KEYSTONE QUALITY Hammermill Ground and Aspirated MIXED FEEDS

FOR ALL LIVE STOCK AND POULTRY

My prices will arouse surprise and astonish you. My Quality will enlighten, convince and accelerate you.

For example: Keystone Quality Superior CHOP at \$2.00 per cwt. contains no cob, no dust, dirt or nothing but equal parts by weight of "Nature's Best" Corn and Oats. The oats is ground as fine as middlings and the corn is a perfect meal, then the two are thoroughly and perfectly mixed together.

The average miller ships this quality of grain to the big city millers; uses lower grade grain, often cob and all, does not clean it, grinds thru a burr mill, calls it Standard chop and sells it at \$45 to \$55 or more per ton.

This Mill does not put the material out steaming, hence no danger of a spoiled product. This Mill grinds by impact, not by friction, therefore no heat. It is the only mill of its kind in the State.

I can grind to any degree of fineness but my capacity is not large. My aim is Quality First—Quality Afterwards, and The Right Way, my motto.

I have hundreds of formulas for making all kinds of Feeds. Write for prices and information. Send me your favorite formula for mixed feeds and I will send you my lowest quotations. Anyone who feeds Poultry or Livestock on the smallest or largest scale cannot afford NOT to write.

WRITE—a Government postal will do, or Phone Bell 75R14.

Better the Bridge than the Rocks

FARMING as a business and a farm home as a home have both suffered because farming has not been profitable enough. What shall farmers do?

The Farm Journal in July, 1923, said: "Co-operative marketing of farm products intelligently directed by its members is positively a panacea for every known economic trouble of farmers."

The Farm Journal in December, 1923, said: "We will never be satisfied without some kind of co-operative control of the selling of every farm commodity."

The Farm Journal in Sept., 1925, again says: "Give thoughtful attention to the things a Big Co-Op can do to secure better prices for the products of its members."

Always The Farm Journal believes farmers should sit at the first table, and points the way. Co-operative selling, commodity pools and farmers' organizations are here to stay and are the safest bridge we can see to better prices of farm products and farm prosperity.

You Will Want to Ride This Way, Too

Should you receive a call from one of our men, wearing the "Green Tree" badge, soliciting subscriptions to The Farm Journal, asking you to express your opinion on certain subjects vital to all farmers, please do so. The Farm Journal, with 49 years of service to farmers, honorable dealing and successful publishing, is taking a straw vote to know exactly what many farmers think about these things. We also invite you to join in and lend your influence to The Farm Journal campaign for better prices for farm crops so that farming may be more profitable.

Help Yourself

People all realize the truth of the old saying: "A man cannot lift himself by merely pulling at his own boot-straps."

He may not lift HIMSELF very high by tugging at the OTHER FELLOW'S boot-straps, either. It pays to look out for yourself.
