## JUDGE JOHNSON'S VIEW.

The difficulties of enforcing prohibition should be well known to a man occupying such a position as Albert W. Johnson, judge of the United States court for the middle district of Pennsylvania, holding court at Williamsport, Lewisburg and Scranton, and his views on the prospects for complete enforcement of the dry laws or their modification are worth attention. Judge Johnson, in discussing his impressions based on his first year as a federal judge, says that the law can be enforced and that its present degree of enforcement has resulted in great improvement of general conditions over pre-prohibition days.

Moreover, Judge Johnson considers prohibition sound and holds the view that, with time, it will be completely in force. Of greatest importance, however, is the judge's belief that the eighteenth amendment and the Volstead act can never be repealed or rendered ineffective through modification. These views are especially interesting in view of the large number of cases based on violation of the prohibition laws which have come before Judge Johnson during his first year on the bench. He is in a position to know the extent to which the law is being violated and the type of people who are violating it, and that he has lost none of his faith in prohibition or its effectiveness is important.

## Gets Bullet Through Bone.

Edmund S. Franklin, aged 27 years, of Chambersburg, shot through the left forearm in a holdup at Highbridge, Wednesday night of last week, will have to submit to bone-wiring to save the shattered bone from amputation. Franklin and Miss Martha Garden, a nurse, were parked along the road, when three men, masked and with leveled revolvers, demanded "hands up." Franklin reached for a tack hammer and leveling it as a bluff, was shot.

The bandits dressed his wounds, using a blue bandanna handkerchief as a compress and drove his car within two blocks of Dr. Black's private hospital, at Lewistown where they disappeared.

## Epworth League Convention.

The Williamsport district Epworth league annual convention closed on Thursday evening of last week in the Bellefonte Methodist church and was considered one of the finest in recent years. The program announced for the convention was followed exactly, each speaker delivering an address of great inspiration.

The Rev. W. E. Watkins, D. D., superintendent of the Williamsport district, installed the following officers for the ensuing year: President, Rev. M. S. Q. Mellett, of South Williamsport; vice presidents, Miss Ruth Poorman, of Renovo; Miss Isabelle Johnson, of Bellefonte; Fred Hoffman, of Lock Haven; Russell Mayes, of Avis; corresponding secretary, Nora Bailey, of Morrisdale; recording secretary, Wilbur Starr, of the South Williamsport Methodist church; treasurer, Mrs. J. C. English, of Lock Haven, and junior superintendent, Miss Marie Hall, of the Muberry Street Methodist church, Williamsport.

## Free Advertising.

Brother Lesher of the Huntingdon Monitor believes in advertising and gives this bit free: There is an itinerant upholsterer and fix-it man by the name of H. H. Lewis who works out of Tyrone, and we have found to be unreliable in his dealings with us. Persons who have and dealings with him in this county should be sure that he can not take advantage of them.

## Kill the Grouch Spirit.

Only a genius can make capital out of annoyance, but there is nothing to prevent all of us from acquiring genius. Rather than conquer the little irritations of our daily life we permit them to conquer us. Human beings are prone to submit to that which they are naturally subservient.

In the home, in the office, store and factory, in our daily contact with society, in labor, play or slumber, we are forever being disturbed and irritated. Little things go wrong and little men and women permit these trivial things to spoil precious hours and whole days for them. When an annoyance cannot be pushed aside, by a little display of self-restraint and patience, it is not an annoyance but a colossal misfortune.

## Union Camp Meeting.

July 7 to 18 is the time set for the Union Campmeeting at Zerby Station between Spring Mills and Coburn. Undenominational evangelists will be present; good music. Tents may be secured for \$1.00. Those wishing tents should get in touch with the chairman. The campmeeting association was organized in 1925 and now has a membership of 49.—Mrs. Margaret Godshall, Centre Hall, Pa. 026

The rotation of crops is nearly as effective in increasing soil productivity as is the use of farm manures and complete fertilizers, as based on experimental yields of wheat, corn and oats, taken collectively. When rotation and the use of fertilizers are practiced together the one practice adds to the benefits of the other, and increased yields are greater than from either practice alone.

## THREE MEET DEATH IN TRAIL COLLISION

Woman and Two Youths Die When Automobile and Motorcycle Crash at Selinsgrove—False Teeth Choke Woman to Death.

A Freeburg woman and two youths of Selinsgrove are dead as a result of a collision between an automobile and a motorcycle at the intersection of the Freeburg highway and the Susquehanna Trail, on Saturday.

The dead are: Mrs. Strayer, aged 60, Freeburg; George Rhinehard, 20, Selinsgrove, and Fred Goss, 18, also Selinsgrove.

Mrs. Strayer strangled to death when her false teeth lodged in her throat, according to physicians.

