**COMMERCE**

One-sixth of the time ships save in using the Panama Canal pays their tolls. This is simply a saving in boat operation; the saving in speeding merchandise to markets is an additional gain.

The Panama Canal is a spectacular demonstration of countless similar savings to commerce through viaducts, highways, tunnels and bridges shortening routes and making them safer through Portland Cement.

Atlas is also making homes safer and more permanent. If you plan building, ask your dealer how and where you can be benefited in using "the Standard by which all other makes are measured."
