25 Years of
Firestone Service
to Highway Transportation

25 years of anticipating the requirements of motorists—making manufacturing processes more certain—producing a higher standard of quality—25 years of unswerving adherence to the Firestone pledge, "Most Miles per Dollar"—summarizes Firestone's record of service to car owners.

Firestone factories have grown from a small building approximately 75 x 150 feet to mammoth plants having floor area of over 60 acres—from a capital of \$50,000 to over \$50,000,000—from an annual sales volume of \$100,000 to over \$100,000,000—all in the short period of 25 years.

This Firestone record could only have been made through furnishing the public with outstanding values and is, consequently, your assurance of quality and lowest prices.

If you would like to know more of this wonderful record, ask your Firestone dealer to send you an illustrated folder.

With today's high cost of crude rubber and other raw materials, Firestone's opportunity to serve the public was never better, due to its great volume and special advantages in buying, manufacturing and distribution.
