HOW TO KEEP WELL

DR. FREDERICK R. GREEN
Editor of "HEALTH"

THE CAUSE OF CANCER

THE most terrifying and fatal disease to which the human body is subject is cancer.

Human life is terrifying in proportion as their causes are unknown.

Cancer may attack any part of the body.

Cancer is increasing in frequency.

Almost every conceivable cause for cancer has been suggested.

TONSILLAR INFECTION

ONE of the first regions which was carefully investigated in a search for focal infections were the tonsils.

Being at the back of the mouth, they are subject to all sorts of infections and irritations.

In many people who do not have acute attacks of quinsy or tonsillitis, there is a chronic condition of infection of the tonsils.

MOST ESSENTIAL UTENSILS FOR TOURING

Tent and Cooking Kit Are Important for Camping Out.

Camping out is one of the great privileges available to all who motor and at this season thousands of motor car owners are planning their expedition.

For those who expect to enjoy camp life for the first time, the Touring Bureau of the National Automobile Club, California, issued a few suggestions.

Travel light, is the first rule of camping equipment.

The essentials include a good tent or a comfortable bed arrangement within the car.

Good Tent Essential.

The choice of a tent is important.

Folding mattresses add to the comfort of the night's rest.

The real woodsman would probably scorn an up-to-date stove of the gasoline type such as is now turned out by the camp goods factories.

olone type such as is now turned out by the camp goods factories, but wood is scarce in many of our forest reserves, and the path of easiest resistance is to provide yourself with a dependable stove with folding oven attached.

A complete cooking kit of aluminum utensils nesting into the largest pan makes for camp efficiency and occupies the least room.

Don't carry with you articles of value. It's far cheaper to invest in a complete camp cooking outfit and use it only for camping expeditions than to leave some of the family silver out in some remote part.

A water bag should be a part of the camp equipment, and extra gasoline and oil carried on the running board is a safeguard against trouble and delay.

The lighter you travel, provided you have the essentials along, the easier it will be on car and passengers and the more enjoyment you will get from your expedition.

LEFT SIDE SAFE ON THE HIGHWAY

Parents Also Urged to Caution Children Against Begging for Rides.

With the summer outing season in full swing, pedestrians on the highways are urged to follow the rule of walking on the left side.

"Walking on the left side of the road has been advocated for some time by police and highway officials who have made a study of automobile accidents, yet a large number of people continue to use the right side of the road when walking," says the bulletin.

Begging for Rides.

"The habit of asking for rides should also be discouraged. Police in a number of cities have often issued warnings against the practice.

Pedestrians Involved.

An analysis of the motor vehicle accidents made for the recent Hoover safety conference showed that pedestrians were involved in 29,982 out of 47,128 accidents reported in the state of New York in 1925, and that of 1,891 persons killed, 1,155 were pedestrians.

Adjusting Motometer is Rather Difficult Task

It is a common opinion that the proper way to collect the fluid in the indicating tube of the motometer, if it becomes separated, is to stick the stem of the instrument in boiling water.

This is correctly accomplished by holding the motometer in an upright position and quickly tapping the bottom of the instrument on the spare tire of the car until the liquid is gathered.

Schoolboys Make Novel Safety Street Device

To insure motorists observing the sign, "School Street" "Slow Down," in front of their schoolhouse, boys of

Protection Against Motorists.

a carpentering class of San Diego (Calif.) school have built this unique dummy and firmly implanted it in the middle of the street.

Cost of Running a Car Not Fixed by Cylinders

Engineers have debated the relative cost of operation of an eight-cylinder motor as against the six. Here is the comment of one expert: "The expense of running a motor doesn't depend so much on the number of cylinders as it does on the number of cubic inches of piston displacement."

"Take a given piston displacement and divide it up any way you want to, into two cylinders, four cylinders, six or eight cylinders and you will use just about the same amount of gas."

"Of course, the greater the number of cylinders, the more overlapping of power impulses occurs and the smoother the operation of the motor. But don't make the mistake of thinking that additional cylinders mean additional expense, unless the piston displacement is increased."

AUTOMOBILE HINTS

The mythical "man in the street" is no myth to the driver who is trying to keep his record clean.

At night a parked car should have its lights turned on to show a white light ahead and a red one behind.

