

LOCAL AND PERSONAL.

A number of new advertisements appear in this issue. Read them and profit thereby.

Mrs. M. E. Colborn was taken to the Geisinger Memorial Hospital at Danville for an operation for the removal of her tonsils.

Hon. Frank D. Harris, of Clearfield, former state treasurer and member of the legislature, celebrated his 80th birthday on Friday.

Austin Long, son of C. P. Long, of Spring Mills, temporarily holds the position of clerk in the Penns Valley bank at Centre Hall.

The pouring of the concrete for the road over Nittany Mountain has now reached a point a few hundred feet south of the junction of the Blackhawk detour.

Mr. and Mrs. James E. Stewart and son Clement, of New Bloomfield, drove to Centre Hall on Sunday and were entertained by Mrs. Stewart's sister, Mrs. Lucy Henney.

Misses Bessie Zerby, of Spring Mills, and Marion Smith, of Philipsburg, were admitted to membership in the Art club of the Lock Haven State Normal school at Lock Haven.

A piano was purchased for the grade schools in Centre Hall by the school board, from George E. Meyer, the Boalsburg piano man. The instrument will be placed today.

A son was born to Mr. and Mrs. C. William Booser, Saturday morning. He is ten pounds big, and the proud father declares he had not been fed up before the weighing took place. One of his names is William.

Mrs. Mary Christine and Mr. and Mrs. Guy Cowel, of Elysburg, drove to Centre Hall on Saturday. Mr. Cowel went on to State College to see the football game while the ladies remained with the T. L. Moore family.

Mr. and Mrs. L. J. Burris and Mr. and Mrs. William Walker, of Centre Hall, motored to Williamsburg on Sunday, all returning the same way except Mrs. Burris who expects to remain for two weeks, Williamsburg being her former home town.

The Earlstown road from Old Fort westward for two miles has more holes per square yard than a coal screen. If permitted to go through the winter in this condition, there will be many a good car ruined, to say nothing of reputations for puritanic expression.

On his way to Bellefonte on Monday night with his family in a Dodge touring car, Robert I. Smith was struck over the eye by a piece of the windshield, one of the several parts of the machine broken when it hit a horse that popped onto the road in front of it.

Mr. and Mrs. B. F. Cori and Mr. and Mrs. J. Elmer Royer, of Centre Hall, last week went on an auto trip in the former's Jewett sedan to friends in Franklin and Cumberland counties, visiting among other places at Carlisle, Greencastle, Chambersburg and Mechanicsburg. They returned home on Tuesday.

Nine car loads of potatoes were shipped out from Lewisburg during the last week at prices ranging from \$1.75 to \$2.00 and \$2.15. Those receiving the latter price were members of the Union County Co-operative Potato Association, who bagged the tubers and shipped them under the association name.

Freemont Hill, of Pleasant Gap, one of Centre county's true sportsmen, is hanging up a record for fox killing. So far this fall he has killed ten foxes. He also has killed a number of raccoons, his best work being done one night recently when with the aid of his pure-bred Kentucky 'coon dog he bagged three 'coons.

Dr. Joseph K. Fisher, Republican, was beaten for prothonotary of Northumberland county by Miss Mary M. Reamensnyder, Democrat, of Milton, who is the only woman prothonotary in the State. Mention was made of Mr. Fisher's candidacy in these columns a few weeks ago. He is a son of William Fisher, also of Sunbury, and a nephew of John Fisher, baggage master on one of the passenger trains on the branch.

The traffic through Centre Hall on Saturday owing to the Notre Dame-Penn State game at State College on that day, was exceedingly heavy. The cars passed speedily, yet with care. On the return at night the detour between Lemont and Centre Hall was very slippery and dangerous, yet, so far as is known, there were no accidents. Cars going west were obliged to park in ditches until the bulk of the traffic had passed.

Mr. and Mrs. Bruce Gramley, of New York; Mr. and Mrs. Eugene Gramley and daughter Jean, of Lewistown, were at the home of their parents—Mr. and Mrs. T. M. Gramley—at Spring Mills, over the week-end. The former is the national secretary of the Delta Upsilon fraternity, and, of course, with his brother witnessed the football game on Saturday. On Sunday Mr. and Mrs. Gramley had the pleasure of having at their home all of their children and their families, as well as Mr. and Mrs. Richard Powell, of Wilkes-Barre.

