A PERSONAL LETTER

To the Men and Women of Centre County, from
Harry Keller, Candidate for Judge

On November 3rd, just two weeks from next Tuesday, you will be called upon to select a Judge who will be called upon to serve for ten years. It is reasonably certain that the personal or business interests of a very large number of those participating in this election, or their descendants, will, in one way or another, be passed upon during those ten years by the Judge now to be chosen. For this reason, if for no other, every man and woman in Centre county is, or at least should be, personally interested in the matter.

Three candidates for Judge have been nominated. Each is on a separate party ticket, and no one of the three is on more than one ticket. It is the candid judgment of experienced, unbiased observers that the one elected will be either the nominee of the Republican party or the nominee of the Democratic party. This will at once become apparent to the voter who gives the matter his thoughtful attention. We have in our county a definitely established political division. Virtually all of the votes cast at elections in Centre county are divided between the Republican and Democratic parties. It is a matter of record that no candidate for a State or county office has ever been elected in Centre county on the ticket of any other party alone; certainly not in the period of the present generation.

In addition to the Republican and Democratic nominees, there is a third candidate for Judge who was placed on the Prohibition party ticket with a total of 110 votes. Without referring in any personal sense to the Prohibition party nominee, or to the merits or principles of the Prohibition party, it is nevertheless proper and timely that your attention should be called to the actual voting strength of that party in our county, because of its bearing upon the present contest for Judge. A situation exists that should be understood by every voter before he or she goes to the polls.

The official records show that at no election in Centre county in a long period of years has the Prohibition party polled more than a few hundred votes for any candidate for a State or county office. In 1912 the Prohibition candidate for Congress polled 159 votes in our county, and the nominee for State Representative polled 129 votes. In 1914 the Prohibition party polled 80 votes for Governor in the county, while the party candidate for Congress polled 172 votes, and the nominee for State Senator received 149 votes. In 1918 the Prohibition party polled 149 votes for Congress, and 240 votes for State Representative. In 1922 the Prohibition party nominee for Governor received 122 votes, and the candidate for Congress 126 votes. In 1924 the Prohibition party in the county polled 273 votes for State Representative.

These figures are official. One need but consider them for a moment to realize beyond any question of argument that it is not even reasonable to anticipate that the Prohibition party nominee for Judge standing on that party only, can or will be elected.

Because of this situation, the question that presents itself to the people of Centre county is this: As between the nominee of the Republican party and the candidate on the Democratic ticket, which do you prefer to become your Judge?

Do you want to elect as your Judge one who is "dry," who is and always has been a total abstainer; who has never handled a liquor license application; who stands squarely for enforcement of not only one law, but all laws; who is qualified by 34 years of experience in the practice of law; whose one aim and pledge is to serve faithfully and efficiently no one section or group of citizens, but to administer justice, honestly and impartially, for all sections of the county and for all of the people of the county. I stand unequivocally for these principles.

My father, Daniel S. Keller, was a practicing attorney in Centre county for 21 years. He was a pioneer in the temperance cause in our county. He, also, was a total abstainer. He never handled a liquor license application. His broad understanding of, and rigid adherence to, what constitutes the obligations and duties of a Christian citizen have been my guide during my whole life.

Since the one who will be elected Judge on November 3rd will be either the Republican nominee or the Democratic nominee, he will be either myself or he will be Mr. W. Harrison Walker. A vote cast for the Prohibition party for Judge cannot make possible his election, as the figures I have given show clearly and conclusively. Because of that fact—and it is a very well founded fact—every vote cast for the Prohibition party nominee will in effect contribute one-half vote for Mr. Walker. The more this fact is considered the better it will be understood, and it should be understood thoroughly by every man and by every woman before he or she marks a ballot and places it in the ballot box on election day.

I know and understand in the fullest sense the prevailing sentiment in Centre county. My whole life record is in keeping and accord with this sentiment. I am very willingly and gladly submitting my record to the people of Centre county, and I shall cheerfully and loyally accept their decision on November 3rd. I ask only that our citizens go to the polls and render a decision that they honestly believe will be best for themselves and their interests.

The omission of the word "obey" from the Episcopal church marriage ceremony ought to stand the Episcopal clergyman in good stead. One thing is certain, the bride of yesterday will conclude that the act of the House of Deputies is retroactive.

Under a new law oysters must be sold by numerical count instead of by the quart.
