IS there a car that can outclimb the Star?

If there is a car of any make, at any list price, a standard model of which can outclimb a standard model Star car, we want to stage a hill-climbing contest, to determine the relative power of the two cars. Maybe one of us is mistaken, but until we have proof of the contrary we will continue to claim for the Star car supremacy in climbing hills. The same leadership in power that makes our car the star hill-climber also yields superior ability to pull through mud and sand, and to get you there and back. We will gladly demonstrate the powerful Star to any interested prospective buyer.

Air "Twister" Caused Terror in England

The first tornado in England of which there is any definite mention occurred nearly three centuries ago in Cheshire and Lancashire. Rotating or spiral storms, such as are comparatively frequent in western America, occur but seldom in Europe.

The "twister" of 1632 is thus described by a contemporary writer: "There arose a great pillar of smoke, a height like a steeple and judged twenty yards broad, which, making a most hideous noise, went along the ground six or seven miles, leveling all in the way. It threw down fences and stone walls and carried the stones a great distance from their places, but happening upon moorish ground, not inhabited, it did less hurt."

"The terrible noise it made so frightened the cattle that they ran away, and were thereby preserved. It passed over a cornfield, and laid it low with the ground as if it had been broken by feet."

"It went through a wood and turned up above a hundred trees by the roots; coming into a field of cocks of hay ready to be carried in, it swept all away, and left a great tree in the middle of the field, which it had brought from some other place. It overthrew a house or two, but the people that were in them received not much hurt, but the timber was carried away nobody knows whither."

Cricket Held in High Importance in China

In Shanghai the public parks, the gardens and the trees of the cathedral yard, in the center of the business district, are the hunting grounds of hundreds of Chinese coolies and boys. The quarry is the green cricket. To the Chinese a chirping cricket is a symbol of good luck. And crickets swarm on all the trees in the international settlement and their noise rises above even that of the traffic. Boys climb the trees, pick off the crickets, put them into small basketlike cages and then go through the streets selling them for a copper or two each. One cricket or more are to be found in almost every native home, where they chirp and trill all day and all night. The noise of a cricket is to a Chinese the height of musical excellence plus the added virtue of good luck. If all the multifarious noises of the noisy city of Shanghai were boiled down into one, the song of the cricket would drown them. No opera singer could capture half the rapturous interest that the cricket is getting from the Chinese to-

MAIL ORDER PRICES BEAT

YEAGER'S TINY BOOT SHOP, BELLEFONTE, is in position to sell SHOES and all kinds of RUBBER FOOTWEAR FOR LESS PRICE than any Shoe Store or Mail Order House in the United States.

WHY?

This is the reason. Our daily expense of operating this tiny store is only 62c a day. FIFTY CENTS profit on a pair of shoes or rubbers means as much to us as \$2.00 profit in the large store. The other goes to pay large rents, clerks and other expenses that this hole in the wall shoe store does not have.

GIVE US A CHANCE TO PROVE IT.
