

Low-cost Transportation  
**Star Cars**

**THE STAR 4-DOOR SEDAN**

The incomparable Star chassis, the Million-Dollar Star Motor and the modern roomy and comfortable body of the Star 4-door Sedan offer a total value per dollar of cost that warrants first consideration by all of the millions who seek up-to-date, low-cost transportation.

2292 Star owners report an average cost of 11/14 cent per mile for mechanical repairs and replacements.

2292 owners report an average of 23.8/10 miles per gallon of gas.

2292 owners report an average of 9817 miles per set of tires.

To drive their cars it costs these owners on the average of 2 1/10 cents per mile for gasoline, oil, tires and mechanical repairs and replacements.

This sort of low cost transportation is of vital interest to any man or woman who travels. Ask the nearest Star Car Dealer to give you more detailed facts.

**Build a Permanent Home**

Your home should be attractive as well as practical—a place to be proud of and an asset to the community.

Build yours with concrete blocks covered with stucco made with Atlas White Portland Cement. It will cost you only 2% to 5% more than a frame house and, besides being fireproof and permanent, will be warmer in winter and cooler in summer.

Ask your building material dealer for an Atlas book showing the beauty of stucco made with Atlas, which is known as "The Standard by which all other makes are measured."

**ATLAS PORTLAND CEMENT**

"The Standard by which all other makes are measured"

**Extremes Meet**

The National Geographic society tells us that within the last few decades only two Eskimos have been overcome by heat—one in Hollywood and the other in hades.—Williams Purple Cow.

**Not Known**

King Old Gent—"What is your occupation?" Wayfarer—"My wife's out of work at present, sir."

Cheerfulness is the principal ingredient in the composition of health

**Build your body back to Health**

**TANLAC** is a great natural builder. It revitalizes the blood, stimulates the digestive organs, rejuvenates the liver and pepes you up all over.

From the four corners of the earth we gather the roots, barks and herbs that go into Tanlac. We compound them after the famous Tanlac formula that has brought health to millions.

Our files are crammed with testimonials from men and women in every walk of life, who state gratefully that Tanlac has brought them back to vigorous strength.

If you suffer from indigestion, loss of appetite, can't sleep or rest; if rheumatism is making life a torture; if your liver is out of sorts and your body has run down to skin and bones, get a bottle of Tanlac at your druggist's and start taking it right away.

You'll be amazed to note the improvement that comes at once. For the first time in months you'll feel like eating some good solid food. You'll wake up in the morning rested and refreshed, ready for a good day's work. First thing you know you'll have some color in your cheeks and the sparkle of health back in your eyes.

Don't put off taking Tanlac. Begin

**Baptist Minister Praises TANLAC**

"I had suffered from stomach trouble and nerve troubles for over 30 years until I could hardly summon the strength necessary to prepare my sermons. Six weeks after taking Tanlac I had a brand new outlook on life. I had a fine appetite, steady nerves and a brand new digestive system. Tanlac has never failed me."

Rev. B. E. Bell  
207 Elm Street  
San Antonio, Texas

now if you want to build your body back to health and vigor.

TAKE TANLAC VEGETABLE PILLS FOR CONSTIPATION

**TANLAC FOR YOUR HEALTH**

**Morgan Horses Are in Demand**

Light Animals in No Danger of Being Relegated to "Dodo" Class.

(Prepared by the United States Department of Agriculture.)

That light horses are in no danger of being relegated to the "dodo" class is indicated by the active demand for breeding animals from the U. S. Morgan farm, Middlebury, Vt., during the year 1924.

**Six Stallions Sold.**

During the year six young Morgan stallions were sold. The two-year-old Pluto went to the largest pure-bred Morgan breeding ranch in the United States, situated in Texas. A yearling was purchased by a Morgan breeder in California. Two two-year-olds went to Massachusetts, and two were exported. Nodaway was bought by a resident of Central America, who wrote: "The colt Nodaway arrived here in first-class condition, without a single scratch on him, and more than fills our expectations. If he had been made to order he couldn't have better filled my ideal of a horse for a broken, rough country. His size, build, color, feet and mode of handling himself are perfect. He has been greatly admired by everyone that has seen him, and several men consider him not only the handsomest stallion brought into the country, but also of the most appropriate type for the small native mares."

Quartermaster followed in the footsteps of his "uncle" as the head of a stud on a large plantation in Porto Rico.

