

LOCAL AND PERSONAL

Prof. L. O. Packer, instructor in a Pittsburgh High school, was with his family here over Saturday.

C. P. Grenoble, who now lives west of Madisonburg, by March 1st will become a resident of Rebersburg.

Robert Linsie, of near Spring Mills, was a caller last week to advertise the real estate of his mother, Mrs. W. P. Linsie, in Georges Valley.

Mrs. E. E. Bailey entertained the Sunday-school class in the Lutheran church, of which she is a member, Thursday evening of last week at her home.

Mrs. J. L. Tressler has been too ill to take care of her home in Centre Hall and was assisted in doing so by her daughter, Mrs. Wm. McClinton, of Linden Hall.

William B. Hanna, last week, made a business trip to Binghamton, New York. Mr. Hanna had been in Youngstown, Ohio, for some time, but recently has been at Potters Mills.

Mrs. T. L. Smith entertained fifteen of her lady friends at a quilting Wednesday afternoon and evening of last week. At 5:30 the guests enjoyed a chicken dinner, with all the essential trimmings.

Rossman Wert, one of eight hundred students at Eckley Business College, Harrisburg, was at his home at Tusseyville for a few days, returning to his studies on Tuesday. He is well pleased with the institution.

The "Junior Service Class," a class of young girls in the Lutheran Sunday school, was entertained one evening last week by Margaret Alexander, a member of the class, at the home of her parents, Mr. and Mrs. A. W. Alexander.

A small tract of timber was sold by Mrs. Sadie Corl to Joseph Kelley & Sons. The tract lies immediately north of the farm buildings west of town. The logs will be hauled to the Old Fort landing where the firm now has a saw mill in operation.

The dining room and first floor accommodations in the Centre Hall hotel go under new management next Monday. Mrs. J. M. Coldron will have this feature of the hotel in charge. In another column will be found an announcement of general interest.

Russell Goodhart, second son of Mr. and Mrs. James C. Goodhart, of Centre Hall, will leave the latter part of the week for Cincinnati, Ohio, and about March 1st will take up a course in embalming in the Cincinnati Embalming College with a view of fitting himself for that class of work.

Hard luck was experienced during the recent past by Joe Zelleonik, of Pleasant Gap. Some time ago a horse died for him and at the sale here last week he purchased a horse for \$155 to fill his place. The animal was taken home, and during the following night was kicked on the leg by another horse. The bone was broken, necessitating the killing of the animal.

J. C. Lee, station agent at Spring Mills, made a trip to Bellefonte last week largely in the interest of farmers in Penns Valley. Observing that much lime is being hauled by trucks to the valley, Mr. Lee visited the lime plant and as a result lime will be shipped in car load lots to Spring Mills at \$2.50 per ton. The price includes freight. The lime is about 95 per cent. pure.

Lloyd Kerlin, of New Cumberland, was at his old home at Colyer to visit his parents, Mr. and Mrs. P. B. Jordan. Mrs. Jordan is past eighty-three years of age, and has just recovered from a fall that kept her in bed for three weeks. Mr. Kerlin holds a position at the Government store house at New Cumberland. The importance of the storage place may be partly inferred from the fact that there are forty-five acres under roof.

Ray Decker, on Monday, returned to Williamsport to resume work in the Williamsport Motor Company's works there. In April he may take up farming on the Weaver farm, near Colyer. He informed the Reporter that last October A. J. Weaver, his father-in-law, who was killed while felling a tree, took out an accident insurance policy varying from \$1000 to \$3000 for loss of life according to character of accidental death. The family is not certain, however, whether his case is covered by the policy.

A special train from Williamsport passed over the branch on Friday. It carried on it H. H. Russell, superintendent of the Williamsport division of the P. R. R. system; W. G. Spangle, division freight agent; W. L. Fry, supervising agent; H. L. Stack, train master, division engineers, and others. On inspecting the local station and track, Agent Bradford called their attention to the very bad condition of the crossing over Main Street, as well as bad condition of the approach to the train used by passengers.

