TUESDAY AND WEDNESDAY
 Vaudeville that plays for Keith and Largest Theatres everywhere:
 "VISIONS OF THE PAST"—
 FIRE—RAIN—FLOOD—ERUPTION
 The wonder sensation of the country, the only act of its kind ever offered on the vaudeville stage.

Every teacher and school child, every man and woman, should see this realistic, spectacular marvel of mechanical genius, Vision of the Past. When the curtain rises there is total darkness, then the sun rises and with daybreak you see a beautiful city, then the darkness comes again and you see the city at night, and every building illuminated and street lights. Street cars and boats are passing, then comes the most exciting part of the production—the storm breaks, real water comes down in torrents, then with heavy shocks, the earthquake comes. It is the most exciting scene ever seen by any stage. The fire breaks out in each building, the earth opens up, and the entire city is destroyed. The flood then comes and the entire city is under water. A sight never to be forgotten. The entire scene is explained by a lady lecturer who is deserving of special mention. This mechanical wonder is produced under the personal direction of the inventor, Prof. H. Armand, whose reputation is known the country over.

So Super Special Picture, "THE LAST ALARM," and "The Collegians." Reduced Admission, 15 and 35c.

 CLARA BOW & ANTONIO MORENO In "IT"
 Well, here is at last Clara Bow as only Paramount can screen her and the screen favorite Antonio Moreno in one of the year's greatest photoplays. This is Miss Bow's latest attraction and one that will sweep you from your feet. We personally recommend it to give 100 per cent satisfaction, as "IT" is a knockout. Taken from Elinor Glynn's story of the same name. Yes, it will be 35c, but what is that when you see the last word in screen entertainment which in our only policy.
 Also Fox News and "Hair Cartoon."
