

HOW TWO WOMEN AVOIDED OPERATIONS

The Following Letters of Mrs. Thurston and Mrs. Beard Carry an Encouraging Message to Other Sick Women

MRS. ETHEL THURSTON
324 N. PINE STREET, LIMA, OHIO

Lima, Ohio.—"I want to tell you how your medicine has helped me. For weeks I suffered with awful pains from inflammation and I was in such misery that I had to bend double to get relief. I could not be touched or jarred, had awful pain all over my abdomen and could not touch my feet to the floor. It was impossible for me to straighten up and the pains never ceased. I took treatments for some time and finally was told I would have to have an operation. I do not believe in operations, and I had read so much about Lydia E. Pinkham's

Vegetable Compound that I told my husband I would try it before I gave up. I soon began to feel that it was doing me good. The awful misery began to leave me, also the backache. I have a good appetite and am gaining in weight. Taking the medicine was the best thing I ever did. I feel like it has saved my life and I do not hesitate to say so to my friends. At least it saved me from a dreaded operation and I am still taking it. I am willing to answer letters from women asking about the medicine." —Mrs. ETHEL THURSTON, 324 North Pine Street, Lima, Ohio.

Mrs. Beard's Letter
Eddy, Texas.—"I will write you a few words, thinking it will do some one else good. Two doctors said I would have to be operated on because for nearly twelve months I suffered from a weakness from which I could get no relief. I was restless and nervous and was not able to walk across the house. They said it was the Change of Life. I saw Lydia E. Pinkham's Vegetable Compound advertised in the newspapers, and as I could not get any help from doctors I thought I would give that a trial. I began with the liquid and it helped me some, then you advised me to take the tablet form and began to improve rapidly. I have gained in weight from 105 to 170 pounds. I recommend it to all women with this trouble." —Mrs. M. E. BEARD, R. No. 1, Box 143, Eddy, Texas.

Where There's Health There's a Way!

ABILITY and will cannot win through to victory in life unless there is also energy—health. And lack of energy in eight cases out of ten is caused by Anemia—blood starvation.

The test above is a guide to blood condition. Press the flesh between hand and thumb firmly; unless the blood comes rushing back, Anemia is indicated.

For thirty-two years thousands of physicians have seen their patients regain health and energy by the use of Gude's Pepto-Mangan. It rebuilds the latent power in run down bodies by supplying the blood with the iron and manganese it lacks.

Your druggist has Gude's Pepto-Mangan in liquid or tablet form.

CHILDREN'S COURT BILL IN SENATE

Woodward Sponsors Measure For Phila. Delinquents.

AMENDS ELECTION LAWS

Bill Presented Proposing Constitutional Amendments Be Submitted to Voters—Other Legislative News.

Harrisburg, Pa.—Senator Woodward, Philadelphia, introduced a bill which would establish a children's court in Philadelphia, to have jurisdiction of delinquent, neglected and incorrigible children under 16 years of age.

The judges would have to be over 35 years of age, under the bill's provisions. The president judge would receive \$6500 annual salary and the associate judge \$6000. Total compensation of court attaches would be limited to \$7000 annually.

A second bill by Senator Woodward would amend the election laws by requiring proposed constitutional amendments to be submitted to the voters at first municipal or general elections at which they may be legally submitted.

New Cause For Divorce.

Courts would be authorized to grant divorces when either party is mentally irresponsible, under a bill introduced in the senate by Senator Phipps, Venango. A second bill by Senator Phipps would reduce from six months to 30 days the time within which building and loan associations may proceed against securities of stockholders neglecting to pay installments.

Other bills introduced in the senate included:

By Stites, Montgomery, prohibiting the shooting of live pigeons as targets.

By Aron, Philadelphia, regulating the construction of buildings in Philadelphia erected on corner lots of streets more than 20 feet wide.

By a vote of 27 to 16 the senate refused to recommit to the law and order committee the Sowers bill which would require search and seizure warrants to be served within five days after issuance. Among the other bills passed finally by the senate were: By Shaffer, Somerset, authorizing county commissioners to purchase land for poor farms where present acreage is not sufficient.

School directors of first class districts may adopt and enforce rules regarding the dress of pupils under a bill presented by Representative Royle, of Philadelphia. By the measure the directors could regulate wearing of clothes of a uniform texture and design.

Pennsylvania corporations would be permitted to issue bonds bearing 7 and 8 per cent interest under a bill introduced by Representative Haas, of Lehigh. The purpose of the measure is to permit corporations to sell bonds to banks in this state instead of elsewhere when the interest is more than 3 per cent.

Wants Aviation Commission.

Establishment of a commission of seven to study aviation is authorized in a bill offered by Representative Turner, of Delaware. The commission would examine the subject of aviation with its rights and liabilities and the power of the state and municipalities to regulate it and report to the 1927 legislature.

Among the bills which came from committees was that to give juries the discretion of fixing a death penalty or life imprisonment in cases of first degree murder, and the Eches bill permitting Sunday fishing with one rod and two hooks.

The senate passed finally the Daix bill to increase the pay of poor directors in districts having a population between 140,000 and 500,000 from \$1500 to \$2500 annually.

Among other bills passed finally were: By Mansfield, Allegheny, requiring county salary boards to fix salaries of all officials not elected by the people and of all county employees; by MacDade, Delaware, authorizing the appointment of a commission to erect a memorial to John Morton in Chester, and permitting county school superintendents who have reached the age of 70 years to continue in office until the expiration of the term for which elected; and by Lanus, York, creating a state council for the blind as an administrative board within the department of welfare.

The salary of the secretary of mines would be increased from \$6000 to \$8000 a year under a bill introduced by Senator Joyce, of Luzerne. Creation of a board of revision and assessment in third and fourth class counties would be provided in a bill introduced by Senator Heaton, of Schuylkill.

The senate forestry committee reported for passing the Anderson bill for a proposed constitutional amendment authorizing a \$25,000,000 bond issue for reforestation purposes. Under committee plans the bill will be sent back for a public hearing, after passing two readings. When the question arose whether the issue could be submitted to a vote this year proponents of the bill said the supreme court would be asked to determine this. It was indicated that another proposed amendment calling for a \$10,000,000 bond issue for the purpose would be introduced.
