EVANGELICAL HOME SUPERINTENDENT REPORTS

Lewisburg Home as Flourishing—Contributions by Penn Township Residents.

Rev. A. A. Winter, superintendent of the Evangelical Home at Lewisburg, made a report to the executive board of Evangelical Homes that will be of interest to many of the readers of this paper. Among other things the superintendent reported as follows:

We have moved into the new dormitory. Everybody is enjoying the new large dining room, new kitchen with its modern equipment, fine reception room and chapel. Nearly \$3000 worth of hospital equipment has been ordered, purchased from the same company that furnished the equipment for the new addition to the Williamsport hospital. You will be asked to select a grade nurse for the Emergency Hospital today. We have three applicants. We have 17 guests in the new building. The following have been received since your last meeting: Miss Emma B. House, Miss Carrie W. House, and Mrs. Annie Donachy, of Lewisburg; Mrs. Lavina Schreffler, McClure; Wm. F. Hafer, New Columbia; Mrs. Lizzie Dummire, Saltz; Minnie F. LaRue, of Harrisburg; Homer M. Turner, and Mrs. Mary C. Turner, Franklin; Mrs. Sarah C. Crops for the year very good. Some of the wheat went 40 bushels to the acre without any fertilizer. A large apple crop; other fruits, berries and vegetables, about the average. The best corn yield we have had for the ten years we are here. Several of our accredited Guernsey cattle took blue ribbons; also black team of horses at the Union county fair. Ready how to sell some young stock, when called upon for them.

Excursion to Sesqui. The excursion Saturday night from Bellefonte to the Sesqui was well patronized by both young and old from Penna Valley. All told 417 tickets were sold at the Bellefonte station. It rained nearly all of Sunday in Philadelphia like it did here, but the excursionists report having made the tour of the Sesqui grounds and buildings and also visited points of general interest in the city. The excursion train returned to Bellefonte at about 3:00 o'clock Monday morning.

There were no mishaps, except a slight one in Bellefonte. When the train stopped to discharge the passengers, a Bellefonte lady became confused and after being helped from the platform by one of the trainmen, stepped into the creek, the water in which was more than waist deep. She was "pulled to shore" by friends.

Doer Knocks Car off Road. A doe deer was responsible for having dismantled three wheels on a Ford touring car of its tires, and the car hitting a tree and telephone pole by the roadside, doing considerable additional damage. The doe in question was one of two deer that passed over the State Highway, at the old Post place in Sesqui Mountains, in front of a car being driven by Moyer Gentzel, tenant on the Brockerhoff farm east of Centre Hall. Mr. Gentzel skillfully avoided hitting the first doe to appear on the road, but before he was aware of it his car hit the second one and caused a bad mix-up. All it did to the deer was to break its neck.

After the tires were replaced on the Ford wheels and numerous adjustments made, Mr. Gentzel went on his journey and on the way stopped at the State House to inform Forester McKinney of what had happened. Mr. McKinney made disposition of the carcass of the large doe.

You reach three feet for it— and it reaches three thousand miles for you

It is more than the four-pound instrument at your elbow, or the copper circuit and the central office switching apparatus.

