Now, while approving of the motives that actuate Senator LaFoHette's following, and sympathizing with their aims, we Democrats do not believe in all the measures they propose as means of effecting more equitable government. We feel that they have been misled by an excess of zeal into false courses. Above all, we are sure that in their effort to defeat the reactionary tendencies of Republianism they have picked up an unserviceable

The Health Program was held in the Grange hall at 10:30 A. M. and was better attended than ever, both from the grade school and parent standpoint. The senior girls in the Home Economic Child Care class took the responsibility for this meeting. Songs were sung by the Spring Mills grades and by the outside township schools; stories were told by Misses Hagan and Corman; two health plays namely, "Following the Milk Can" and 'Milk for the Whole World" were given by the primary and intermediate grades. The program was concluded with motion pictures. The boys and girls, as well as the grownups were very much interested in the entire program.

LETTER FROM FAR WEST.

Gregg township was held at Spring and in later years moved to Mifflin L was born near Centre Hall, Pa., county where I spent a few years until I became of age and took my departure for the middle west where I met and married Mrs. Crotzer, in Iowa. In November, 1923, I brought my family to Red Bluff. California, where we expect to make our future home. We think it a grand and glorious sunshine State, where the roses bloom the year 'round. We find it a wonderful climate and a beautiful country around Red Bluff. We live on a thirty-five acre fruit farm, one mile east of town. I am in charge of the

ranch and the owner is a first-class fruit man and a prosperous a ranchman.

We have about 26 inches annual rainfall and living conditions are generally the best. Schools of this country rank with the best of the State. There are three good High schools with new and well-equipped buildings in Tehama county. It is attracting many home-seekers, who on arrival

are agreeably surprised to find such splendid opportunities for home making and many satisfied seekers are locating here.

Red Bluff is surrounded by snowcapped mountains and wooded valley farms, orchards and alfalfa fields. The town is supplied with ten churches. It has two strong banks and a new one is to be built; a free public library, playgrounds, park and magnificent opera house.

Red Bluff is known as the Hub of Highways, with all cemented highways between Southern California and Central California and the Nogthern part. The population of Red Bluff is 3599, and Tehamo county, 16,000. On the east of us forty-five miles we see Mt. Lassein National Park. Senator LaFollette and his spokesmen tell their followers that nothing is to be expeced of the Democratic pary as an agency for the realization of their desires. As to some of the proposals which our progressive friends regard as panaceas for our economic ills that is true; for those measures are repugnant to Democratic principles. In another sense it is a bold misstatement. The Farmer-Laborites must know that the first effective step toward the improvement of existing conditions is to administer a stinging rebuke to the Republican party at the polls, and that this can be done only by voting the Democratic ticket.

If any of the foregoing statements are controversial here is one that ranks as an axiom:

By no possibility can Senator La Follette poly a majority of the electoral vote in November, nor can he attain to the Presidency by a vote of the House or the Senate.

We say to the followers of Senator LaFollette therefore, as John W. Davis said to them in Indiana the other day, that there is but one way for them to make their protest effective.

A vote for LaFollette and Wheeler is half a vote in condemnation of the gross abuses perpetrated under Republican administration: half a vote to halt the prostitution of public rights and property to the service of special privilege.

A vote for Davis and Bryan is a whole vote for the attainment of these ende .

1920, gave our country clean, efficient element of the population profited more by the application of Democratte policies under Woodrow Wilson than this self-same element, which now Republican thought it the best policy favors LaFollette.

No man or woman conscientiously der obligations to the Socialists, if supporting LaFollette should cast a vote on November 4 without first having seriously considered this advice of John W. Davis, the Democratic candidate, which common sense must wholeheartedly endorse:

"Make your protest effective!" The progressives can't elect LaFol-

lette, but they can make the election of Davis certain. Wouldn't it be self-service as well

as good politics to do it?
