

REBERSBURG.

Prof. C. L. Gramley and family motored to Ridgway the latter part of last week, where they visited Mr. Gramley's sister, Mrs. Heckman.

John Weaver and wife, of Coburn, visited at the Scott Stover home on Sunday.

Mrs. Serene Harry and family, of State College, motored to this place on Monday and visited relatives.

Master Clifford Deihl left on Monday for Pittsburgh where he will spend the summer with relatives.

William Torbet, who is employed in Pittsburgh, spent over Sunday at this place with his family.

On Sunday evening at 6 o'clock the Odd Fellows decorated the graves of their departed members. Rev. Catherman was the speaker of the occasion.

The 17-year locusts have made their appearance in this vicinity and are heard calling "Pharo" from early dawn until dark.

Newton Weber and wife, who went to Lock Haven on Saturday to visit relatives, were run down by an auto while there, and Mr. Weber was badly bruised. He was taken to the Lock Haven hospital where it was announced he was not seriously hurt.

MISS BLANCHE SMELTZER.

Ralph E. Cable, of Philadelphia, is visiting his mother, Mrs. S. S. Cable, of Penn Street.

Miss Pearl McCloskey, daughter of Mrs. Lida McCloskey, is spending the week with her uncles, Dale and Bond Musser, at Bellefonte.

James N. Catherman arrived home Saturday afternoon, after spending several weeks with his brother, Luther A. Catherman, at Penn State.

Miss Blanche Smeltzer, a student at the Lock Haven State Normal school, Monday arrived at her home here where she will spend the summer vacation.

Mr. and Mrs. Earl Swartzel and little son, Earl, Jr., of Burnham, are guests of Mrs. Swartzel's parents, Mr. and Mrs. C. O. Musser, during the week.

C. D. Porter, of Columbus, O., arrived in Millheim Monday to join his wife and little daughter at the W. S. Shelton home. The trip was made in a motor car.

Mr. and Mrs. M. O. Stover, accompanied by Mr. and Mrs. Stuart Breon and two children, on Friday motored to Woodlawn where they visited their son-in-law and daughter, Mr. and Mrs. Earl Cummings, returning home on Monday.

Mrs. Louisa Weaver, with Mr. and Mrs. L. H. Smeltzer, of Philadelphia, motored to Millheim where they spent a few days with Mrs. Leah Christie. Mrs. Christie accompanied her daughter, Mrs. Smeltzer, back to Philadelphia, where she will spend a few weeks visiting there and at Atlantic City. Mr. Smeltzer is a structural engineer employed by one of the largest construction companies in the east.

Mr. and Mrs. J. H. Kreamer, accompanied by their son-in-law and daughter, Dr. and Mrs. John S. Sherger, motored from Harrisburg and spent a day at the A. A. Frank home. Near Liverpool, on their way here, they figured in an accident when a heavy truck backed onto the road in front of them. Quick action on the part of Mr. Kreamer, who was driving the Cadillac coupe, saved them from being hurt, or perhaps killed, but the body of his car was badly damaged.

Jonas E. Wagner, now connected with the State Department of Education at Harrisburg, was recently married to Mrs. Mary Shelly Stewart, of Port Royal. Mr. Wagner, prior to accepting his present position, was the head of the Bellefonte schools and is well known all over the county.

Pennsylvania Eagles will convene in Williamsport next year.

BENEFIT OF GOOD POSTURE

Does Away With Useless Expenditure of Energy and Favors Best Working of Bodily Organs.

Good posture is that posture of the body which best helps man to do his work day in and day out with no useless expenditure of energy, but with the least advantage to the action of the heart and lungs and all the rest of the organs of the body. Good posture is for a lifetime. Life is a test of endurance. Its length depends upon the ability of the internal organs to keep on working and to keep on working together.

Good posture must first favor the good working of the bodily organs, and it must do this at the least expense in effort, which, it must be remembered, costs a certain amount of organic labor to maintain.

Good posture shows vitality, just as good posture helps vitality. We know it when we see it, because we feel the power and strength that is behind it. The essentials of good posture are four—the high head, the high chest, the straight back and the flat abdomen. This is an attitude of power and confidence, an evidence of lithe repose. The arms are neutral, and hang naturally at the side without strain.

Moorish Women's Dull Lives.

The Moorish woman's life is never very exciting or varied, and her many domestic duties tie her to the house. It is only on very special occasions that she is permitted to go out; many never go out at all. The lower-class women are sometimes forced to attend the markets, and are not so particular about covering their faces as the rules of their religion ordain. No strictly religious woman, however, will allow any man but her husband to see her face.

Some of the women are accomplished musicians and dancers, and sing to the accompaniment of their weird native instruments. This is in most cases their only form of amusement. Some of them are also experts at weaving and making tapestry.

Moorish women are seen at their best in the country districts, where one sees them going to a well for water with their earthenware pitchers gracefully poised on their heads or shoulders.

Settlers Introduced Honey Bees.

In reality all honey bees are wild, for they have been but little changed by man, both in structure and in habits.

It does not seem to be generally known that there were no honey bees in America before they were introduced by the early French, English and Spanish settlers.

The old histories contain, however, very few dates on the spread of the bees. The Indians called the swarms, which escaped and settled in hollow trees, English flies. They hated them as precursors of the whites, but they quickly learned to eat the honey.—Exchange.

Origin of "Yankés."

Yankee is a cant name for Americans belonging to the New England states. During the Revolution the name was applied by the British to all the insurgents and during the Civil war it was the common designation of the federal soldiers by the Confederates. In Great Britain the term is sometimes improperly applied generally to natives of the United States. The most common explanation of the term seems also the most plausible, namely, that it is a corrupt pronunciation of English or of French "Anglais" formerly current among the American Indians.

Nature's Wonderful Mechanism.

It has been estimated that the power developed by 1,000,000 Niagars in 1,000,000 years would not equal the energy expended by the earth in a single second as it circles around the sun. And yet, so perfect is the mechanism that, flying around its axis at an equatorial speed of more than 1,000,000 miles an hour and around its orbit at more than 1,100 miles a minute, all the mundane influences of which astronomers know could not change the length of its day as much as a second in 100,000 years.

LEGAL ADVERTISEMENTS.

ADMINISTRATOR'S NOTICE.

In the estate of ELIZABETH A. RUNKLE, late of Centre Hall Boro, deceased.

Letters of administration on above estate having been duly granted the undersigned, all persons knowing themselves indebted to the estate are requested to make immediate payment, and those having claims against the same to present them duly authenticated for settlement.
