**Clearfield Had Big Fire.**  
A fire damage estimated at \$100,000 was suffered in Clearfield on Sunday, when the Gearhart Lumber company mill and lumber yard was destroyed. The cause of the blaze is unknown, but it is believed to have been caused by a defective boiler, as it was in the section occupied by the boiler room that the flames were first discovered.  
Insurance to the amount of \$17,000 was carried.

**2 Pair Twins in 15 Months.**  
Dr. T. E. Teah was the physician in charge on Monday when twin boys were born to Mr. and Mrs. Jerome Dolan, of Chariton, near Lock Haven. Fifteen months ago he performed a similar service at the Dolan home, the only difference being that on that occasion twin girls were born. There are now twelve children on the family record.

**FARM CALENDAR**  
Timely Reminders from The Pennsylvania State College  
Give Chicks Clean Litter—Cut alfalfa or clover hay makes a splendid litter for little chicks the first week or so of their lives. It not only affords a safe place to work but also supplies the chicks with some green feed. Avoid dirty litter because the chaff and herbs that are thrown up when the youngsters scratch get in the little fellows eyes and irritate the tissues, often causing the eyes to go shut.  
Cool Milk Better—This is the time of the year when many dairymen must watch the cooling of milk more carefully than they have during the past few months. Nature has helped all winter but now she will work the opposite way. Cool the milk over a cooler with running water or in a can set in a tank of ice and water. Stir with a clean stirring rod or spoon. Milk that is stirred cools five times as rapidly as milk standing still.

**DEATHS.**

**VICKERS.**—A telegram received on Sunday by Dr. and Mrs. Hugh Morrow, in Centre Hall, announced the death of George E. Vickers, father of Mrs. Morrow, in Philadelphia. Deceased was aged about 65 years and was ill but a short time. He was an historical writer of note, and city editor of the Philadelphia Press for twenty-five years. At one time he owned and edited a newspaper.

Besides Mrs. Morrow, two other daughters and a son survive. Mrs. Morrow left on Tuesday for Philadelphia to attend the funeral.

**DUBBS.**—Thomas Reed Dubbs, long a resident of Rush township, died near Philipsburg. His wife was Regina Harper. Mr. Dubbs was born near Centre Hall, having been a son of Jeremiah and Eliza Dubbs, whose home was in the vicinity of Rhoneyrside. Mr. Dubbs filled various offices in Rush township and was a prominent citizen there. Six children survive the deceased.

**DALE.**—Nathan L. Dale, a former

resident of Pine Grove Mills, died at his home at Marwood as the result of a stroke of paralysis.

He was a son of William J. and Rebecca Musser Dale and was born at Pleasant Gap sixty-seven years ago. As a young man he married Miss Emma Clemson, of Baileyville, who died in 1907, leaving one daughter, Grace, now living in Pittsburgh. Following the death of his wife Mr. Dale spent some years with his father but in 1921 went to Marwood where he took charge of a boys' school. Rev. William Dale, of Pittsburgh, had charge of the funeral services, burial being made at Marwood.

**SWEENEY.**—The infant son of Mr. and Mrs. R. W. Sweeney died at their home in College township on Wednesday evening of last week. Funeral services were held Friday forenoon and interment made in the Bellefonte cemetery.

A Ford coupe was purchased by Isalah Emery from J. Shannon Booser. A roadster of the same make played a part in the deal.

**ELECTRICITY--**

---for Better Home Making

90 per cent. or more of the house-wives in our community do their own house-work!

This means that nearly all of our mothers--our home makers--are ever seeking more ways to reduce the drudgery of home-making.

This age-old struggle against drudgery in the home is fast approaching complete victory as it becomes possible to use more electricity in household work.

You, too, can use labor-saving devices at low cost

The second and third steps in the new domestic rate permit you to add labor-saving devices and heating appliances, and use them on a cheaper rate than has ever been possible before. That magic power which transforms your house into a home is now obtainable at a very few cents per hour.

Following is a list of operating costs under the new rates, of the appliances which lessen the drudgery of the housework:

- ELECTRIC WASHER .....less than 15c per hour
- ELECTRIC CLEANER .....less than 15c per hour
- ELECTRIC DISH WASHER.....less than 2c per day
- ELECTRIC FAN .....less than .5c per hour
- ELECTRIC REFRIGERATOR.....less than 10c per day
- ELECTRIC RANGE (family of six).....17c per day

Many millions of little motors are destined to enter the home and do 80 per cent. of the hard muscle work now being done by the housewife.

The successful mother always puts First Things First, just as the successful business man. She cannot afford to give washing, cleaning and those other drudgeries the time which rightly belongs to her children.

No lesser duties should interfere with the supreme duty of spending sufficient time for the proper training of her children.

Certainly these lesser duties should no longer distract her, for they can be accomplished at very few cents per hour under the new rate of your electric service company.

**The New Domestic Rate**

ASSUMING PAYMENT WITHIN DISCOUNT PERIOD

- First 35 kilowatt hrs. - - 10c per kw hr
- Next 35 kilowatt hrs. - - 6c per kw hr
- All excess kilowatt hrs. - - 3c per kw hr

This rate is applicable to all domestic service including ranges and refrigeration, for dwellings of not more than twelve rooms.

EFFECTIVE APRIL 1st, 1926
