

## DOES HOUSEWORK LIKE IT WAS PLAY

Mrs. Little Declares Tanlac Restored Full Strength After Overcoming Indigestion.

"Since taking Tanlac my troubles have left me, and I never tire of telling about it," declares Mrs. Johanna Little, 3032 N. 17th St., Kansas City, Mo.

"My food often caused me much distress from gas, sourness and heartburn, and I scarcely ever wanted to eat. Headaches, biliousness and pains in my back kept me in hot water, and I hardly ever got any restful sleep. My nerves were excited and I was so run down it was all I could do to look after my housework.

"I searched the city for the right medicine, and consider it fortunate that I found Tanlac. Indigestion, sleeplessness and nervousness never bother me now, I can do my housework like it was play, and am strong and happy. Tanlac is simply grand."

Tanlac is for sale by all good druggists. Over 35 million bottles sold.—Advertisement.

### Practical Innovation.

Recent discussions concerning the decimal system of weights and measures render more interesting a curious paragraph reprinted in the Journal des Debats from 19th issue of August 22, 1806, when Napoleon I was at the height of his power. It states that there were two dials on the principal building of the Tuilleries, one counting the hours by twelve and the other by ten. "Taking advantage of the need for repairs, the dial divided into ten hours was destroyed, since, as the report goes on to say, 'it had served for no purpose, except to show to what point the mania for innovation was capable of mounting in opposition to the settled habits of all times and all peoples.'"—Washington Star.

## THE SANDMAN STORY

### THE BIG TREES

IT WAS nearly dusk in the forest, but not one of the trees around the big oak tree was ready to be quiet for the night. And no wonder, for they all were very much upset.

That day a woodman had worked his way through the underbrush and had carefully looked at all the trees. He had walked all around the Big Oak and finally made a mark upon the bark.

None of the trees needed to be told what the mark meant. Year after year the same thing has happened to the unfortunate tree that bore the cross. Men with huge axes cut away the underbrush to make a path for their team, and then the dreadful sawing would begin.

But perhaps you do not know about the cruel saw. It is a long piece of steel with sharp, jagged teeth, and at

"Pine Tree, You Are Very Small."

each end is a handle, and with this saw the men work back and forth making a ringing and singing sound as they saw deeper and deeper into the trunk of the tree, but if you are not a tree the sound is quite pleasant to hear.

And this was the reason that all the trees around Big Oak were awake and sighing that night, for they knew it would soon be gone, though their sympathy did not make it any easier for Big Oak to bear the thought of its fate.

Just beneath the Oak grew a small pine tree, not very old, but, oh, so very young as you will soon learn. Vainly had Pine Tree tried to make its voice heard above the moans and sighs of the larger trees, and when it was about ready to give up Chestnut Tree, swaying near, bent a branch low enough to notice Little Pine.

"What is it you are trying to say away down there, Pine Tree?" it asked. "You will have to grow faster if you wish to talk to us."

In a brisk tone that made its needles stand quite straight it said: "I have something to say to Big Oak."

"It is very kind of you to be sorry,"

### HOW MUCH LIGHT?

It is a very hard undertaking to seek to please everybody.—Publius Syrus.

IT IS a usual comment that men like bright lights in their homes while women like the softly shaded light, and the reason for the latter preference no doubt is due somewhat to the fact that the "dim, religious light" is far more favorable to one's complexion than the bright light that finds favor in masculine eyes. But, of course, all men do not like bright, glaring light, nor do all women like the light that is dull.

There are some newly rich people who find some sort of comfort in having all the lights in their homes burning in all the rooms of their houses during the evening. To them there seems to be rare satisfaction in never having to snap out an electric light but to pass from one room to another with no question as to the matter of

sighed the Oak, but tonight I really cannot bear any more sympathy."

Little Pine Tree saw that it had them all interested and bristling its needles it spoke in a sharp, clear voice so that all could hear. "Big Oak," it asked, "what have you ever done that was really useful?"

Big Oak lifted its branches in dismay at such a question; it swayed a little too, before it could find voice to reply, for everyone had looked upon Big Oak as the most important of the forest dwellers.

"Why, my big branches and leaves," it managed to gasp, "do they not furnish shade for all the forest folk who run about below and do not my strong limbs make homes for many others as well, and you ask me, who is the mighty one of the forest, of what use I have been in the world? Oh, this is too much, too much."

"Pine Tree, you are very small to be so wise, but if this be true," said the Chestnut Tree, "how did you find it out? You have never been out of the forest."

"It is rather a long story, but if you will be patient I will tell you all about it," answered the Little Pine.

"My mother was a Christmas tree, of course. She lived in the forest first, but she was marked and then one day she went to a big house and was dressed in gayly-colored trimmings and little children clapped their hands and danced about when they saw us—I mean her, my mother."

"How wonderful," murmured all the trees, looking with envy upon Big Oak, who now had raised itself to its full height and no longer felt sad.

"Did you see anything made of my wood?" asked the Chestnut Tree.

"I had only a little time to peek at things," replied the Pine, "but I know this, that every wood has its use and that if you all grow big and tall you will some day be chosen just as Big Oak is to be carried out of the forest and become useful and perhaps beautiful."

