Perry Koonsman, who has been working in Mifflin county, is at his home for a few days.

Mrs. Blaine Palmer was ;called to Tusseyville one day last week on account of the serious illness of Mrs.

#### Stewart Jordan. Men's Woolen Clothing Higher.

Men's woolen suits and overcoats will have to be increased in price in order to include the duty which the Fordney-McCumber profiteers' tariff act has fixed on raw wool and wool fabrics, according to Charles F. Manning. Newark, N. J., president of the International Association of Clothing Designers. Mr. Manning made the anonuncement in the course of an address to the convention of his organization at Cincinnati.

Woolen clothing for men. Mr. Manning said, could not be sold by dealers at the prices that have prevailed thus far and leave a profit for the dealers. The tariff would have to be added to existing prices, he said. He did not indicate what the increase in the price of an average suit of clothes would be.

#### CONVEY MEANING IN DANCE

Artists of India Reveal by Gestures a Fundamental Concept of Life Itself.

There is an essential difference between the dance of the East and of the West. Both spring from rhythmic creative impulse, of course, the desire to express an emotion, but western dancing has come to signify little more than an elaboration of movement, a multiplicity of complex steps, while eastern dancing still strives to symbolize by graceful gestures identified her sister, Mrs. Williams, at Pine Grove with a succession of beautiful postures some fundamental concept of life itself. The dance of the East carries with it something not of time. For it is half sculpture. The sacred origin of dancing in India-typified by the god Siva who conveys through rhythmic play a sense of all movement, of all creation, within the cosmos, together with the release of the souls of men from ensuaring illusion, may be traced in the half-ruined reliefs of Indian inspiration found as far east as the island of Ball, beyond Java, and north throughout Burma and Siam into Cambodia. And still today lithe figures repeat the familiar patterns. The lifted foot with bent knee, symbolizing release from the material, the upraised hand with thumb and forefinger holding an imaginary flower tribute, these and a hundred other gestures give out their identical message of spirit made manifest, in the ancient East. The East is content with its old, beautiful formulas. It does not ask for variety of self-expression. Beauty once found is beauty worshiped throughout the ages.-From the Pattern of the Eastern Dance, by Gertrude Emerson in Asia Magazine.

#### POINTED OUT DANGER IN CUP

John Wesley Set His Face Sternly Against the Drinking of Tea-Himself a Victim.

John Wesley was against tea drinking. During a visit to Oxford he noticed, among what he described as "paralytick symptoms," the shaking of his hand, and he was puzzled to explain it, until, as he wrote to a "I observed it was always worst after breakfast, and that if I intermitted drinking tea for two or three days it did not shake at all.' At first he was content to add more water, sugar and milk, but finding, on inquiry, that there were others who were similarly affected, or thought themselves to be, he came to the conclusion that he ought to abstain altogether, and to endeavor to persuade others to follow his example.

Sir Walter Besant tells of the writer of a pamphlet in 1758 who was alarmed at the spreading of the custom of drinking tea, especially by "persons of an inferior rank and mean abilities." When taken in company with gossips, said the author, a dram too often followed, and then came scandal, with falsehoods, perversions and back-bit-

Wesley does not seem to have advanced, such lofty moral considerations. In fact, after suggesting to his friend a number of substitutes-chiefly herbs-he concluded: "If you find none of them well agree with your constitution, then use (weak green) tea again; but at the same time know that your having used it so long has brought you near the chambers of death."

## Floating Islands.

Natural floating islands sometimes are seen in the Mississippi and other rivers, and in lakes, occasionally being of sufficient size to serve as pastures. They are formed of earth which is held together in a compact form by roots interlacing, and they float because they are not heavy enough nor sufficiently waterlogged to sink. They have their origin in river banks which have been torn away and carried down steam by a powerful current, and sometimes trees remain growing on these islands. Artificial floating islands are made by taking rafts of wickerwork, covering them with reeds, and then placing take mud on top. They are used by some of the natives of India, Persia and Thibet to grow cucumbers, melons and other plants which require a lot of water. Artificial islands of this nature at one time were used in the waters about Mexico.

## Bank of England.

The Bank of England was founded by William Paterson (1658-1719), a long-headed Lowland Scot from Tinwald parish, in Dumfriesshire, skillful in finance and in matters of trade. It was the first public bank in Great Britain and was chartered in 1694. It was projected to meet the difficulty experienced by King William III in raising the supplies for the war against France. By the influence of William Paterson and Michael Godfrey, 40 merchants (alded by Charles Montague) subscribed £500,000 toward the sum of £1,200,000 to be lent to the government at 8 per cent, in consideration of the subscribers being incorporated as a bank. The project was strongly opposed in parliament, but the bill secured the royal assent April 25, 1694.

An Old Dodge, "Son," said the elderly gentleman, "I notice you are flashing a roll of \$1

bills." "What about it?" "Take the advice of a man who has seen something of life. You'd better plaster a couple of twenties on the outside of that bundle if you want to impress the help around here."-Bir-

mingham Age-Herald.

CATARRHAL DEADNESS is greatly relieved by constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhai Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. LLL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions. Circulars free. All Druggists.
