BANKERS HELP

The banks of Linn County Oregon, are showing more enthusiasm than ever this year in behalf of a county corn exhibit similar to that held last year at the Linn County Fair. Last year's exhibit was the result of a contest for a prize offered by a number of local banks. This was so successful that this year ten out of the eleven banks in the county will subscribe to the effort.

The Agricultural Committee of the Alabama Bankers Association, has recommended that a scholarship fund be established for the education of worthy young men and women along agricultural and home economics lines. It is estimated that if each bank in the state were to contribute 25 cents per thousand capital, five to six thousand dollars per annum would be realized.
