Church's 150th Anniversary.

(Continued from first page)

prayer. Largo was sung by the choir. The Rev. Walter K. Harnish brought a fine historical account of the church from its very beginning up until the present. Rev. Harnish had served Spring Creek church as its pastor for eleven years. He and his good work at the celebration was much appreciated by his many friends. Rev. Harnish is now pastor of the Sinking Valley church near Tyrone. The congregation joined in singing "The Church's One Foundation."

Rev. C. C. Hays, D. D., the Pennsylvania Synodical executive of Pittsburgh, delivered a very interesting address on "The Presbyterian Pioneer of Pennsylvania," in which he pictured the Scotch Irish Presbyterians as the backbone of Pennsylvania. His historical proofs and remarks made one feel that we were no mean people, but rather that we were an important denomination. Think of it, to be the greatest nation in the world.

Walter Lingie treated with his good deep bass voice to the tune of "Open the Gates to the Temple."

The Rev. Wm. C. Thompson, of the Bellefonte Presbyterian church, gave us a look into the future. His subject, "The Church Facing the Future," was depicted so clearly that it made one feel that there was waiting for each Christian a task to be done and that each Christian ought to do that task.

The closing hymn, "Blest Be the Tie That Binds," was given lots of volume. The Rev. John L. Robinson, of the Presbyterian church of Port Royal, dismissed the congregation with the benediction.

In the afternoon session Miss Miriam Dreese accompanied the choir with the organ. Miss Dorothy Lowder served in the same capacity in the evening session.

The elders of the church at the present time are: Samuel Glenn, Elmer C. Ross, Ross Lowder, Wm. Goheen, and Frank Wieland.

The ministers who served this church for 150 years are eleven in number, namely: James Martin, David Wiley, Wm. Stuart, David McKinney, Wm. Adams, Robert Hamill, James Heaney, David Hepler, Walter K. Harnish, Louis V. Barber, and J. M. Kirkpatrick.

DODGE BROTHERS

CONSTANTLY IMPROVED

BUT NO YEARLY MODELS

It has never been the policy of Dodge Brothers, Inc., to build yearly models.

When an improvement is discovered, perfected, tested and found good, it is made AT ONCE. The car is always up-to-date.

Moreover, the owner does not have to fear that his Dodge Brothers Motor Car will be made obsolete, shortly after he has bought it, by the announcement of radically new types.

Firestone Double the Mileage at Half the Cost

Only a few years ago a 32 x 4 cord tire listed over \$50.00. Today, you can buy the highest quality 32 x 4 tire—a Firestone Gum-Dipped Cord—for about \$26.00.

Last spring crude rubber cost tire makers around 40 cents a pound. Today, it is over 90 cents a pound.

It was not so long ago that 7,500 miles represented the average life of a cord tire, while today, 15,000 miles—and more—is only the usual performance for a Firestone Gum-Dipped Cord.

Due to large, concentrated production, specialized machinery and simplified factory methods, together with economical distribution, Firestone is able to keep tire prices low—no matter where the price of crude rubber goes.

And, because of special Firestone processes, chief among which is Gum-Dipping, motorists are today getting thousands of extra

miles by using Gum-Dipped Cords.

Gum-Dipping is an exclusive method used by Firestone. It is an extra process, carried out in special Gum-Dipping plants, after which the cords are put through the usual calendaring machines. Gum-Dipping insulates and impregnates every fiber of every cord with rubber, and practically eliminates internal friction and heat, and builds strength and endurance into the tire.

In the day-in and day-out service of taxicabs, buses and trucks—on the cars of hundreds of thousands of motorists everywhere—Gum-Dipped Cords are giving unheard-of mileage, dependability and satisfaction.

Get ready for the coming months of slippery pavements and bad roads. Assure yourself of greater safety, comfort and economy by equipping now with Firestone Full-Size Gum-Dipped Balloons.
