Parents' and Patrons' Night.

On Friday, March 12, the public schools of Millheim, in connection with the Parent-Teachers Association of the same place, held a big Parents' and Patrons' night. The object was to bring before the parents and citizens the real conditions of the schools. The schedule for the evening was as follows: The school house was open to the display work from 7:00 to 7:30 in the evening. At 8:00 o'clock a very fine program was rendered in the Municipal building. Rev. Arnold, of Bellefonte, was the speaker of the evening, and he was very much impressed with the whole program and especially the display work.

The work on exhibition was of the following nature: In the grades busy work of all kinds—clay modeling, note book work, art and music work, and paper work of all kinds that portrayed the actual school work to the parent. In the High school the sewing class probably had the best work displayed. In a rough estimate about \$200.00 worth of finished things were displayed. Note books, in all classes, the printing department, the manual arts department, and the experiments performed by a few students while the parents were inspecting, were some of the main features of the High school section.

The real object of the meeting was to bring the parents and teachers together and show the parents the actual work their pupils are doing. It proved to be a wonderful success. Parents and citizens who had never visited the schools before were present and expressed very favorable comment on the work. Approximately between 250 and 300 persons attended the exhibition and about 400 attended the program in the town hall. The teachers deserve much credit for the work they are doing in the schools, and especially for the effort put forth for this exhibition. Every one who attended expressed their desire that this might become a yearly occasion, and those who were not present expressed the same desire in order that they may have a chance to see it the next time. It proved to be one of the most successful projects ever worked out in the Millheim schools.
