Domestic science experts say, "Cream of Tartar baking powder is the best"

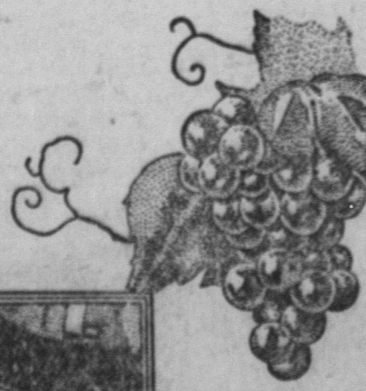

Recently a representative group of Domestic Science experts in all parts of the country was asked "which type of baking powder do you use and prefer?" 83% unhesitatingly replied "Cream of Tartar." An overwhelming sentiment in favor of cream of tartar for perfect baking.

Cream of tartar was one of the first leavening agents to be used in baking. For years the best cooks insisted on cream of tartar for perfect cakes, biscuits and other baked foods. Then came Royal Baking Powder, in which are perfectly blended soda and pure cream of tartar derived from grapes grown in the famous vineyards of Southern Europe. For 50 years Royal Baking Powder has been used by the housewives of America for successful baking.
