The Phillipsburg Journal entered upon its thirty-sixth year beginning of this month. The Journal is a real newsy sheet and is always boosting Phillipsburg and its community. It is entitled to its good support on the part of the citizens of Phillipsburg. Stand by it like it stands by you.

One day last week the supply of water at the W. H. Stoner farm, at the station, refused to flow. Heads were put together and the case diagnosed "frozen up." The pipe was uncovered and the thawing process begun, but without favorable results. Finally the pipe was disconnected at the main and there it was found a lizard about five inches long had been jammed into the connection. This obstruction removed, the farm water supply was again available.

Among the visitors in Centre Hall the latter part of last week were W. J. H. Spigelmyer and family, of Howard, at the home of Rev. J. P. Bingman. Mr. Spigelmyer is operating a shirt factory in Howard for Salant and Salant, of New York, and he is casting about for a suitable place to start another factory. This proposition would not be one of a promoter, as this firm has in mind the equipping of the plant and the operating of it with its own funds and manager. The firm has been successful in Howard. Such a proposition would be welcomed here and no doubt would be supported.

While blasting loose rock at the local stone quarry, on Saturday, one of the charges appeared to exert unusual force and stones of various dimensions were hurled over a considerable area outside the quarries. Walter Bayliss, one of the quarry employees, who was on his way home was nearly hit by a stone striking him on the legs, but did not inflict much injury. A stone of considerable size struck the creamery building, and going through the roof landed in the section of the creamery devoted to testing milk, doing more or less damage. The outcome was exceedingly fortunate.

Fine Record for Pullets.

Dauberman, of Centre Hall, who has long been successful in the production of eggs, now has a remarkably fine lot of Kerlin Quality White Leghorn pullets that are laying daily almost 100 per cent. The pullets consist of a pen of 116 and it is nothing unusual to pick from the nests 100 eggs in a day. In another pen are 23 hens of various ages, making her total flock 149. These a few days ago laid 136 eggs.

Rev. Goshorn has accepted a call to Newton Hamilton Presbyterian church, and they will be at home there about May 15th.

Governor Pinchot, from the very beginning of his term, has repeatedly dictated to the legislature what it should do and what it should not do. He was especially careful to take advantage of every opportunity that might make him popular, but now he is unwilling to say to the legislature where the millions of money shall come from to meet the governor's budget. Now this seems queer when the governor told us during the campaign that he could run Pennsylvania without increasing the taxes.

Lao-tze Wrote Gospel of Taoism.

Lao-tze wrote the gospel of Taoism, from whose pages an immense revelation grew up. Having been librarian of a Chinese king, and having much time for meditation, he came after many years to the conclusion that humility was the supreme virtue. He resigned, and desired to hide in seclusion. While passing through the gate of the palace on his way to solitude the warder besought him: "You are about to withdraw yourself from the world. I pray you write me a book before you go."

Lao-tze thereupon sat down and wrote a book about half the size of St. Mark's gospel. He gave this to the warder, passed through the gate and no man knows where he died. The little book is the gospel of Taoism. The word "Tao" means way—man of destiny. The advice was that men should become like little children and act without reflection.

In Doubt.

One of our good housekeepers knows she has no car for music, but when she is hustling around her pots and pans and scrubbing and washing out tea towels she cannot restrain humming a bit just out of her cleaning-up joy. Now there is also a little neighbor boy who plays under her window. Once while the process of scrubbing was going on above the little fellow looked up at the window with a face all puckered and serious, as if some question had been troubling him for quite a while.

"Well, Tommy, what's the matter?" inquired the housekeeper.

A long pause—then, "Please, ma'am is you singing?"—Exchange.

Self-Starting Engine.

Automatic starting of an engine surprised the driver and freeman of a train at Beauvais, in France. The two men in charge were standing by their detached steam engine, when it suddenly started off, leaving them at the station. The engine, being short of steam, ran only six miles to Hercules Junction, where it pulled up and awaited the arrival of its crew.

