HOG FEEDERS Circular BROODER HOUSES CHICKEN ACCESSORIES

DO YOU KNOW that you can more than double your profit from hogs by using a Self-Feeder? This is not an idle claim. It has been proved by Pennsylvania State College and by farmers who have given it an actual test. Two lots of fifteen hogs each were fed for ninety days on a ration of cornmeal, buckwheat middlings and tankage, Self-Fed to one group and Hand-Fed to the other. Here was the result:

Self-Fed 88 lb. Profit above feed cost \$7.41 \$3.18

This test shows in dollars and cents what a Self-Feeder can do for you. If you had been the owner of those fifteen hogs, you would have earned \$111.15 in 90 days. This is \$63.45 more than you would have earned if the hogs had been hand-fed. In other words, the original cost of the Self-Feeder would have been more than repaid in 90 days and you would have a generous profit in addition.
