Bernard Coble, of Williamsburg, visited his uncle and aunt, Mr. and Mrs. Lanson Burris, in Centre Hall.

The sixteenth annual Fisher reunion is scheduled for Saturday, August 16, at Rolling Green Park, between Sunbury and Selinsgrove.

Rev. W. K. Shultz, accompanied by his eldest daughter, arrived in Centre Hall on Monday to be with the remainder of the family at the Keller home.

Monday Grover Weaver, of Centre Hall, began work in Altoona as a truck driver on a milk route for the Harshbarger brothers, who have long been in the retail milk business in that city.

Domer S. Ishler is back on rural route No. 2 from Centre Hall after having been on sick leave for a month. The mail during that time was delivered by H. C. Reish, the regular substitute.

Mr. and Mrs. F. V. Goodhart, Miss Ethel Foreman and Harry Potter, also G. Alfred Crawford, drove to Altoona on Tuesday to see the Cincinnati-Philadelphia baseball game.

Five dozen new tablet arms chairs have been ordered by the Centre Hall school board for the new high school. With the thirty of this type chair on hand, the addition will give a total of ninety tablet arm chairs for the new school, in addition to several dozen comparatively new single desks.

Prof. V. S. Beachley, wife and daughter, of Pittsburgh, motoring through Pennsylvania, stopped off at Centre Hall beginning of the week with Prof. and Mrs. L. O. Packer, for a short visit. Mr. Beachley is assistant principal of the Allegheny High school, where Mr. Packer is also an instructor.

On Sunday Mr. and Mrs. L. O. Packer entertained company, among whom were Mr. and Mrs. H. E. Bressler and children Helen, Margaret, Grace and Horace, of Sunbury; Mr. and Mrs. John J. Snyder and children, of State College; Mr. and Mrs. J. Cloyd Brooks and daughter, Miss Florence, of Rhonemede.

After a vacation of about two months, Miss Adeline McClenahan returned to Baltimore to resume stenographic work. She was accompanied back to the city by Mrs. Hippie, with whom she has been making her home since being in Baltimore. Mrs. Hippie was here to visit her mother, Mrs. Clara Meeker, and sisters and brothers, living in this section.

George Jordan and little son Charles, were callers at this office on Tuesday. Mr. Jordan is farming the Joseph Conner farm, in Georges Valley, but has concluded to make sale of his farm stock and implements this fall and retire from farm life. He is obliged to discontinue farming on account of his health, which has been hampering him very much since last spring.

Daniel Bloom, one of the State Highway truck drivers, was put out of commission temporarily one day last week, when ascending Nittany Mountain from the Pleasant Gap side, the engine of the big truck became so hot that the radiator cap was blown off and the flow of water struck him on the face and body. To escape scalding he jumped from the machine and in doing so injured his knee. Beginning of this week the injuries were pretty well repaired.

A touring party to Buffalo and Niagara Falls, which left here early Tuesday morning, consists of Mr. and Mrs. D. A. Bözser, Mr. and Mrs. Frank M. Fisher, Rev. and Mrs. R. E. Corman, Mr. and Mrs. William Bradford, Mr. and Mrs. J. Shannon Boozer, and Miss Lola Ulrich, all of Centre Hall, except Mr. and Mrs. Corman. They are traveling in several cars and "out" passed over the Susquehanna Trail, north to the New York State line.

Among the Reporter's patrons to call at its office on Monday was Andrew Imml, of Fairview, a suburb of Erie, who for a number of years has been engaged as a caretaker of the Phillips estate, owned by Henry Phillips and Miss Phillips, Pittsburgh millionaires. He is a native of Penna Valley and keeps in touch with local affairs here. He came to Millheim on a sad mission, that of laying to rest Mrs. Imml, an account of whose death appears elsewhere in this issue. Before returning home he went to State College to visit relatives. While in town Mr. Imml also spent some time with A. C. Ripka, an old acquaintance.

Mrs. Anna Harrison and sister, Mrs. R. F. Williams, returned Saturday evening from an auto trip which covered over eighteen hundred miles. The route was to Niagara Falls, thence west through Lorain and Sandusky, the two towns which were partially destroyed by cyclone several weeks ago. From Sandusky the route led through Lima, Dayton, thence west to Indianapolis. From there to Decatur, Illinois, where the trip ended in a pleasant visit with an uncle and aunt. The trip was completed with a minimum of car trouble—the only event of the kind being two punctures. The West boasts of great crops of wheat and oats. Corn is looking good but is late, according to the tourists.