Mrs. Kegner Runkle and little son, Junior, from Sunbury, and Mrs. Nellie Bloom, from Williamsport, are guests of Miss Laura Runkle, this week. On Wednesday, Miss Runkle gave a quilting in their honor, a feature being a sumptuous dinner which was served at 5:30. The following were present: Mrs. S. F. Greenhoe, Mrs. F. V. Goodhart, Mrs. F. M. Fisher, Mrs. W. F. Bradford, Mrs. Clyde A. Smith, Mrs. William Floray, Mrs. J. I. Pettehoff, Mrs. F. P. Geary, Mrs. Keemer Runkle, Mrs. Nellie Bloom, Mrs. J. M. Coldron.

Senator Scott, by a bill introduced by him in the State Senate, is making an effort to have the road from Millheim through the narrows then by way of Madisonburg over Nittany Mountain and intersecting with the State highway through Nittany Valley at Huston, also known as Nittany, made a State highway. The cross road would connect the Old Fort-Lewisburg, Centre Hall-Rebersburg, Bellefonte-Lock Haven State highways and would greatly serve a large number of motorists. This road is now kept up at the expense of the county.

LOCAL AND PERSONAL

James Foust, chief mechanic in the Homan Garage, is ill with grip since Monday night.

Mrs. W. A. Broyles, president of the County, W. C. T. U., today (Thursday) is entertaining at a dinner the district presidents in the county, at her home in State College.

The State highway plows were out Tuesday night and cleared the roads of the slush that had become annoying to auto drivers. Through the boring the road was thoroughly cleaned, having had the appearance of being swept.

Edward Foreman, of Canfield, Ohio, has been about town for a few days, having been called here on account of the death of his brother, Frank A. Foreman, at State College. John and Guy Foreman also attended the funeral of their father, a notice of which appears in this issue.

With improvised snow plows the snow from portions of the Brush Valley road, west of Centre Hall, and the Earlstown road, west of Old Fort, was removed on Tuesday. Horses furnished the motive power. The sections cleared are between Rhonemede and Old Fort, and the Garbrick farm and Centre Hall.

Dr. George W. Wellburn, director of Christian Education of the State Sabbath School Association, spoke to audiences in the Lutheran church Tuesday afternoon and evening. The audiences were extremely small on both occasions, yet from these gatherings may result the things the educator probably most desired—the establishing here in the near future of one of the several characters of religious training schools offered. If this is done a twin school will be carried on in Millheim.

York, Penna., June 17, 1926
"I have been using 'AA Quality' Fertilizers for 15 years and have always found them to be the best. 'AA Quality' Fertilizers cannot be beaten for growing truck crops where you want the crop to mature for early market. The drilling conditions I have always found to be very good."
—H. H. Fahs
York, Penna., July 17, 1926
"I have been using 'AA Quality' Fertilizers for 20 years and have been so well satisfied with the results obtained as well as the drilling condition in which the material arrives, that I would not think of making a change. I would recommend 'AA Quality' Fertilizers to all truck growers who want to get their crops matured for early market. The past season I obtained a yield of 92 crates, 32 quarts to the crate, of fine-quality strawberries, on a patch of one-quarter acre."
—Harry Markey

Every crop you harvest leaves your land poorer—unless you enrich the soil with a good fertilizer

"AA QUALITY" Fertilizers do more than carry the burden of feeding the current crop. They build up your land generally and enrich the soil for succeeding seasons. They build up run-down fields and make them profitable. They give you heavy yields of better quality products.
That's because "AA Quality" Fertilizers are made right. Their formulas are the result of years of scientific research. They supply crops with just the right plant food elements, in proper proportions and such perfect condition that they are available to each

plant during every stage of its growth. They bring crops to an earlier—and more profitable—maturity.
The materials in "AA Quality" Fertilizers are most carefully prepared, mixed, cured and remilled. That's why they always work uniformly in drill or planter. They are made by the largest fertilizer manufacturing company in the world! And backed by a first, a second and a third generation of consistent, enthusiastic users! . . . whose farms have been enriched, whose yields have been increased, whose profits have mounted into big money.
