The Idle Young.

It's not the idle rich but the idle young that is raising the devil with the country. On every hand you see young people shying from work and trying to get by without it. It scarcely ever wins. Too much pampering and too little enforcement of discipline by parents is largely to blame for the present conditions. Any child not brought up to work and obey his parents will sneer at the law when he gets out into the world for himself. If you have a child and would make him a good citizen, teach him to work and make him obey.

Free Nursery Site.

The State Forestry Commission announced Monday that it had approved the purchase of the Clyde Miller farm of 105 acres, along the Susquehanna Trail, two miles south of Lewisburg, as a nursery. The purchase was made after a survey of nursery sites in the entire State.

It is expected to have an unusual output of 12,000,000 young trees. Plans are being worked out for an overhead irrigation system, the water to be supplied from the Susquehanna river, which bounds the farm on the west.

DODGE BROTHERS

CONSTANTLY IMPROVED BUT NO YEARLY MODELS

It has never been the policy of Dodge Brothers, Inc., to build yearly models.

When an improvement is discovered, perfected, tested and found good, it is made AT ONCE. The car is always up-to-date.

Moreover, the owner does not have to fear that his Dodge Brothers Motor Car will be made obsolete, shortly after he has bought it, by the announcement of radically new types.

Firestone

will ALWAYS give Most Miles per Dollar

No matter where crude rubber prices may go—Firestone advantages in securing raw material, in manufacturing and distribution are always active to make good the pledge of Most Miles per Dollar.

Racing drivers—hill-climbing and endurance record holders—taxicab, motor truck and bus operators—and hundreds of thousands of car owners—are daily emphasizing the unheard-of mileage and service delivered by Firestone Gum-Dipped Cords.

Gum-Dipping is one of the biggest factors in tire performance and long mileage, making Firestone Gum-Dipped

Cords the most economical tires ever offered motorists.

The cord from the fabric mills is first delivered to a separate plant where it is treated in a solution of gum, which insulates every fiber of every cord. This protects against internal friction and heat, giving the sidewalls greater flexibility and additional strength.

Prove Firestone's many superiorities for yourself. If you have never had the safety, comfort and economy of these serviceable, long-mileage tires—go to the nearest Firestone Dealer—for Firestone only builds Gum-Dipped Cords.