**Government Horses Win.**

At the Eastern States exposition, Springfield, Mass., Morgan horses shown by the United States Department of Agriculture won seven of the nine classes and took second place in the other two classes during the year. Bennington was again champion Morgan stallion, with his son Quartermaster first in his class. Dewdrop again won the class for Morgans in single harness, and Josephine, now privately owned but bred and trained at the U. S. Morgan Horse farm, won the combination and saddle classes, as well as other classes open to all breeds. Josephine's half-sister Quantico won the yearling mare class. Seven Morgans were sold at Springfield, and attractive offers were received for others not for sale. The demand for Morgans was not confined to Springfield, as a total of 37 Morgans have been distributed to new owners by the U. S. Morgan Horse farm alone. Among these were included a good per cent of Morgans trained to saddle, one being obtained by the governor of Vermont and another going to Washington, D. C., to be used by the secretary of agriculture.

Because of lack of funds the department did not make entries in the 1924 endurance ride, held in Virginia. However, the horses that won second and fifth places were both bred by the U. S. Morgan Horse farm. Donwell, placed second, is sired by Donlyn, a stallion owned at the farm for several years and later exported to Japan. The horse receiving fifth place was Major S., sired by Castor, the latter successfully completing three official endurance rides. Major S. also won fifth in the ride last year.

**Secure Early Potatoes by Applying Fertilizer**

To have earlier potatoes than your neighbors, apply four to six pounds of a 2-10-6 or similar fertilizer to the square rod on a light, rich soil and plant sun-sprouted seed of an early variety, is the direction given by horticulturists of the Ohio experiment station.

Bliss Triumph and Norton Beauty are good varieties that have a very short growing period. Such names as "Extra Early Six Weeks" and "Eureka Extra Early" are somewhat misleading, as they are but slightly, if at all, different from the Early Ohio and Irish Cobbler, and require from ten to twelve weeks from planting to mature a crop, while the first mentioned varieties mature in eight to ten weeks.

Tubers placed in the sunlight and protected from frost will start short green sprouts, which will go right on growing when planted, thus gaining many days over those which are permitted to grow slender white sprouts in storage.

About one-third of the fertilizer may be applied in the furrow, the large portion having been previously worked into the soil. Weeds are kept down and moisture conserved by frequent shallow cultivation.

**Lime-Sulphur Spray to Control San Jose Scale**

The lime-sulphur spray for the control of San Jose scale should be applied to all infested orchards and plants. Apples and peaches are the two kinds of fruits which should have special attention.

Three things are necessary in order that spraying for San Jose scale may be effective. The correct spray material, lime-sulphur, one gallon to seven gallons of water, should be used. An efficient spray machine which will enable the operator to reach all parts of the trees must be available, and, last, every tip of the tree, and every portion of the bark, and every bud of the tree must be hit with the spray. If those precautions are followed, the San Jose scale can be kept under control, especially if sanitary measures, such as the removal of infested hedges, are practiced at the same time.

**Prevent "Whiskers" on the Strawberry**

Film Designed to Help in War on Black Mold.

(Prepared by the United States Department of Agriculture.)

"Why Strawberries Grow Whiskers" is the title of a new United States Department of Agriculture film on the handling of strawberries, just completed by the office of motion pictures for the bureau of plant industry.

The fact that strawberries do grow whiskers may be new to many consumers, but it is old stuff to the strawberry trader; indeed one of the prime objects in the life of the strawberry shipper is to prevent the growth of "whiskers" on the strawberries he handles. Hence this new film—which is designed to help the strawberry grower and shipper in their war against black mold, the fungus which is responsible for strawberry "bleak" and for the "whiskers" which signalize the final stage of this disease.

The lesson taught by the film may be boiled down into three very brief admonitions to the grower:

1. Handle strawberries carefully.
2. Pick early in the day, while the berries are cool.
3. Refrigerate promptly after picking.

The photography emphasizes the fact that infection from black mold is due largely to bruises and cuts on the berry, and that subsequent growth of the mold is much more rapid in warm air than in cold air.

An interesting feature of this film is a long-time motion picture showing the growth of black mold covering a period of twenty-four hours or more in a few seconds of projection on the screen.

"Why Strawberries Grow Whiskers" is in one reel and will be circulated through the educational film service of the department and the co-operating state institutions. Copies may be borrowed for short periods, or may be purchased at the laboratory charge. A complete list of the department's films, with information on the method of distributing them, is given in Miscellaneous Circular 27, which may be obtained on application to the department at Washington.