Rhinehard and Goss were on their way to Harrisburg on the motorcycle on the trail when the automobile, driven by Mrs. Irvin Riegle, Harrisburg daughter of Mrs. Strayer, emerged from the Freeburg highway and collided with the motorcycle. Three women were also in the car.

Rhinehard was pinned between the motorcycle and the automobile while Goss was thrown into the air and fell on his head. Both died almost instantly. Mrs. Strayer was dead when taken to a doctor's office at Selinsgrove.

## Celebrate Golden Wedding.

The fiftieth wedding anniversary of Mr. and Mrs. John Geary, formerly of Centre Hall but now of 324 N. Fourth street, Sunbury, was celebrated at the home of their daughter, Mrs. Harry E. Bell, of 328 N. Fourth street, on Sunday, June 13th, with a family gathering.

There were many out of town guests present, among whom were Mr. and Mrs. C. W. Luse, daughter Miss Cora and son William, of near Centre Hall, and the aged couple were showered with gifts suitable to the occasion. A sumptuous dinner was served and the afternoon enjoyably spent.

Mr. and Mrs. Geary were married in Millheim on June 5th, a half century ago, by the late Rev. Shoemaker, pastor of the Aaronsburg charge of the Reformed church. Mrs. Geary before marriage was Miss Mary Catherine Krader of Millheim. They have resided in Sunbury since 1917 and Mr. Geary is employed by W. H. Drueckemiller in Pomfret Manor, cemetery.

Mr. Geary is 75 years of age and his wife is 72. Both are in excellent health and are about every day. Mrs. H. E. Bell is an only daughter and Mrs. C. E. Kinney of Sunbury is a granddaughter.

Their many friends here wish them many more years of happily married life and continued good health.

## Spring Mills Trounced, 13-5.

Collecting sixteen safe hits, the local baseball team completely routed the Spring Mills boys on the local High school athletic field, Saturday afternoon. The score was 13 to 5.

There never was any doubt as to the final outcome from the first pitch to the lead-off man on the Spring Mills nine. The visitors were a very inexperienced lot, but better things may be expected of many of them in the future. Lee, at short, and C. Hering, on second, are comers. Jamison is a good catcher and hitter. As a team, however, they lacked the snap necessary to win. Lutz, the local south-paw pitcher, struck out eleven of the visitors, while Fiedler, of Spring Mills, also a left-hander, caused only one of the locals to fan the breeze—and that one none other than our veteran Harry Gross, who now wears a Bellefonte uniform, being a member of the county seat's baseball team in the Susquehanna League. Probably the S. M. pitcher thinks his one victim is as good as a dozen of the little fellows. Another veteran in the local's line-up was the perennial "Nutch" Knarr, who seems to go on forever.

An average of one applicant out of every six failed to pass their examinations for automobile drivers' license in May, reports the Highway Patrol show. During the month 28,472 persons were successful in the tests, while 6,016 failed. The lighting equipment of 6,016 cars had to be adjusted in conducting these examinations and license plates on 4,729 automobiles reset.

## The Seven Mt. Road.

The Lapid Construction Company is making rapid headway on its road building contract over the Seven Mountain. The grading, that is, the rough work, is well on to completion, except that at the "horseshoe bend" where the new road will widen the curve. Pouring concrete is to begin in the near future.

## Wholesale Removal of Tonsils.

Thirty-two boys and girls at the Tressler Orphans' Home in Leycester underwent operations for the removal of tonsils and adenoids. The operations were performed at the home in three hours by a corps of surgeons and nurses from the Polyclinic Hospital, who made the trip by train from there. After the operations the children were put in the care of Dr. W. T. Morrow, resident physician at the home.

## Cows Now Need Grain Ration.

Feeding grain to dairy cows on pasture cannot be emphasized too strongly this year, says County Agent R. C. Blaney. Lack of rain during the spring has made pastures extremely short, and as a result, grain feeding is more necessary than ever. If the production of milk cows is to be kept at a high level during the summer and fall months, grain feeding is essential. This is especially true of cows that freshened this spring. Already many cows that were in good condition when turned on grass are thin-fleshed. Since early grass is from 80 to 90 per cent. water these cows have not been getting enough nutrients to produce milk and maintain flesh too.

When cows go down in milk production in the summer as a result of short pastures, it is practically impossible to bring them back to what they should produce. While grain fed now does not pay large immediate dividends, it will make large returns in maintaining a steady flow of milk the remaining months of the lactation period.

The better dairymen in Pennsylvania are practically all feeding grain to cows on pasture. They find it pays. Cows giving less than twenty pounds of milk daily need very little, if any grain. Jerseys and Guernseys give more than that should have a pound of grain for each five pounds of milk produced and Holsteins and Ayrshires should each get one pound of grain for each six pounds of milk daily.

