still actively managing a big manufacturing business, though he is up in the eighties, recently declared that he didn't consider introductions of much value to those seeking business or industrial success. He tells a story to illustrate his reason for confidence that big men trust others just as quickly without introductions as with them, providing those seeking recognition believe in themselves and have the proper sort of personality. He declared that when banks in his own city were too small to extend to his business sufficient credit, he went to New York, without introduction and, by stating his situation frankly, obtained the line of credit he required for his shops. Greater frankness would lessen business worries today.

he was fooled when I put that glue on his back. He thought it was the wind blowing the bushes.

"Yes, that glue will keep them close together for a while, said Rey Fox, "but I reckon they won't be very fast friends after they get apart."

THE RIGHT THING at the RIGHT TIME

By MARY MARSHALL DUFFEE

WHEN YOU CORRECT

It is much easier to be critical than to be correct.—Benjamin Disraeli.

OCCASIONALLY, no doubt, perfectly well-bred husbands and wives do quarrel, if they are incompatible, but they do not quarrel in public. Neither does a well-bred woman "call down" her children before outsiders, or correct a servant any more than is necessary. If you have a complaint to make in a store or shop, do not make it in a conspicuous way.

The wise manager of employees does not berate them before outsiders. Sometimes, of course, the inconsiderate manager will seek to lay the blame for something for which his store management is to blame on a subordinate. He may help himself for the time being out of an embarrassing situation, but he is surely laying up trouble for himself later on.

Some young women really enjoy having little quarrels with the young men who are courting them, and sometimes they are ill-bred enough to indulge in such moods in an ostentatious way in public places. Thus the young woman who is annoyed, or who pre-

tends to be annoyed, puts her escort to great embarrassment by refusing to speak to him in a public conveyance. Or she may wait until they are in their seats at the theater and then mar her own and her escort's enjoyment of the play by indulging in her quarrelsome mood. She may actually enjoy the embarrassment that he endures. Or she may wait until they are with their friends at a dance and then refuse to dance with him just for the satisfaction of having others see how miserable she can make the poor man in question. There are girls who do this sort of thing, but they are truly not well bred. The really well-bred woman, if she must quarrel with the man who is devoted to her, waits until they are alone.
