Special Sedan Special Six Chassis \$1485

The Nation's New Vogue in Body Design Styled by Nash

It is emphatically apparent today that Velmo Mohair Velvet, deeply tufted. Nash has created a new era in American enclosed body artistry with this arrestingly distinctive body design.

With its new symmetry of line, its classically beautiful French-type rear contour and French roof design, and its rich ensemble of costly car features, the new Special Sedan pictured above possesses magnetic appeal for those most keenly perceptive of motor car style and quality.

The steering wheel is of real walnut in fitting harmony with the handsome walnut finish of the inside window mouldings, door panels, the instrument board and the crowned panel which is above the instrument board. The gray toned upholstery is genuine Chase at \$1695 f. o. b. factory.

And Nash powers it with a 7-bearing motor-the world's smoothest type.

So that in transcendent power-evenness and quietness, in lightning-fast "pickup," and in easeful roadability on the straightaway or climbing, together with a world of speed, it stands out as the most notable car of its field.

As standard equipment there are Gabriel Snubbers at front; 4-wheel brakes, of special Nash design, with the front wheel brakes completely enclosed for safety's sake; and 5 disc wheels.

A larger Special Sedan on the Advanced Six Chassis, reflecting the same unsurpassed quality throughout, is offered
