More than the half of last week was bad weather. Three to four inches of snow fell on Wednesday and continued during the night. Thursday morning mercury dropped to 5 above zero. Friday was a pretty decent day. Saturday, more snow. Sunday, rain and snow throughout the whole of the day.

The State Highway snow plows cleaned the snow and slush from the roads on Monday. There was an accumulation of three or more inches of snow and slush, making auto driving very disagreeable. After the snow plows passed over the roads there was smooth sailing, with emphasis on the "smooth."

J. C. Reeder, of Georges Valley, was a business caller at this office last Wednesday. Mr. Reeder will make sale of farm stock and implements on March 24. A lot of new and expensive machinery is being installed in the Hosterman Garage repair shop, and in a short time this will be one of the best equipped auto repair shops in the county. Presses, drills and lathes are being placed, and an especially valuable piece of equipment is an electric valve re-facer and re-seater. With this machine it is possible to make a perfect job of this class of work, and car owners who have had occasion to have valves ground with this improved method are jubilant over the increased power noticeable after the car has come from the garage.

More than just building materials

Almost any lumber dealer can supply you with the building materials you need for a specific job—so many feet of lumber—bundles of shingles—pounds of nails—or even the genuine Beaver Board.

That's really a small part of the job. When you buy your materials from us you receive our building advice that has been gathered from years of actual experience. That item doesn't show on your bill but it's a mighty important one—one that will mean a saving for you.

And we have tried to buy only the very best materials for our stocks. We are sure that you will appreciate our service as much as the speedy delivery of materials. You should at least consult us before you place an order for building materials.
