

LOCAL AND PERSONAL.

Next Monday morning—school.
Guy P. Springer, of State College, is assisting F. P. Geary, the barber, in his shop during the rush of work this week.
The new dean of the school of chemistry at Penn State is Dr. Gerald L. Wendt, succeeding Dr. G. G. Pond, who died in 1920.

A boy sizing up to nine pounds was born to Mr. and Mrs. Frank S. Long, in Washington, D. C. The mother is a daughter of Mr. and Mrs. Geiss Wagner, in Centre Hall.

During the absence of the Ross A. Hickok family in Massachusetts, their Harrisburg home was burglarized, the robbers securing a diamond star pin, watch, and Mrs. Hickok's engagement ring.

All the contents of the house occupied by Mr. and Mrs. Homer Zeigler, in Clearfield, were burned when the house was destroyed by fire. Mr. Zeigler is a son of Josiah Zeigler, former janitor of the Bellefonte court house.

George Sweeney, of Potters Mills, one of Potter township's school teachers, purchased a new Ford touring car. Clayton McKinney, also of Potters Mills, purchased a second-hand Ford roadster. Both purchases were made through F. P. Phillips.

Grange Park never looked prettier than it did at the opening of the fifty-first anniversary of its birth. The grounds were not mowed this year, but were mowed at haying time. The result is a thicker and greener sward that will withstand more hard tramping without doing harm to it.

John M. Egan recently handed to the board of managers his resignation as warden of the western penitentiary to take effect early in the fall. The contemplation of a year's rest from business cares is the reason given by Mr. Egan. It is stated on good authority that first deputy warden Stanley P. Ashe will be appointed to succeed Mr. Egan.

Mr. and Mrs. Edward Darlington were guests of Mrs. Darlington's cousin, Mrs. Charles H. Foust, and family, at Centre Hill. The little daughter of the Darlingtons, who had not been in the best of health, was at the Foust home most of the summer and accompanied her parents home. Mr. Darlington is a graduate of Penn State and is employed in the P. R. R. offices in Altoona.

A trip to Baltimore was made last week by Paul Fetterolf, Miss Ethel Frank and the latter's brother, Ernest Frank. On their return home they brought with them Miss Adaline McClenahan who has been employed in that city as a stenographer for several years. It was reported that both couples had been married, but the Reporter was assured that this report at least was previous.

Last week mention was made of the contemplated sale of farm stock, implements, etc., by John F. Breon, on the Allison farm, at Spring Bank, without giving the date. The time set is March 18th, and Mr. Breon is announcing the date early so that others in that community contemplating sale during March of next year will not unknowingly fix the same time. E. M. Smith is his auctioneer.

The first gift of importance to be given by a member of the Sunset Club toward the furnishing of the house was a handsome card table by F. V. Goodhart, and the second a pool table, cues, balls, racks, basket and rake by Frank M. Fisher. The table is in the best of condition from cover to legs, and has been installed in the large front room of the second floor of the club house.

One of the neatest buildings on Grange Park used for vending is that occupied by the Dewart Products company. It is a one and one-half story structure with a concrete floor. The first floor is being used for serving the famous Dewart ice cream, and the second for sleeping quarters for the boss and help. A well appearing business stand anywhere anytime is a bid for business and never fails to get results.

During the winter of 1921, George E. Whippo came to the home of Mr. and Mrs. Wilbur Bland, relatives, in Centre Hall, and was then suffering very much from the effects of injuries received during the World War. On Monday he again reached the Bland home for a brief vacation, but has so much improved physically that he was scarcely recognized. During this time he has been under government care and is now taking vocational training in New York city.

There is much being said today about the auto road hog rooting from the road pedestrians, but it is doubtful if any persons using the road assume more privileges than the pedestrian. It is nothing unusual for some persons who walk on the road to take their rights on either the right, center or left of the road, and they hesitate little to cross the road in front of your car so close that it makes the driver shudder, when his gate is even below that permitted. The pedestrian should remember that when a car approaches, although in the hands of the most skilled and careful driver, a thousand things may happen to interfere with the proper manipulation of the machinery and make it impossible to guide the machine to where he intends it to go, while the person on foot has a control that Henry Ford cannot imitate. There is no intention here to argue for the road hog, there is enough danger when the same are at the wheel. The pedestrian, like the same auto driver, should not stand too much on his rights. If both be careful, many accidents will be prevented, and let us all advocate that both be careful and not stress the rights of one to the detriment of the other.

BEECH-NUT CHEWING TOBACCO

"Just as much" is not "Just as good"

Over one-third of all the tobacco chewers in the United States have proved that.

The demand for BEECH-NUT Chewing Tobacco alone is more than 250 million packages in a single year.

That's because we didn't let tobacco growers, labor, manufacturing costs, State, Federal and revenue taxes collect their increases from the quality or the weight.

BEECH-NUT Chewing Tobacco is the same in 1924 as in 1915. Still the most of the best for 10c—still the best chew at any price—still the favorite everywhere.
