## EXAMINATIONS ANNOUNCED FOR DRY FORCES UNDER CIVIL SERVICE

### Civil Service Commission Starts Active Recruiting Campaign.—Character Searches and Fingerprints Important Features.

The United States Civil Service Commission this week launched its country-wide campaign to recruit eligibles for the 2500 positions in the Bureau of Prohibition which were classified under the civil service law by the Act of March 3, 1927. The Commission announced open competitive examinations for the following positions:

- One chief of field division, at \$6,000 a year.
- Five prohibition zone supervisors, at \$5,200 a year.
- Twenty-four prohibition administrators, at \$4,000 to \$6,000 a year.
- Twenty-four assistant prohibition administrators (enforcement work) at \$3,300 to \$5,200 a year.
- Twenty-four prohibition administrators (permissive work), at \$3,300 to \$5,200 a year.
- Fifty deputy prohibition administrators, at \$3,000 to \$4,600 a year.
- Two field office inspectors, at \$2,800 to \$3,900 a year.
- Four associate field office inspectors, at \$3,000 to \$3,600 a year.
- Eighteen senior prohibition investigators, at \$3,800 a year.
- 109 prohibition investigators, at \$2,000 a year.
- Fifty-three junior prohibition investigators, at \$2,400 a year.
- 223 prohibition agents, at \$2,400 a year.
- 1260 junior prohibition agents, at \$1,860 a year.
- 102 warehouse watchmen, at \$1,140 to \$1,180 a year.
- Seventy-four attorneys, at \$1850 to \$5,200 a year.

The Civil Service Commission states that the examinations will be practical, each kind especially designed to test the qualifications and fitness of the applicants to perform the particular branch of work for which that kind of examination is held.

The examinations for investigators below the senior grade, those for agents of all grades, and those for warehouse watchmen will require the assembling of competitors in examination rooms for written mental tests. These will be given in approximately 600 cities throughout the country. The other examinations listed do not include written mental tests in examination rooms.

All of the examinations will include ratings on training and experience, a searching oral test, and a rigid character investigation made by the Civil Service Commission with the assistance of other Government agencies.

In order to give the oral tests it will be necessary for the Commission to send investigators to interview applicants in various parts of the country. The character investigations will be made with the most painstaking care. Because of these two features of the examinations, the testing of applicants for the 2500 newly-classified positions under the Bureau of Prohibition is one of the largest single tasks ever undertaken by the Commission.

Fingerprints will be made of all applicants who attain eligible ratings. These will be used to check the accuracy of the application statements as to arrest, indictment, or conviction for crime or misdemeanor. The Civil Service Commission feels that any person who is worthy of appointment to a position under the Bureau of Prohibition will not object to the most searching investigation into his past life.

The act bringing these positions into the competitive classified service provides that those now employed who were not appointed in accordance with the civil service laws must compete with others in examinations if they wish to have an opportunity to retain their positions.

Copies of the examination announcements and application blanks may be obtained from the United States Civil Service Commission, Washington, D. C., or from the secretary of the local board of civil service examiners at the post office in this or any other city.

## COURT PROCLAMATION.

WHEREAS the Honorable James C. Furst, President Judge of the Court of Common Pleas of the 49th Judicial District, consisting of the County of Centre, having issued his precept bearing date of the 4th day of April, 1927, to me directed, for holding a Court of Common Pleas, Orphans' Court, Court of Quarter Sessions of the Peace, Oyer and Terminer and General Jail Delivery, in Bellefonte, for the County of Centre and to commence on the

THIRD MONDAY OF MAY, 1927, being the 16th day of May, 1927, and to continue for two weeks, (The Grand Jury to meet on the Second Monday of May, 1927.)

NOTICE is hereby given to the Coroner, Justices of the Peace, Aldermen and also such Constables, (that may have business in the respective districts, reaching to report to the Honorable Court) that they be then and there in their proper persons at 10:00 o'clock in the forenoon of the sixteenth day of May, 1927, with their records, inquisitions, examinations and their own remembrances, to do those things to their offices appertaining to be done, and those who are bound in recognizance to prosecute against the prisoners that are and shall be in Jail of Centre County, be then and there to prosecute against them as shall be just. Given under my hand at Bellefonte, the 5th day of April in the year of our Lord, 1927, and the 151st year of the Independence of the United States of America. E. R. TAYLOR, Sheriff. Sheriff's Office, Bellefonte, Pa., April 9th, 1927.

