WITH TWO LEGS BROKEN
WILLIAMS IS IN HOSPITAL

Crowded from Road on Hill Below
State College on Sunday—Son
Driving.

A Ford car is responsible for James
C. Williams, of near Lemont, being in
the Bellefonte hospital with the left
leg broken at two places below the
knee and the right leg fractured above
the knee, as well as various bruises
on the body. Mr. Williams, who is a
plasterer by trade, and his son, Carl,
on Saturday afternoon were returning
from a business trip to State College,
in an Overland touring car, when near
the crown of the hill east of that
town, the car was crowded from the
road by a Ford that was about to pass
a car going in the opposite direction.
The Ford hit the Williams car and
threw it over the embankment, and
without checking its speed left the oc-
cupants of the Overland to their
plight. The license number of the Ford
was not secured.

Mr. Williams was taken to the Cen-
tre County hospital where his condi-
tion is reported to be not very fav-
orable.

DEATHS.

2nd after an illness of four years.

of which she was a devout member.
Among her many friends who at-
tended the funeral were several of her
Centre county friends, namely, Miss
Kate Alexander, Mrs. Cora Bow-
man (nee Kremer), and Mrs. Annie

jured to such an extent that she died
several hours later in the Centre
County hospital. Mrs. A. M. Garrett
had her shoulder broken, and Anbrey
Carr, four years old daughter of Mr.
and Mrs. Richard Carr, had an arm
broken. The car was driven by E. M.
Krayder, and was on its way to Jer-

Less Expensive Construction.

What this country needs to encour-
age development from now on, is low-
er costs for construction of houses
and for repairs. It may be objected
that building materials are high, due
largely to the growing scarcity of
wood products. Also that labor costs
are very high and likely to remain so.

If a determined effort were made
all over the country to get building
costs down, it could perhaps be done.
A feeling of ambition is needed among
workmen to turn out good day's
works. The costs of maintenance are
now so high in most places that many
people neglect the repairs and im-
provements that ought to be made.

The attention of our industrial leaders
ought to be given to the problem of
reducing these costs.

In jumping from a load of hay
about to upset, George Fortney, of
Boalsburg, struck his arm in such a
way that a bone in it was broken.