**Acid Phosphate Checks Many Losses in Manure**

What is the best preservative to prevent plant food losses in manure? Many recommendations have been made, but the latest investigations on this subject show acid phosphate to be the most efficient and most practicable material to use. Acid phosphate proved to be more efficient in preventing nitrogen losses than did straw, peat, rock phosphate, or gypsum.

Not only does acid phosphate check the loss of nitrogen, but it materially increases the fertilizing value of manure, supplying the element of plant food in which manure is lacking. The use of acid phosphate with manure is one of the soundest of fertilizer practices.

The spreading of one or two handfuls of acid phosphate in each stall each day is a very practical method. Tramping of the stock mixes it with the manure. Even when manure is hauled out and spread immediately, there is some loss of nitrogen which is avoided if the manure is phosphated.

**Grape Vines Pruned in Early Spring Is Best**

Grapevines should be pruned before the buds begin to swell in order to avoid the great loss of sap which follows late pruning. Best results usually follow heavy pruning.

"As much old wood as is possible to remove should be taken away," says W. H. Alderman, head of the division of horticulture, University of Minnesota, "leaving only a few short canes of last year's growth to carry the crop for the coming season. The sooner this pruning is done the better, but if for some reason it is not done until early spring, one should still prune vines vigorously."

"Even though heavy bleeding results from belated pruning, the slight loss in vigor caused by the loss in sap will not be as serious as would be the failure to prune at all."

**FARM FACTS**

Insect life is made miserable by crop rotation.

Dairy cattle may be improved by the use of a good herd sire.

When farms are selling cheaply is a good time for the young man to buy.

Dairymen, beware! Scrub stock can "multiply" as rapidly as pure breeds, but they never get the "right answer."

Stop hens from eating eggs by feeding oyster shell and scattering the grain feed in deep litter to keep them busy.

Direct sunlight is important in preventing leg weakness in chickens. Be sure your chickens get a large share of this great health giver.

A survey of nearly four thousand farms in four states shows that three-fourths of the farmers have adopted improved agricultural practices as a result of agricultural extension work, according to figures recently released by the United States Department of Agriculture.

**HELP FOR MOTHERS OF AILING DAUGHTERS**

Mrs. Quigg and Mrs. Betton Tell in the Following Letters What Is Best To Do

DAUGHTER OF MRS. QUIGG

210 MAIN STREET, ROYERSFORD, PA.  
Royersford, Pa. — "My daughter was sickly from the time she was 13 years old, and when she was 15 she was irregular and also had severe headaches and pains in her sides and back. She was this way about six months before I began giving her Lydia E. Pinkham's Vegetable Compound regularly although she had tried it before. It helped her very much. She is not bothered by headaches, backaches, or cramps any more, and has not missed but one day's work. We recommend it to other mothers

with girls who have these troubles." —Mrs. QUIGG, 210 Main Street, Royersford, Pa.

**Mrs. Betton's Letter**

Ridgely, Md. — "I want to tell you how much good your Vegetable Compound has done my daughter. Before she started taking your medicine she was in a nervous, run-down condition, so that she could hardly sleep at night. She always had a pain in her side and sometimes cramps so that she would have to go to bed. She is a schoolgirl and was going to school only half the time because she was so weak and run-down she could not stand it to walk there some days. She was this way for three or four years. She had been reading your advertisements in the different newspapers and she noticed that some of the girls and women had suffered just as she had. So she took Lydia E. Pinkham's Vegetable Compound and it is a lot better. With the first bottle everybody could see a big change. She can go to school every day and can eat just as much as any one else, when before she did not have any appetite. We have told others about the medicine, and we are perfectly willing for you to use these facts as a testimonial. We are also willing to answer letters from other women concerning the help my daughter has received from the Vegetable Compound." —Mrs. JOSEPH BETTON, Ridgely, Maryland.

**London Quakers Move**

The Quakers of London, who have occupied the same building in Bishopsgate for more than 250 years, are soon to move into new quarters. They came to Bishopsgate shortly after the great fire of London, when their meetings were still forbidden as riotous assemblies. One of the Quaker leaders who first held services at Bishopsgate claimed to have suggested Milton's "Paradise Regained" to the author.

**20,000 Housewives to Be Made Happy**

Mrs. Harry Burke of Hudson, Ohio, has just had the good fortune to win an unexpected prize. She wrote for a 10c bottle of Liquid Veneer, which was sent her free, and postpaid. The makers wrote asking her to tell her friends, if she liked it. She writes that she was so delighted the way it made her furniture look brand new that she told 15 of her friends and the makers, sent her, entirely free and postpaid, a great big beautiful \$2.00 Liquid Veneer Polishing Mop. "I'm simply delighted," she writes.