## NO DETOURING

Secretary of Highways James L. Stuart has directed that the 2700 foot stretch of road to complete the concrete highway over the Seven Mountains be built without necessitating the use of a detour by motorists. Secretary of Forests and Waters Charles E. Dorworth enlisted Mr. Stuart's interest in the matter, impressing upon him that closing the highway while building approximately one-half mile would subject all traffic to the inconvenience of a sixteen-mile detour. If the arrangement of a temporary road along the stretch to be constructed is found to be possible this will be the plan followed. Otherwise, Mr. Stuart announces, the highway will be built with the half-width plan; that is, one-half will be finished and thrown open to traffic before the other half is undertaken.

## The Sleak at Smulton.

Harold Esterline, little son of Fred Esterline, was taken to the Centre County hospital by Dr. Morrow, where he was operated on for the removal of pus formed on the lungs. He is getting along nicely.

Mrs. Charles Blerly and her son, Down, are both ill from pneumonia, and are in a rather serious condition. Mr. Winkleblich is suffering from an abscess in the ear.

These patients are all being given professional attention by Dr. Morrow, of Centre Hall.

## MARRIAGE LICENSES.

- Charles C. Ginter.....Tyrone
- Frede M. Kelly.....Tyrone
- Harry Ginter.....Milesburg
- Mary G. Ginter.....Milesburg
- Gideon E. Davis.....Rogers Corner
- Marguerite Bryor.....Rogers Corner
- Paul F. Kellerman.....State College
- Edith B. Lockhart.....State College
- Merrill W. Long.....Howard
- Ruth A. Pletcher.....Howard
- Saylor F. Jodon.....Lock Haven
- Florence E. Lingie.....Lock Haven

## Seek "Hit and Run" Autolist.

Joseph Mac Lain, aged 75 years, is supposed to have been hit by a "hit and run" autolist, and injured so badly that he died Sunday morning in the Lewistown hospital. The man was found near the Burnham passenger station to where he is thought to have been taken by the party who ran him down. Both legs lay across the rails of the railroad. Besides broken legs, other injuries were inflicted.

Alden Corson, 24, is in the Millifin county jail on a technical charge of possession of liquor, but in reality under suspicion of knowing more of the death of MacLain than he is telling.

## LOCAL HIGH SCHOOL NEWS.

The pupils of the local High School have organized a tennis club. The club has leveled the courts and put everything in readiness for playing. The club extends a cordial invitation to the public to use the courts at any time when the ground is dry enough. They make one requirement, which must be fulfilled by all persons using the courts. It is this: No one is allowed to use the courts unless they wear tennis shoes. We are sorry to note that the courts have been badly abused last summer by some thoughtless persons playing on them without tennis shoes.

## Pasture on Grange Park.

Notice is hereby given that no cattle will be permitted to pasture on Grange Park without parties making necessary arrangements with A. H. Spayd, of Centre Hall.—By order of Grange Park Committee.

## Rata! Williamsport, under a proclamation of its mayor, launched a campaign to rid the city of them.

## STATE COLLEGE PLANS UNIQUE INAUGURAL FOR PRES. HETZEL

With the announcement that Dr. formally as president of the Pennsylvania State College would be installed commencement exercises in June, it also became known that the college plans a series of gatherings of state-wide importance to be held on the campus in the next few months.

The purpose of these gatherings is two-fold to emphasize the service of the college to industrial, agricultural and educational leaders, and to give President Hetzel and other college officers opportunity to meet the people with whom the college has a direct service contact.

Instead of one big and expensive inaugural day celebration, Penn State trustees under this plan will have greater opportunity to present President Hetzel to the many groups concerned and allow plenty of time for each to become acquainted with college activities conducted in their behalf.

A number of state-wide conventions have been held to date, and among others in the near future will be the annual spring meeting of the Pennsylvania Dairywomen's Association on May 7; an oil power conference April 21-23; the annual Industrial Conference, May 13 and 14 when Charles M. Schwab will be a speaker; the engineering extension convention at the same time; Farmers' Day in June and the many special gatherings scheduled for the coming summer session.

The formal induction on June 14 will mark the largest commencement gathering of alumni ever held at Penn State, it is expected. Trustees and faculty have sent invitations to 10,000 graduates and former students.

