

Touring Notes from Mr. and Mrs. George E. Meyer.

To-night (June 28) we are camping at Missoula, Montana. Since writing last we have seen much that was new to us and interesting as well—one thing is, most of the time we could see snow on the mountains somewhere. When the sun shines it is warm, but cold if it does not shine, and the nights are all cold—it takes lots of cover.

Saturday evening we went into Yellowstone Park and camped at Mammoth Spring. Five miles from the north entrance we paid \$7.50 to get in the park and that gave us leave to all inside. Sunday was wet and cold so we stayed in camp till Monday when it was bright and warm. Our trip through the park took two days. The things to see are numerous; the hot springs were a sight; at one of them on Monday noon we boiled six eggs right in the water as it came up out of the ground. The falls and grand canyon are beautiful; the larger one of the falls has a drop of 309 feet, and plank steps down to the top of it. The canyon below must be seen to be appreciated. We saw deer, bear, elk, buffalo, and took pictures of the elk and bear.

Most of the country in Montana we have passed through is mountainous; some nice farm localities.

Tomorrow we expect to get out of the state. The rain seems to be over and the roads are dry. About half the tourists we see now are from California going eastward.

We are both well and moving right on. Have traveled 3,020 miles.

GEORGE E. MEYER.

The Lewistown Gazette is bemoaning the frequent violations of the parking rules issued by the Lewistown town council. The thing the Gazette ought to do is induce its city fathers to use common sense in formulating its ordinances. Of course, the best of laws are violated by a certain class, yet it may hold the respect of the people and be generally obeyed. A law totally ignored is one usually not needed.

CATARRH DEAFNESS
is greatly relieved by constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrh Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound of imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surface of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions.

Said the Ruble to the Mark:

Said the Ruble to the Mark: We don't amount to much, do we?"
"No," said the Mark, "How can we? Our folks have gone back on us—they reckon us as little account." "Too bad," said the Ruble, and so it is.

When people "go back" on their money, prosperity dies and reckless spending begins; for money is, after all, an expression of confidence in our glorious country and its wonderful resources.

We are proud of the position the American Dollar holds to-day, due in a great measure to the National Banking System. The First National Bank of Centre Hall is a part of that great system.

For Handling Coil Stock.
The loading and unloading of heavy coils of wire or rod-stock, never a simple proposition, is expeditiously effected by means of a novel conveyor developed by a Wichita (Kan.) concern for use with its electric tramrail system. The coil conveyor is in the form of a steel hook about eight feet long, and will carry a ton of rod-stock at a time. In conjunction with electric hoists it makes the loading and unloading of this sort of material cheap and easy.—Scientific American.