## Pensions for Ministers.

Definite plans for the raising of a \$15,000,000 pension fund for clergymen of the Presbyterian Church were announced by Will H. Hays, motion picture executive and chairman of the Presbyterian Laymen's League. Mr. Hays said the campaign will be carried on extensively in every synod of the church in this country.

"Every thoughtful man recognizes that ministers of all denominations are the most underspaid of men," said Mr. Hays, "and the time has come to rectify these shameful conditions. Our new service pension fund has been developed from life insurance experience. A minister will pay 2 1/2 per cent. of his salary into the fund, the local church will pay 7 1/2 per cent. of the minister's salary and the church-at-large will pay annual service pensions ranging from \$600 to \$2000 to ministers, missionaries and educators who have served 25 years and have attained the age of 65. Adequate provision is also made for the care of widows and orphans.

## Festival on Grange Park.

To enliven the occasion, the Spring Mills band will be an attraction and furnish a number of excellent selections. Cake walks will provide the usual merry-making. Don't miss it. A good time is assured.

By order of Committee.

The team was made up of the following members: Harold Bullock, Port Matilda; Lester Casner, Port Matilda; and Isabelle Way, Port Matilda. First prize was won by the Columbia county team with a total score of 968.9, while the Centre county team placed second with a total score of 968.4, or a difference of 5 of a point.

Harold Bullock, a member of the Centre county team, placed first as an individual. In doing this Bullock placed first over a group of thirty boys representing different parts of the State. In this contest the boys and girls judged beef cattle, hogs, horses and sheep.

## Shower from Clear Sky.

On Friday evening a number of the friends of Mr. and Mrs. Daniel Smith Daup assembled at the home of Mr. and Mrs. J. C. Goodhart, and from there went to the home of the young people, carrying with them as gifts many useful household articles. The "shower" was unlooked for. Before returning home the guests spread the refreshments previously prepared.

Among the guests were Mrs. J. M. Kirkpatrick and son Jack, Mrs. Fred Bender, Mrs. J. C. Goodhart, Mrs. D. M. Bradford, Mrs. Roy Dutrow and son Albert, Mrs. J. A. ## Up to the Motorists.

American railroads are planning another Summer drive against the reckless driver at grade crossings. The campaign will run from June 1 until September 1, a period of the year marked by the reddest trail of blood.

No person seriously disputes that the vast majority of grade crossings accidents are the result of carelessness on the part of the victims. The practice is obvious to any observer at these points. Since all crossings cannot be eliminated at once, caution alone must be taught. And that is difficult in a rush-a-way world, but it is a lesson for every motorist to master.

Work on the new bridge at the old Brown mill hotel, at Reesville, was commenced last week. The new bridge will be built to the east of the old one, which will permit the elimination of a bad curve at that point. During the period of construction traffic will not be interfered with.

Mr. and Mrs. N. C. Hockman and "Squire" Cyrus Brungart, last Thursday, drove to Greensburg and other points in the Pittsburgh district. It was a business and pleasure trip combined. The route was over the William Penn Highway, which now is the most direct and best road to Pittsburgh.

The effort to avoid hitting a chicken on the State Highway resulted in the car driven by Mrs. Braid Stover, of Haines township, going over an embankment and turning upside down. Mrs. Stover and one of the children, the only occupants of the car, were able to crawl from under the auto, having escaped injury except for a few bruises.

On Wednesday night of last week at 12 o'clock, J. I. Pettehoff, Paul Pettehoff, Frank Phillips, Emerson Ennist and Frank Smith, traveling in the latter's car, went to Elizabeth, New Jersey, and brought home four new Star-Six cars; a sport roadster, coupe, coach and sedan. DeVore is but eighteen years of age, having entered Penn State when he was fourteen, the youngest student ever enrolled there.

Messrs. Robert E. Frantz, of Stephentown, Bradford county, and Lester Sedam, of Muncy, Lycoming county, on making a trip through Central Pennsylvania in the interest of the Pennsylvania Rural Letter Carriers' Association, stopped at Centre Hall post office to consult with W. F. Keller, secretary of the Centre county association. The former is secretary of the State association, and the tour was made to encourage a more complete organization in every county in the State. The State association will meet in convention at West Chester, August 26-28, and the following week the National association will assemble in Philadelphia.

Constable Wm. Wolfe, of Haines township, accompanied by officer F. C. Mensch, of Millheim, went to Minersville with the necessary legal papers in the case of the Penns Valley Game and Fish Association versus seven Minersville residents, trespassers on posted lands last fall. The case was originally "rummed up," relates the Journal, when a Minersville justice permitted the defendants to enter bail for appearance at court without the formality of a hearing. This time, however, the officers had orders to come back either with the defendants or the fines, which amounted to \$21.00 each for the seven men.
