

LOCAL AND PERSONAL.

William F. Colyer and two sons, on Monday, caught a nice string of suckers, numbering 14, at Red Mill.

The front of the show room being repaired by L. L. Smith is receiving a coat of paint, the work being done by W. S. Slick.

The eighth community sale will be held in Bellefonte, on Saturday. One hundred and sixty-eight head of registered and good grade live stock and implements will be sold.

A four-passenger sedan of the Willys-Knight type was recently secured by Dr. H. H. Longwell. The Chevrolet sedan, owned by him for some time, but little used, figured in the deal.

The laying of the concrete blocks for the Homan garage was begun the latter part of last week. The work is being done by William and Byron Garis, with Jefferson Slick as attendant.

Luther M. Royer, of Spring Mills, drove a new Maxwell coupe to his home, on Tuesday, having purchased the machine from a Bellefonte dealer. He was accompanied on the trip by Oeris McCormick.

Rev. S. C. Stover, pastor of the Reformed church at Boalsburg, is one of the delegates to the General Synod of the Reformed church in session at Hickory, South Carolina. Mrs. Stover accompanied him on the trip.

Kryder Miller was discharged from the Bellefonte hospital, on Saturday, and was taken to his home near Tusseyville by Edward Durst. The young man, it will be recalled, some weeks ago, had the front part of his foot crushed when he attempted to cross a freight train standing at the Centre Hall station. The injury is healing nicely and in time he will be able to walk without the aid of crutches.

George Glenn has been appointed temporary postmaster at State College, which virtually means that he will be appointed permanently later on. Mr. Glenn has had large experience in the post office business, having for fourteen years served in various capacities in the office of which he is now the chief. At the time of his appointment he was employed in the First National Bank, having quit the post office a short time previous.

The local stone quarry, operated by Chester A. Spyster, is the busiest section in this community. It is now being operated on its largest scale, employing more men than at any other previous time. Since the crusher has been supplied with electric power that branch of the business has been running full force without interfering with the output of stone used in smelting furnaces. The wages paid at the plant are also satisfactory.

One of the youngest students in a class of twenty-three graduating from the Curwensville High school is William W. Kittleberger, son of Mr. and Mrs. Harry J. Kittleberger, the mother being Anna Bartholomew, a former school teacher in the Centre Hall primary grade. He is also the valedictorian. At the close of school he will become a workman in the Curwensville brick yards, and next fall expects to enter some higher educational institution, most likely State College.

J. Henry Smith, wife and daughter, Miss Margaret, of Williamsport, drove through Centre Hall on Saturday and stopped with friends in Centre Hall and vicinity. Mr. Smith is the head of the Smith Printing Company, doing an extensive business in all lines of printing, and until recently, when he resigned, was president of the Williamsport board of trade. Miss Margaret will be one of a touring party to spend six weeks or more touring to California. The party will travel by special trains.

The highways under State supervision leading out from Centre Hall except over Nittany mountain, have been oiled and chipped. Three oil trucks were on hand the latter part of last week and the beginning of this week to perform the work. Some twenty men from various sections followed the oiling outfits and distributed the tons of lime stone chips previously hauled to the side of the road. Heretofore the oiling was distributed over a considerable portion of time, but this season the department is anxious to expedite the work and is endeavoring to have all roads oiled by the close of June.

CATARRHAL DEAFNESS is greatly relieved by constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions.
Circulate free. All Druggists.
