The United States Railroad Labor Board is kicking up its heels because the Pennsylvania Railroad company made direct agreements with its employees. It was understood when this board was created that its function should be to bring about unity between employer and employees, but it appears that in the case now under discussion the Labor Board is nothing less than sore because the Pennsylvania and its men got together. This is another case where too much interference in business is detrimental to all concerned. Left alone, the Pennsylvania Railroad company and its thousands of employees will again revert to that sense of duty and loyalty which was of old the pride of both management and men.

The brick and concrete block garage erected by J. Fred Kurtz, in Lewisburg, is now occupied by him. It is a one-story building, but presents an unusually handsome appearance. Mr. Kurtz is a sales agent for the Ford.

**Touring Notes from Mr. and Mrs. George E. Meyer.**

Summit, South Dakota, June 15—This is a town of 375 population, and has a free tourists' camp ground which we are on. Up to this time we have driven 1500 miles; the roads today were good—drove 235 miles. We did not stop to see any sights as we could see all as we drove along. The country was mostly level and farming the chief occupation—corn and spring wheat, some winter rye and alfalfa hay. The hay is being made now. The land is good and crops look good.

Monday evening we came to the home of Orlando Weaver, Sparta, Wis. Mrs. Weaver was Nora Haffley, of Aaronsburg. They lived at Rebersburg some years ago; they were glad to see people from Pennsylvania. We stayed with them until Wednesday morning, when we started toward the Mississippi River and crossed at Winona, Minn. visited the J. R. Watkins Medical Co. building, which was a great treat. We set up camp at Winona tourist camp ground. Campers were there from Texas, South Dakota, Iowa, Minnesota, Michigan—a dozen or more cars. In the evening we went into town to a band concert, having been invited by the leader of the band, who has a large furniture and piano store in Winona.

Thursday we went to the twin cities—St. Paul and Minneapolis. The drive through the cities was more than twenty miles. That night we camped at Hopkins.

We are getting along fine and are in good health. We find everybody good friends of tourists.

GEORGE E. MEYER.

**50-50 ON BALL GAMES.**

(Continued from first page.)

For six innings State College and Centre Hall played a good brand of baseball on the new Beaver field, State College, Saturday afternoon,—then the Centre Hall boys went to pieces and allowed "Stafe" to collect nine runs on a combination of hits, errors and what-not, and the game went to State by the widest margin yet recorded in the county league this season.

**Plans of The Railroads For Greater Public Service**

The Hall Mark of Service

"Anticipating the greatest volume of freight traffic in their history this year, the railroads have adopted a concerted policy and intensive working program to enable them to meet the growing transportation needs of the country.

"In full realization of necessity for the greatest improvement and expansion possible of the country's transportation facilities to meet the growing demands of commerce, the railroads have authorized, since January 1, 1922, for cars, locomotives, track, and other facilities, the expenditure of \$1,540,000,000, of which \$440,000,000 actually was expended during 1922.

"The railroads are raising this enormous amount of additional capital largely through borrowed money on the abiding faith in the fairness of the American people and reliance on continuance of the policy announced in the Transportation Act of 1920, as a measure of reasonable protection to investment in railroad property.

"From January 1, 1922, to March 15, 1923, the railroads purchased 223,616 new freight cars. Of these, 117,280 have been delivered and put in service. The railroads during that time also purchased 4,219 new locomotives. Of that number 2,106 have already been placed in service.

"The railroads confidently look forward to the successful movement of the largest volume of traffic in the history of the country and pledge their best efforts to that end."

—From a joint statement by the Association of Railway Executives and the American Railway Association.

WHAT YOUR FRIENDSHIP MEANS

We want your friendly co-operation. It means much to the railroads, equally as much to the public. Our interests are identical, with a common purpose working towards a common end—the best possible transportation service.

**CATARRHAL DEAFNESS**

is greatly relieved by constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the system, thus reducing the inflammation and assisting Nature in restoring normal conditions.
