FIFTEEN NEW BUILDINGS WILL BE ADDED TO THE BELL SYSTEM IN PENNSYLVANIA THIS YEAR

AND this does not include twenty large additions to present central office buildings.

Nearly four millions of dollars will be spent on building construction alone.

Millions of dollars' worth of equipment will be placed in them-switchboards, cables, terminal room apparatus, and other central office mechanisms.

We spent three millions for land and, buildings last year, but the growing needs for telephone service in Pennsylvania make necessary a continuation of this tremendous construction program.
