When it became apparent that the bank was weakening, Mr. Shugert worked in vain to avoid closing the doors, having been in the bank most all his life and having a number of close friends who were interested in its success and the strain caused a total physical collapse.

Besides the parents, there survive the child one brother, Charles Clifford. The mother is a daughter of Mr. and Mrs. Philip Leister, formerly of Potters Mills.

SHAFFER.—George B. Shaffer was suddenly stricken with heart trouble while passing the residence of James Fulton, on Foster Avenue, State College, last Wednesday morning. Mrs. Fulton assisted him into her home, but death came within a few minutes.

And further recommend that a door be cut through the dungeon for the purpose of exit in case of fire; and recommend the removal of all temporary electric wiring in the prison and that the locks on the cells that are broken be repaired.

"THE COVERED WAGON"
The Great American Picture Coming to Bellefonte Opera House.

There is no more interesting story to Americans than one relating to our interior development such as Emerson Hough uncovers in his marvelous narrative of "The Covered Wagon."

For its first season its runs in New York, Chicago, Boston and Los Angeles have created a furor everywhere and it stands today the most popular and best discussed of all motion picture productions since and including "The Birth of a Nation."

"The Covered Wagon" will be presented at Bellefonte for the first time on Friday, March 7, matinee and night, at the Opera House, exactly as given in the leading cities where it has been played to date. The cast is an exceptionally strong one including Lois Wilson, J. Warren Kerrigan, Tully Marshall, Ernest Torrence, Ethel Wales, Alan Hale, Charles Ogle, Johnny Fox, thousands of Indians and never to be forgotten "prairie schooners." A special score is played in accompaniment by twenty selected musicians from the adaptations of Hugo Reisenfeld who supervised this detail of the production.

Mr. Hough takes a simple love story of heart interest and adventure as the basis upon which he works his larger theme of bringing out the wonder story of how the heart of America was developed. It is the narrative of the hardships and adventures of those early pioneers who followed the Oregon trail westward in 1848 and in Utah reached a dividing line, some going to the gold fields of California and others forthward to Oregon and Washington.