Grateful Son.

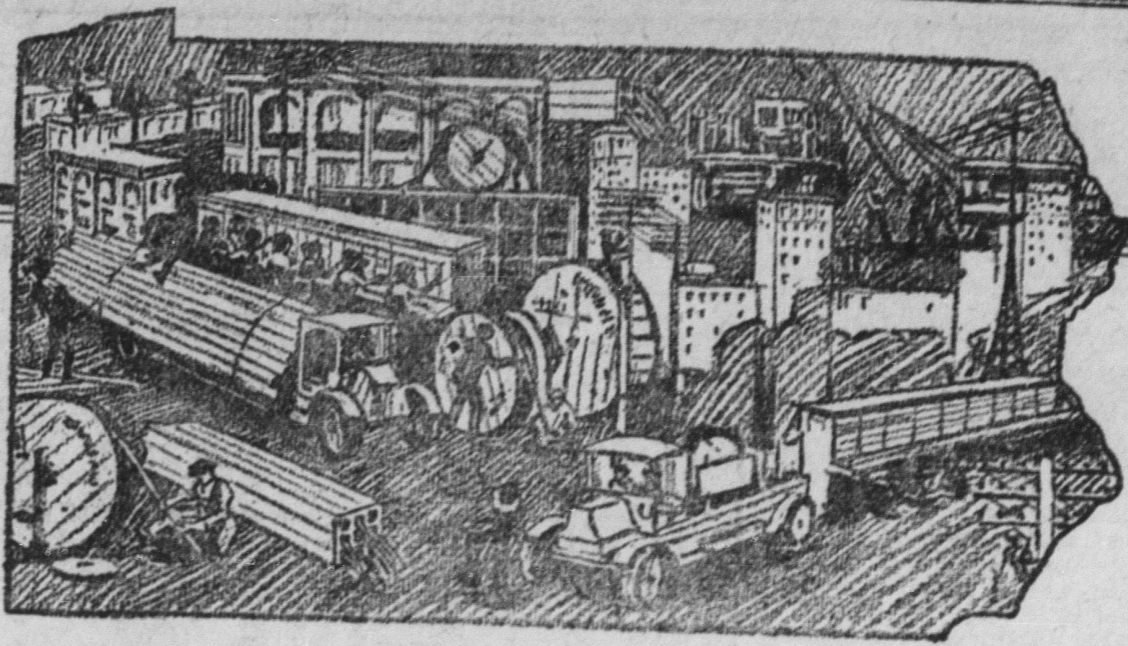

"My boy," said the millionaire lecturing his son on the importance of economy, "when I was your age I carried water for a gang of bricklayers."

"I'm proud of you, father," answered his offspring; "if it hadn't been for your pick and perseverance I might have had to do something of that sort myself."—Irish World.

Twenty-five Million Dollars' worth of New Equipment will be added to the Bell System in Pennsylvania this year

HALF a million miles of new wire, thirty-five new building operations, seventy thousand new telephones, ten million dollars' worth of central office equipment—such is our program for 1923.

And all this in addition to the tremendous amounts of new plant added in the last three years, which was more than in any six previous years in Pennsylvania's telephone history.

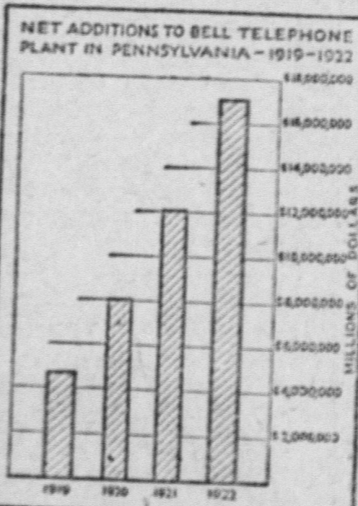

There is an enormous demand for telephone service. Twenty-five million dollars in one year is our effort to meet this demand.
