DAIRY FEEDS.

COW CHOW AND LARRO ARE TWO LEADERS.

Buy a ton of Purina Cow Chow and you will understand why big dairymen insist on this ration. It is all feed and contains no cheap filler.

The biggest dairies in the country are among the most satisfied users of Purina Cow Chow. Why? Because every pound you feed shows up in the milk pail.

In each 100 pounds of Cow Chow there are 24 pounds of protein. It is pure feed, and perfectly balanced to go with home-grown roughage andilage.

Purina Cow Chow has put the proof right in the pail. More milk from Cow Chow, is what all the dairymen say who feed it.

Half a Million Miles

To the moon and back again with enough left over to wrap around the earth.

That's how much new wire is being added to the Bell System in Pennsylvania this year.

And in 1924 we expect to add 630,000 miles.

New buildings are being constructed, twenty-two of them, thirty large additions to other buildings, ten millions of dollars' worth of new switchboards and Central Office equipment, seventy-six thousand new telephones.

Factories are working day and night, train after train is hauling the equipment.

To what end?—That the telephone system in this state may keep pace with the needs of the people.
