LISTEN, FARMERS.
A cow cannot any more keep up milk production without protein than you can build a fence without posts. But your protein must be balanced by carbohydrates and fats. Milk sugar and butter fat are built up from carbohydrates and fats in feed. You will note there are 6 ingredients in whole milk, namely: Casein, albumen, phosphorus, lime, milk sugar and butter fat. To obtain more milk at a less cost you must feed a balanced ration. Balanced to give you your milk ingredients.

Please note that in COW CHOW you have a perfect balanced ration—linseed meal to make your casein; corn gluten feed your albumen; cotton seed meal your phosphorus; alfalfa meal your lime; cane molasses your milk sugar, and corn meal your butter fat.

Give COW CHOW a trial for one month and you will be surprised at the results obtained.

"COLD IN THE HEAD"
is an acute attack of nasal catarrh. Those subject to frequent "colds in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the system and render them less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions.
