The Penn Public Service Corporation was authorized to increase its capital stock from \$20,000,000 to \$100,000,000, and also authorized increase of indebtedness of the corporation from \$50,000,000 to \$100,000,000.

Patch work, preparatory to oiling and chipping, is being done on the State road between Centre Hall and Spring Mills by two crews, one from the former and one from the latter place. The road where patched is in very fair condition. The Spring Mills section appears to be more completely patched, more care being taken to hit the imperfections on the sides. Between Spring Mills and Millheim the road is in very good shape.

The new parking rules to be put in force on and after May 1st, in Lewisburg, appear foolish in some respects. On Friday and Saturday evenings cars parked on the main street in that city are limited to one hour. Most of the people who go there on those evenings go with the intention of remaining in the evening, say, from 7 to 10 o'clock. Most of the cars parked in the city are parked on the street where parking is limited to one hour, and doesn't it seem foolish to be asked to move your car three times, provided you enter the city at 7 o'clock and leave it at 10:30 o'clock? If this rule is strictly carried out there will be a jam all evening on the principal streets for no other reason than to "change cars," or else the visitors will cut short their stay in town.

HOMAN BARN FIRE

Barn, Three Horses, Four Cows, Implements, Grain and Hay Consumed.

A fire, the origin of which is unaccountable, totally destroyed the barn on the Belle Lytle farm, south of State College, on Sunday morning about 10 o'clock. The farm is owned by D. F. Homan, of State College, and is tenanted by his son, Merrill Homan. The farm was purchased several years ago, and the buildings had just been put in prime condition. The loss is quite heavy and much beyond the insurance which was \$2,000 on the barn, and \$1,350 on the stock, grain, hay, implements, etc. The full amount of the insurance will be paid.

The insurance was itemized as follows: Barn \$2,000, held by the senior Homan. The other insurance carried by the tenant was: On horses and cows, \$560; grain and hay, \$400; implements, \$400.

The loss consists of the barn, 240 bushels wheat, 125 bushels oats, 50 tons hay, 20 tons alfalfa, 20 tons of straw, three horses, four cows, implements worth over \$1000.

The fire was first discovered by Mrs. Homan after Mr. Homan had started to State College with a truck load of milk. She was alone. The first to appear on the scene was Colonel Boal, who aided in rescuing some of the stock.

Withdrawal of relief work in the Near East at this time would be a death sentence to thousands of women and children now huddled in refugee camps, is the opinion of Walter George Smith, member of the State committee of the Near East Relief.

In a statement explaining the recent action of the American Red Cross in announcing a discontinuance of relief work in Greece in June next, Mr. Smith said that "as long as there is a dollar in the Near East Relief treasury, we will not permit men and women to starve to death when American food supplies can prevent it."

"In any solution of the Near East adult refugee problem," Mr. Smith said, "distinction must be drawn between Greek and Armenian refugees in Greece, where they are at least under a sympathetic government, and those refugees driven from their homes in Anatolia but still on Turkish or Asiatic soil, who dare not return to their former homes and to whom no nation will open its doors. They have proved themselves the most thrifty, and industrious people of the Near East, but under existing political conditions they have absolutely no chance."

"There are 32,000 of these Greeks and Armenians now at Constantinople; 20,000 on the Black Sea coast; 62,000 in Alexandretta, Aleppo and North Syria and 4000 at Mersina.

These refugees are dependent almost entirely upon a continuance of charity contributions until political adjustments shall be consummated. The Near East Relief is desirous of withdrawing from all adult relief work and confining its activities to a constructive program among the orphan children, but so long as a dollar remains in our treasury we will not permit men and women to starve to death when American food supplies can prevent it.

Besides the adult refugee work the Near East Relief will continue to care for approximately 65,000 orphan children now in Near East Relief orphanages and 60,000 more under our supervision. 95 per cent of these children are under fourteen years of age and 62 per cent are under twelve years. Virtually all of our orphanage work in the Caucasus, Greece, Syria, Palestine and elsewhere is outside the control of the Turkish Nationalist Government.