"Thank you, Little Pine, and good-night," murmured all the trees, as they

### JUDITH

JUDITH is sometimes confused with Edith because of its similarity of ending, but this is an erroneous contention. It really had its origin in the difficult northern name of Gydya or Gytha, which, because it sounds like Gith, the contraction of Eadgyth, is believed to have some connection. But Judith is purely northern, having belonged to the proud damsel of Hordaland, who refused to marry Harald Harfagre unless he was sole king of all Norway. Later, it was given to the semi-Danish ladies of Earl Godwin's family and melted into Gjutha. Finally Jutta appears as a contraction for Juditha.

Judith, according to the Old Testament, was the heroine of the book of the same name in the Apocrypha. She was a beautiful Jewish of Bethulia, who, when her town was besieged by Holofernes, the general of Nebuchadnezzar, attended him in his tent and when he was in his cups killed him and cut off his head, whereupon her townsmen fell upon the Assyrians and defeated them with great slaughter. Judith has always been a favorite Biblical name.

Perhaps because of this courageous deed of the Biblical heroine, Judith came to men "praised." Judith and Juditha are favorite English derivatives. The Italians have a particularly

### Wanda Hawley

Miss Hawley, the "movie" star, is one of those women who are just as beautiful in the home or on the street as they are on the stage or on the screen. She is five feet, five inches tall and weighs 124 pounds. She is not what might be called petite, but she has a sprightly charm and vivaciousness all her own. Her real start up the ladder of fame came in 1918, when she was featured in a prominent production.

musical version, Giuditta. Judy is a diminutive, used generally as a form of affection, except in the instance of the Judy of the famous Punch and Judy show.

Judith has been beloved of authors, but curiously enough her name has been rather neglected by the poets. There seems to be no noteworthy examples of odes to her or her heroic deeds. But the lack has not discouraged the popularity of her name in England and America, while the harmonious Italian version has great vogue in that country.

The jade is Judith's talismanic stone. Its milky green depths hold promise of freedom from danger and insure fearlessness in its wearer. It is a curative, according to popular superstition, and hence is believed to ward off disease and the flux of bad luck. Tuesday is Judith's lucky day and 4 her mystic number.

## WHY TAKE LAXATIVES?

Discovery by Science Has Replaced Them.

Pills and salts give temporary relief from constipation only at the expense of permanent injury, says an eminent medical authority.

Science has found a newer, better way—a means as simple as Nature itself.

In perfect health a natural lubricant keeps the food waste soft and moving. But when constipation exists this natural lubricant is not sufficient. Doctors prescribe Nujol because it acts like this natural lubricant and thus secures regular bowel movements by Nature's own method—lubrication.

As Nujol is not a medicine or laxative, it cannot gripe and, like pure water, it is harmless and pleasant.

Nujol is used in leading hospitals. Get a bottle from your druggist today.—Advertisement.

### MOON IS NOT DEAD WORLD

Recent Scientific Observations Seem to Prove Astronomers Have Long Held Wrong Idea.

Astronomers cling to the old idea that the moon is a dead world, destitute alike of air and water. But recent observations of W. H. Pickering, made at Mandeville, Jamaica, go to show that many changes occur with the alternation of lunar day and night. Great snow fields form in the mountain valleys, and then melt away; fog banks are seen and, very rarely, drifting clouds. The loftiest peaks are snow-capped. The moon's surface is pitted with volcanic craters; some of these measure 100 miles across. Each crater is surrounded by a mountain ring 1,000 to 20,000 feet in height.

According to Pickering, there are few, if any, such large and continuously active volcanic regions upon the surface of the earth. But the activity of the lunar volcanoes is now confined to the quiet emission of steam jets, like those found in Yellowstone National park. Certain variable dark areas on the moon may be due to vegetation.

### The Disadvantages of Polygamy.

Occasionally the subject of polygamy comes up. And I have observed that women speak only of the hard fate of polygamous wives, and joy for men. How about a man compelled to settle the rows of three or four wives and listen to their "jawing"? If a wife lacks ability to give an offending husband a whipping, it doesn't mean he escapes punishment.—E. W. Howe's Monthly.

## WOMEN OF MIDDLE AGE

Much Interest Being Shown in the Large Number of Women Safely Carried Through the Change of Life by Lydia E. Pinkham's Vegetable Compound

### The Following Letters Are Impressive

Owing to modern methods of living, few women approach this perfectly natural change without experiencing very annoying and often painful symptoms. Those dreadful hot flashes, nervousness, headaches, melancholia and irritability are only a few of the symptoms incident to this trying period of a woman's life, and the following letters prove the value of Lydia E. Pinkham's Vegetable Compound to overcome these abnormal conditions.

"Fisherville, Ky.—"For several months I was under the doctor's care as he said my nervousness, chills, hot flashes and weakness was caused by the Change of Life, but I did not seem to get any better. I was not able to work and spent most of my time in bed. A friend called to see me and asked me to try Lydia E. Pinkham's Vegetable Compound, and I cannot tell you how much good the medicine did me, as I had such a hard time before taking it. I can only advise every woman passing through the Change of Life to take Lydia E. Pinkham's Vegetable Compound, as it did so much for me."—Mrs. EDWARD B. NEAL, Star Route, Fisherville, Ky.
