

LETTERS FROM SUBSCRIBERS.

A Welcome Awaits Centre Countians in California.

Dear Editor:
Fullerton, Calif., July 30, 1923.

We can't do without the Reporter—check enclosed to keep it coming. I suppose eastern papers give startling reports of the earthquake last week. It is not an unusual occurrence, and there is nothing pleasant about being called from sound refreshing sleep to find the earth rising, falling and swaying from side to side in a sort of "shimmy." However, I don't believe it is as bad as lightning. I have in your paper of July 26th the experience of Mr. Garrity. Our shoes may be left on the right side of the bed and in the morning we find them shaken over to the left side, or vice versa—but they are still intact. We discover a crack in the plastering, or a door may refuse to close properly, but no floors torn up. There is no danger in a frame house—bricks are uncertain and not used so much, but when they are, they are very well put up.

We had a real last week from Mr. and Mrs. George Meyer of Boalsburg. We regretted much that their time was so short.

All Centre countians coming this way please take notice that our address is 402 West America Ave., Fullerton. With kindly greetings to all old friends, I remain,

Very sincerely yours,
HOWARD J. HOMAN.

Place Two Buckets Side by Side

Let one, with a hole in the bottom, have a large stream running into it. This bucket will always be empty. Let the other have water dripping into it regularly, but only drop by drop. This bucket, having no leak, it will be only a matter of time until it is full and overflowing.