Monday night in Bellefonte a half dozen cars were run by hand for several squares, attempts evidently having been made to get away with them, but failure was due to the fact that every car had been securely locked against such a move. Some of the cars were pushed several blocks, down hill, and left stand at very conspicuous places. It is presumed that some of the Rockview pen birds who escaped the night before came into town and made an effort to make their getaway in the cars, all of which were tampered with, having been parked on streets in the residential sections of the town.

The notification took place in Clarksburg, West Virginia, the home of the candidate, where were gathered supporters of the candidate from all states in the Union.

Below will be found some of the Davis pledges as set forth in his speech of acceptance:

An honest, impartial and, so far as human wisdom will permit, a just government.

Opposition to any challenge—organized or unorganized, under whatever name or in whatever character it may appear—of the constitutional guarantees of religious freedom.

Enforcement of all laws, including the prohibition amendment and statutes enacted under it.

Agricultural aid through revision of the tariff; governmental assistance in extending the co-operative marketing principle and by other means.

Reduction in taxation and revision of the tariff.

Economy in Government, but NOT the kind that deprives Government employees of pay equal to that they would receive from private employers for similar work.

Approval of the World Court.

Co-operation officially with all legitimate endeavors, whether from the League of Nations or from any other source, to lessen the prospect of war; to aid in repairing the ravages of past wars; to promote disarmament and to advance the well-being of mankind.

To maintain the means of adequate national defense "until reason is permitted to take the place of force."

In opposition to the impairment, "either by injunction or by any other device" of the rights of labor to organize and to bargain collectively for "an adequate wage earned under healthful conditions."

The protection of women and children from human greed and unequal laws.

Prevention of child labor and suppression of the illicit traffic in soul-destroying drugs.

Conservation of all the natural resources of the country.

"Grateful care" to the "veterans of our wars, especially to those who were stricken and wounded in the country's service, and whose confidence has been so cruelly and corruptly abused."

Animal Plagues Let Loose.

The true reason for famine prices of some articles of farm produce in Europe is given by Dr. E. A. Watson of the Health of Animals Branch of the Canadian Agricultural department, Ottawa. He says that it comes from disorganization and paralysis of the veterinary service in many parts of Europe. This has allowed infectious disease to spread from country to country, such as foot and mouth disease, butter, meat and other animal foods are almost beyond the reach of the common consumer. Much suffering and ill health results especially among the children.

Gratitude.

"The recent spurge of sentiment and sentimentality over the author of 'Home, Sweet Home,'" remarked a Detroit newspaper man, "did not impress me greatly. I happen to know that the flowers placed on the grave of Payne on the one hundredth anniversary of the birth of the song were the first floral offerings placed there in more than 20 years."—Detroit News.

THE TREND IN FARM LABOR SUPPLY AND DEMAND

Farmers are cutting down hired help. The demand is estimated at only 89 per cent of normal as compared with 95 per cent a year ago, according to a statement issued by the Washington office of the Sears-Roebuck Agricultural Foundation based on data from government sources. The low purchasing power of farm products has forced the farmer to rearrange his operations. He is coming to depend largely on his own and his family's labor. In many cases the hired man is being dispensed with entirely.

Farm help costs more today than at any other time in the past sixty-one years. Wages demanded are higher than a year ago and rates for 1923 averaged above all preceding years. The peak year in the wage scale was in 1920. That year labor was scarce. According to the accompanying chart, in June of 1920 the supply was but 73 per cent of normal, while the demand was 105 per cent of normal. During the latter half of 1920 and through the first six months of 1921, the labor supply curve took a sudden upward swing, and in June of 1921 it was 95 per cent of normal, while demand had dropped to 87 per cent. Until in June of 1922 the supply curve continued to rise, reaching its height at 105 per cent of normal, while the demand was but 80 per cent normal.

With the beginning of 1923 city labor wages improved. Large industrial centers drew farm help cityward. Farmers had to pay wages out of proportion to what the farm could earn to hold their men. In June of 1923 the demand saw 95 per cent of normal, while the supply curve was sagging to 84 per cent. The latter half of the year demand lessened, due to excessive labor costs and the increasing supply. This year demand has made still further decline, until now it is but 81 per cent of normal, while labor supply, which is gradually increasing, is estimated around 89 per cent.