Twenty thousand more of these \$2.00 Mops will be given away to housewives. Write for a free 10c bottle and ask for descriptive circular 15, telling you how to get this magnificent polishing mop entirely free. Address Liquid Veneer Co., Buffalo, N. Y.—Adv.

**New Type of Sharpener**

A sharpener for scissors and lawn mowers is now made with four grinding discs. When renewal is necessary, a screw in the side of the bracket can be easily loosened, permitting another face of the rasp to be put in position for use. Simply pulling it along a dull blade a few times is claimed to be sufficient to produce a keen cutting edge.

**Don't Forget Cuticura Talcum**

When adding to your toilet requisites. An exquisite face, skin, baby and dusting powder and perfume, rendering other perfumes superfluous. You may rely on it because one of the Cuticura Trio (Soap, Ointment and Talcum), 25c each everywhere.—Advertisement.

**Speedy English Vessel**

The fastest single-screw merchant ship in the world is the steamship Royal Scot, which was built to give a speed of 22 knots, and plies between London and Edinburgh.

Many people imagine that Worms or Tapeworm cannot be expelled entirely. A single dose of "Dead Shot" proves that they can. 111 Pearl St., N. Y. Adv.

The seeds of knowledge may be planted in solitude, but must be cultivated in public.

Jealousy is the apprehension of superiority.

**A Quick Shift**

"Doctor, I owe you my life." "Oh, you exaggerate. But you do owe me \$80." "Why, sir, that is outrageous." —Louisville Courier-Journal.

**Brought up on a Farm**

As a young man Dr. Pierce practiced medicine in a rural district and was known far and wide for his great success in alleviating disease. He early moved to Buffalo and put up in ready-to-use form, his Golden Medical Discovery, the well-known tonic for the blood, which is an extract of native roots. This "Discovery" of Dr. Pierce's clears away pimples and annoying eruptions, tends to keep the complexion fresh and clear. It corrects the disordered conditions in a sick stomach, aids digestion, acts as a tonic and enriches the blood. Vim is sure to follow its use. All dealers. Tablets or liquid.

**BABY CHECKS FOR SALE**

S. C. W. Leeborn, S. C. R. 1. Beds from healthy farm range stock, pedigree cockerels, excellent winter layers. You will be pleased with their quality. Prices postpaid Mar. and Apr. 1925. May 1st. June 1st. June 15th. A hatch each Wed. Sincerely, S. C. W. Leeborn, Carleton, Pa.

**WEAK WOMEN, DON'T SUFFER**

—Crestal tablets for female troubles. \$1.00 for one month's treatment. At your druggist or postpaid. Akame Co., Arcade St., Columbus, O.

**QUICK EMPLOYMENT**

For any job you want anywhere. Don't be a loser. Get out of the rut. Earn more money. Make your dream come true. If you really want a better job with plenty of money, why put up with the never-ending problem of wishing? For a dollar bill we will send you nine model application letters for good jobs and best instructions for writing a real job-getting letter, for any big pay position you want to go after. Designed to meet the requirements of employers desiring to cash in big now. National Letter Service, Box 15, Holyoke, Mass.

**Butler's Rheumatic and Gout Remedy**

—A kidney and heart tonic. Originated 1872. It cures a bottle. 6 bottles for \$2.00. 1666 14th St., N. W., Washington, D. C.

**MEN—SELL NEW PATENTED RADIATOR CAPS FOR CARS**

Big profits and easy sale. Samples 50c, or write BOX 284, CHERRY CREEK, N. Y.

**Level Airlox Positively Lock Air in Tires**

Standard equipment Govt. Air Service 2 yrs. Now available for autos. Low cost. Added mileage pays handsome returns. Quick, easy sale. Liberal commissions. Union Engineering Co., Shawnee & Wyandot, Dayton, Ohio

**IF LYNNING OF FLORIDA**

Why not LYNN HAVEN on ST. ANDREW'S BAY? Write Chamber of Commerce.

**KEEP EYES WELL!**

Dr. Thompson's Eye Water will strengthen them. At Druggists. 111 River, Troy, N. Y. Booklet.

**One on Hubby**

Hubby—You are so stupid!  
Wife—I admit it. If I wasn't you'd be single today.  
Posterity is going to be much interested in us. Aren't we in ancestry?

**Children Cry for**

**Fletcher's CASTORIA**

MOTHER:—Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.