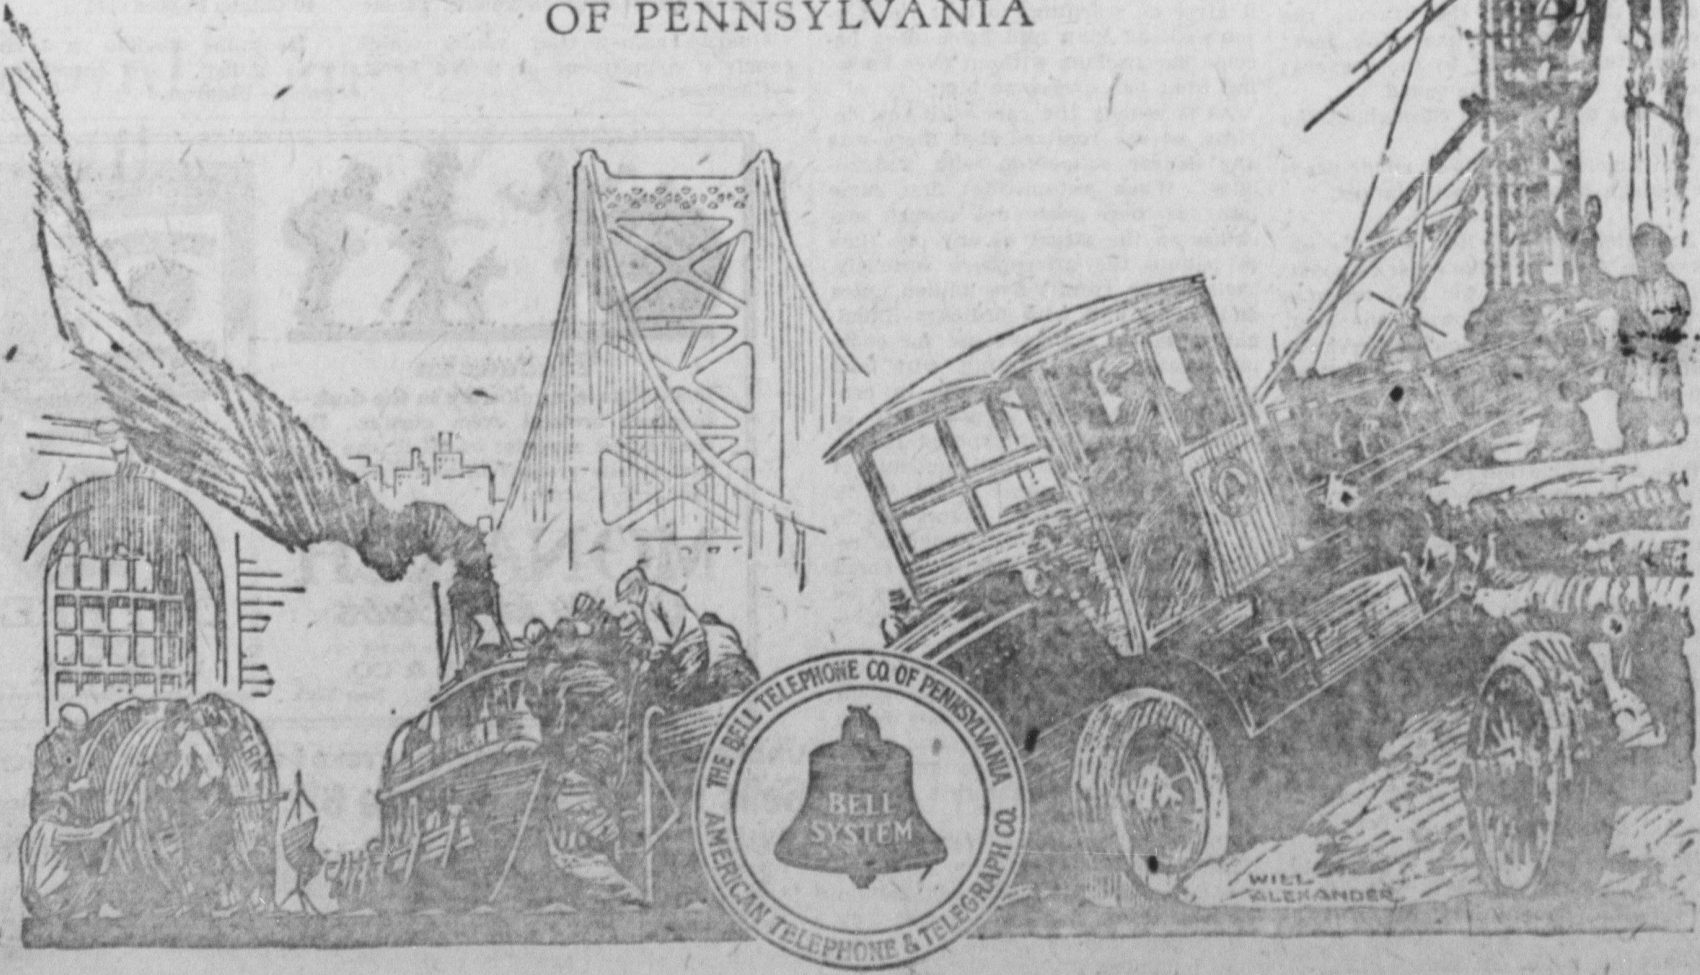

It is universal service—with Pennsylvania's million Bell telephones and America's eighteen million.

Its value to you is represented not merely by your ten or a dozen calls a day, but by its readiness to take you anywhere or bring anyone to you.

And, so, its value to you continuously increases as this facility of service is extended. Since 1916 it has doubled.

Equipment complexities already tremendous are being more than matched by scientific invention and development, and each year finds a better balanced, smoother working, more efficient mechanism.