Seventy-six per cent of all motor cars sold in the United States are bought on the deferred-payment plan.

Thirty-six world records are said to have been broken during a non-stop run by an automobile over the Monza track in Italy. The car covered 14,916 kilometers (9,268.33 miles) in 144 hours.

Records on Bamboo

The folklore of the poor Malay people in Sumatra, according to Prof. H. H. Bartlett, of the Smithsonian Institution, is preserved on joints of bamboo. While studying rubber-producing plants in that country, Professor Bartlett became interested in the custom which the natives practice of writing their faiths, legends and accounts of magical and medicinal uses of plants on the joints of bamboo when the plants are still green.

Frozen Eggs From China

A. J. Morris, vice president of the American Merchant Lines, in charge of traffic at New York, reports a new unloading record established when 32,000 cases of frozen eggs from China were removed from the liner American Farmer in 20 hours.

Perfumes to Cost More

Grasse, France, the perfume center of Europe, with 29 distilleries, will run short of 600,000 pounds of petals this year as a result of the late frosts and inclement weather which destroyed a fifth of the Riviera flower crop.

Furs From Alaska

Furs shipped from Alaska to the United States since its purchase in 1867 have been appraised at \$95,500,000. The value of last year's output was \$3,000,000.

Police Ban Dyeing Dogs

The practice of society women at Paris of dyeing their dogs to match their gowns was stopped by the police on the complaint of the International Humane Society, says the Pathfinder Magazine. It was found that weakened solutions of dyes for cloth were used and that they were injurious to the animals.

Women in England

Because British schoolmasters voted that no male teacher should take orders from a woman principal, the woman teachers of England are up in arms. Their national union termed the action of the men as "sex warfare" and declared they would battle out the issue to the finish.

Physicians Guessed Wrong

A Chicago man, who was rejected by an examining board during the Civil war as physically unfit and warned that he would "not last a week," died recently at the age of ninety-two, remarks the Dearborn Independent.

Faux Pas

"I met your husband yesterday, but he didn't see me."
"I know. He told me."

When you decide to get rid of Worms or Tapeworm, get the medicine that will expel them with one dose—Dr. Peery's "Dead Shot." 712 Pearl St., N. Y. Adv.

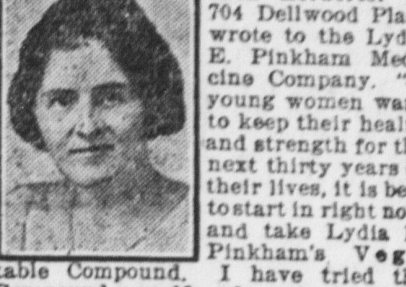

Every man is like the company he is wont to keep.—Euripides.

Censure is the tax a man pays to the public for being eminent.—Swift.

WOMAN CONQUERS FEARS

Husband Delighted and Home Happier

St. Paul, Minn.—"Here is a little advice I would like to have you put in the papers," Mrs. Jack Lorberter of 704 Dellwood Place wrote to the Lydia E. Pinkham Medicine Company.

"I have tried the Compound myself and received fine results from its use." In describing her condition before taking the Compound, she writes, "I was afraid in my own house in broad daylight, I used to lock the doors and pull down the shade, so that nobody could see me."

BEST for the Complexion

The beauty of Glenn's is the beauty it brings to the complexion—soft, smooth, clear white skin, free of pimples, blackheads or other blemishes.

FLIT
A spray a day - Keeps skeets away
DON'T let mosquitoes ruin your summer. Keep your bed rooms free from all insects. Spray Flit.
Flit spray clears your home in a few minutes of disease-bearing flies and mosquitoes. It is clean, safe and easy to use.
Kills All Household Insects
Flit spray also destroys bed bugs, roaches and ants. It searches out the cracks and crevices where they hide and breed, and destroys insects and their eggs. Spray Flit on your garments. Flit kills moths and their larvae which eat holes. Extensive tests showed that Flit spray did not stain the most delicate fabrics.
Flit is the result of exhaustive research by expert entomologists and chemists. It is harmless to mankind. Flit has replaced the old methods because it kills all the insects—and does it quickly.
Get a Flit can and sprayer today. For sale everywhere.
