

## COPS TO QUIT NOSING.

State Highway Not a Party to Annoyance by State Cops of Auto Drivers.

Last week attention was called to the fact that State cops were reported as becoming unnecessarily noisy and were asking drivers questions of impertinent character.

The State Highway Department has again issued orders that the indiscriminate stopping of motor cars by members of the state highway patrol must stop. Benjamin G. Eymon, state registrar, declared in announcing new instructions to patrolmen.

"We cannot see any necessity for the indiscriminate stopping of motorists to see their cards unless a drive is made simultaneously over all the state and only on order from this office at stated periods," he asserted.

Mr. Eymon said reports of abuse threatened arrest and even arrest on the part of patrolmen had been made where operators failed to have their cards and pointed out that except in cases of an accident, intoxication, suspicious driving or some violation of the motor law there is no reason for patrolmen to stop every car to ascertain whether the driver is carrying his proper cards.

In demanding courtesy on the part of the patrolmen Mr. Eymon said "It is not the intention of the department to persecute motorists or unduly annoy persons who appear to be observing the motor vehicle laws."

## FARMS MUST EARN MORE.

There are several reasons why farm earnings are showing a decline partially due to economic discontent and political agitation.

Statistics show that large numbers of tenant farmers have accumulated funds out of farm earnings toward becoming farm owners, but the process is slow and one of considerable difficulty.

Increase in valuation of farm land has two effects: purchasers can borrow more money to meet payments, but higher prices for land discourage tenants from buying.

Desirability of farm land is not enhanced by too much academic discussion about employing family labor without wages, or underestimating the value of such labor.

All reports show that tenant or farm owners having good sized families, and largely employing family labor on the land are more prosperous and successful than farm operators without families.

Where the tenant has no family labor from which to increase his margin of return over necessary expenditures, he carries an additional handicap in this struggle to become a farm owner.

The same general fact holds true with those who own farms, but are compelled to employ all their labor at present prevailing high wages.

## Reforestation Waste Lands.

Approximately nine and one-half million trees will be distributed from the nurseries operated by the State Forest Department. It is almost twice as many as were furnished to private land owners in 1922 and three times as many as in 1923. The trees are distributed to private land owners for timber production. The only charges made for these trees is the cost of packing and transportation. Officials of the Department have figured out that this charge amounts to only about one cent for ten trees.

Four million trees will be shipped from the Mont Alto nursery; three million from the Clearfield nursery, and one and one-half million from the Greenwood nursery. White pine, pitch pine, red pine, Scotch pine, shortleaf pine, Japanese larch, Norway spruce, white spruce, black walnut and white ash are the principal trees that are being shipped.

Forestry officials say that the trees shipped from the State nursery this spring will reforest about 10,000 acres of idle land and when mature the trees will yield approximately 350 million board feet of fine lumber that is urgently needed by the people and industries of the State.

## FIRST GAME A VICTORY.

Bellefonte High School Tastes Defeat at Hands of Local High.

The baseball season opened locally on last Wednesday afternoon when Centre Hall High defeated Bellefonte High on the home grounds by a score of 4-2. Being the first game of the season it was nevertheless a much better ball game than might have been expected. "Doc" Crawford, the veteran pitcher, was in mid-season form and moved the hits were made in fine fashion. Only five hits were made on each side; the local pitcher fanned fifteen of the Bellefonte batsmen—do you see what we mean by saying "mid-season form"?

The game was won in the very first inning when Centre Hall hit the ball and Bellefonte piled up three errors. Here's the work of the first big league we mean school league—game:
