To Improve Road Through Valley. It appears to be certain that the State Highway Department intends to improve the road between the Millin-Centre county line on Seven Mountains to the brick road on Nittany Mountain. From what can be gathered several stone crushers will be installed to crush the larger courses of stone to be used. This piece of road is a very important one and has long been neglected. If put into good condition and kept so, the traffic over it would greatly increase. During the past it has been impassable during a part of the winter and spring months, and in exceedingly bad condition for at least one-half the year. Let us hope this road will be put into the condition its importance warrants.