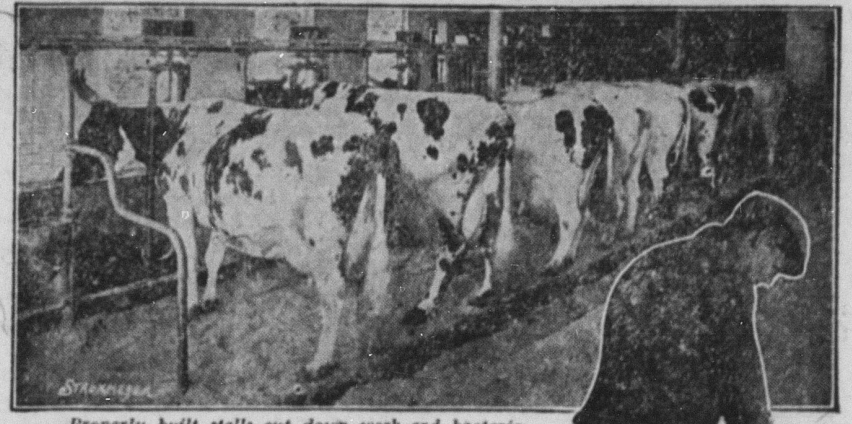

William J. Bobb, a rover, came to his old home—Lewistown—Thursday evening of last week, went to the four-room bungalow owned by his wife, Ada Bobb, previously vacated by her, and not finding a stove or bed there, built a fire on the floor and cuddled by the side of it to keep warm. Bobb slept and the fire burned—first the wood placed there for the purpose and then the bungalow was entirely consumed. Bobb escaped the flames, but during the next day ran into Ada on the street and by her was marched to a justice's office and from there to jail where a janitor looks after the

Notice.

The party is known who stole traps and name plates along Nittany Mountain last Friday evening, and are warned to return same at once; if not, prosecution will follow.—Roy C. McClintic, Linden Hall, Pa.

Dairy Cow Efficient Food Producer

Properly built stalls cut down work and bacteria. With increasing rentals and values of farm lands, dairy farming is rapidly replacing other types of live stock farming. A dairy cow producing 8,000 pounds of milk a year furnishes 1,000 pounds of dry matter, all of which is edible and digestible. A two year old steer weighing between 1,200 and 1,300 pounds furnishes about 550 pounds of dry matter, not all of which can be used for food. In other words a fairly good producing dairy cow furnishes twice as much edible dry matter in one year as a good two year old steer when he is killed for meat. A cow can be kept for additional years of service, while to replace the steer, another animal must be fed for a period of two years.

The United States consumption of milk per capita has increased from 42 gallons of whole milk in 1915 to more than 54 gallons in 1925. With growing acceptance of milk as a food has come an increasing knowledge of the proper care of milk on the farm. Because odors from foods and animals in the cow stable are easily taken up by milk, injuring its flavor, they must not come in contact with the milk. Removal of the milk from the stable as soon as possible reduces the amount of dust and dirt entering it and keeps down the bacterial growth in the milk. Bacteria increase rapidly in warm milk causing it to sour quickly. Removal of the animal heat from freshly drawn milk by lowering the temperature to that of cold well water (approximately 60° F.) greatly aids in preventing bacterial growth. A well lighted, well ventilated milk house, not too close to the stable, is also very helpful. Cleanliness in the stable is vitally necessary. The stall platform should be just long enough for the cow to stand comfortably without room to spare; otherwise, the cow will become dirty from droppings when she lies down. The gutter should be wide and deep. A good gutter is 16 inches to 18 inches in width and 9 or 10 inches below the platform. Bedding should be clean and plentiful. Long hair on the flanks, udders and tail above the switch of the dairy cow should be removed at regular intervals. Removing this long hair removes the clinging places of dirt which otherwise will fall into the milk pail in quantities. Keeping the hair short on these parts of the cow permits cleaning in much less time and more thoroughly. Brushing should never be neglected. It removes loose particles sticking to the body. When the hair is short, wiping the udders with a damp cloth just before milking, is an easy and important aid in securing clean milk. It is generally recognized that most of the bacteria found in milk finds its source in dirt clinging to the cow and dropping into the pail during milking times. Simple precautions will practically eliminate this source of bacterial growth and dairymen find themselves well repaid for the little time necessary in taking such precautions.

YOU NEED HAVE NO WINTER CAR TROUBLES

A Small Sum Expended Now will Save Time, Worry and Expense Later.

Read of Liberal Offer to All Car Owners

I would like to meet every car owner in our community personally and I am taking the following means to accomplish this: For the NEXT 30 DAYS we will do all of the labor on the operations listed below for the nominal sum of \$9.90. These operations have been selected carefully with the thought in mind of covering the items which would most surely eliminate the majority of your winter troubles.

- (1) Grind valves and clean carbon.
- (2) Replace all necessary gaskets.
- (3) Time up motor.
- (4) Adjust carburetor.
- (5) Flush and clean out cooling system and refill with alcohol and water solution.
- (6) Examine, tighten or replace all necessary hose connections.
- (7) Repack water pump if necessary.
- (8) Tighten all electrical connections—including cleaning top of battery and greasing terminals.
- (9) Clean generator commutator and adjust 3rd brush to increase output if needed.
- (10) Clean starting motor commutator and replace brushes if necessary.
- (11) Adjust headlights, check tail light and top light.
- (12) Lubricate entire chassis thoroughly, including change of oil in crankcase.

This work at regular prices would cost you much more than the amount quoted. Why not drop in and see me personally and make arrangements to have your car gone over thoroughly and put in such condition that you will have a minimum of so-called cold weather troubles.
