

REBERSBURG.
Merk Edwin Gulsewitz is on the sick list at present.
One night last week a party of young folks from Millheim enjoyed a skating party on the mill dam at Wolfs Store.
Mrs. Flete Meyer, widow of the late David Meyer, who suffered a paralytic stroke last summer, is still confined to her bed and is almost helpless.
The other day while Joe Smull was working in the woods a heavy limb struck him on the ankle. He is now hopping about on crutches.
Billy Hackman, Jr., while cutting wood at his brother's home was struck on the right hand by a stick of wood, which has caused a painful wound.
Ed. Byers, who owns and operates the Rockville grist mill, has decided to move to Millburg in the spring, to be employed in the body and gear works.

A State stone crushing outfit was brought to this place on Friday and will be placed at the H. H. Royer stone quarry, two miles east of town. Mr. Royer will begin crushing stone as soon as the weather permits.
On Friday Mrs. Miller, widow of the late Snyder Miller, left for Illinois where she will spend some time at the home of her daughter and son-in-law, Mr. and Mrs. Jordan. Mrs. Jordan came east to accompany her mother to her western home.
The bringing in to our town school the scholars of the Gramley district and Wolfs Store district has overcrowded the four rooms in the town school house. The school directors have decided to build another school house on the same lot on which stands the present brick school house. We are informed the new building will be used for the primary grade.

SPRING MILLS
A daughter was born to Mr. and Mrs. Charles Hennigh on January 23rd.
Mrs. Jasper Wagner is ill at this writing.
Window Gramley was to Ohio to see his mother. She is improving slowly.
The grip is the cause of much illness hereabouts.
John Gramley and John Andrew Myers, students at Penn State, were visitors over Sunday at their homes.
Charles Auman is driving William Bitner's milk wagon; Mr. Bitner is suffering from a cold.
Mrs. Steffer, of State College, is ill at the residence of her son-in-law, Ammon Decker.

The Grangers held a social on Friday evening; quite a number were present to enjoy the "eat".
Mr. and Mrs. Harry Allison attended the funeral of Mrs. Allison's brother, Harold Boob, at Woodward, on Saturday.
The Evangelical Sunday School held a social on Wednesday evening in the Grange hall. About seventy were present and enjoyed themselves. Choice refreshments were served.
A game of basketball was played on Friday evening between Milroy and Spring Mills Vocational, in which the local team was returned a winner by the score of 33 to 9.
An interesting sermon was preached on Sunday afternoon at the Holy Cross church by Rev. J. M. Reareck of Elk Lick. His many friends were glad to see him as they were also to see Dr. Fischer and Rev. Bleber.

FARM CALENDAR
Timely Reminders from The Pennsylvania State College
Order Your Cabbage Plants—Greenhouse men are starting the early cabbage plants. They can regulate their sowings better if they receive your order now. In this way there will be fewer disappointments next spring when some people usually have to be turned away.
Inoculation For Legumes—During the past three years, the State College bacteriological department has been supplying bacteria cultures for legumes. The cultures are supplied at cost but several days notice must be given. Supplying the necessary bacteria is required for growing legumes but inoculation does not take the place of lime. The bacteria will not grow in an acid soil.
Care of the Breeding Flock—In order to obtain the best possible results during the coming hatching season, it is necessary that the breeders be in the best physical condition. Exercise is essential to good health. Scatter the scratch grain in six or eight inches of good clean straw and force the birds to work for it. A good mash mixture should be fed in open hoppers and plenty of green food given at noon.
Good Butter—Butter making begins with the production of good, clean-flavored cream. To obtain practically all the cream from the milk and have it in the best condition requires the use of the cream separator. The thorough cleaning and sterilizing of all dairy utensils is essential to the production of butter of good flavor.
Spray Materials—Fruit and vegetable growers who are forehanded will take stock of their supplies of fertilizers and spray materials and will make up their orders for the amount they need.

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and assisting Nature in restoring normal conditions. All Druggists.