## BOOST CENTRE COUNTY.

The phenomenal growth of California may be directly attributed to the fact that everybody who lives in that state a few months becomes so imbued with the natural advantages of California that he turns into an inveterate booster. After the gold craze had subsided in the period immediately following the appeal that was the necessity of California recognized the necessity of finding other attractions to confine the tide of immigration in that direction, so they began systematically to acquaint the world with the salubrious climate of California for health and comfort and its possibilities for fruit raising and other paying industries. It has not been long since the whole country was flooded with literature filled with extravagant but delightful descriptions of that wonderful country and its possibilities. So powerful was their appeal that probably anybody in the United States as well as in many other parts of the world has at some time ardently longed to join the caravan and move to California.

Yet, if you want to know the real truth of the matter, there are as many drawbacks to California in climate and opportunity as there are in many other states, though different in character. However, boosting did the trick and took hoards of ambitious people westward, so that Los Angeles has grown from a population of 200,000 to more than a million in less than ten years. These people took their money, their brains, and their brawn with them, and they, too, have now become boosters of California because they have learned that it pays to boost.

When we stop to think about it, we find that we have many splendid attractions in our own county; so many, in fact, that most of us are delighted to settle down on a live here in contentment the rest of our lives. There are as many natural beauties in our wooded mountains and winding streams as there are in any country in the world. The phenomenal beauties of our scenery are unsurpassed. We have many natural resources, such as an exhaustless lime and coal deposits, the fertile valleys, wonderfully beautiful air, the best mountain water in the world and many prosperous and wide-awake little cities nestled among the hills in the very center of the greatest commonwealth in the land. Many other communities which are doing a lot of boosting of their own towns would be glad to have the natural advantages of Bellefonte and State College, Centre Hall, Millheim and Howard, but they advertise their own towns because it pays. Pays in money and employment, in opportunity for culture and in many other ways.

Unfortunately there are some people who have not learned the tremendous detriment it is to a community for one of its citizens to knock the institutions and individuals of his own town. They seem to think it a mark of superior wisdom, or bravery to decry the best things of their home town. But on the contrary, it is a mark of ignorance and cowardice and it is extremely unwise because there are times when a small current of adverse criticism will do irreparable damage.

Take for instance our churches. The churches of Centre county are attended by some of the best intentioned people God ever made and are served by able and devoted pastors. Through their sacrifice and earnest effort they are trying to save our young people from lives of thriftlessness and crime. Every adverse criticism, however covertly spoken, makes it more difficult for them to perform that service. Who knows that the young man they fail to influence will not become a criminal who will rob the home or murder a member of the thoughtless critic.

Centre county has a very fine and efficient hospital for which many loyal citizens, including the earnest men and women of the Women's Auxiliary, the Medical Staff and the self-sacrificing Board of Trustees are constantly striving to improve. These good people depend to a great extent upon the liberality of the people for funds with which to procure equipment and an efficient personnel to make it possible to save the lives of citizens who are sent to the hospital for treatment. Suppose that some unwise statement of our short-sighted critic would cause some philanthropic person to draw his purse string a little tighter and that the hospital would be deprived of some appliance which would later be found necessary to save the life of one of our citizens. Who knows that the person thus sacrificed will not be a member of the critic's own family.

Knocking is an expensive game. We cannot afford to engage in it. It is much better to spend our time and words in boosting—boosting our schools, our churches, our homes, our people, our beautiful little towns, our mountains, our industries, and all we have that is good and useful about us. Better still, to put our shoulders to the wheel and help make all these blessings even better than they now are.

There was never a time more appropriate for universal boosting than the coming weeks immediately preceding the Hospital Membership Drive, which begins May 12th, National Hospital Day. The hospital membership drive is inviting the people of Centre county to visit the hospital, especially on May 12th, the anniversary of the birthday of Florence Nightingale, the patron saint of hospital service. The Centre County Hospital is your institution and they are anxious for you to see it in operation. If there is any doubt in your mind regarding its management go and see its efficiency and utility first hand.

The public is welcome to visit the hospital at any time, but the Board is issuing circulars and posters throughout the county extending a cordial invitation to each citizen not only to visit the hospital, but also to become a member of the Hospital corporation by the annual payment of the fee of one dollar or more while this membership drive is in progress. Now is the time to boost and to help your hospital.

(Continued on foot of next column)

## LLOYD GRUBB KILLED.

Delayed Blast of Dynamite Proves Fatal to Workman at Penns Cave, on Friday.

His head crushed by a large stone which struck him on the forehead, and his body bruised and cut, as a result of a blast at Penns Cave, near Centre Hall, Lloyd Grubb, aged twenty-one, of Bellefonte, died in the Centre County hospital Friday afternoon several hours after the accident.

Young Grubb, an unmarried man, and the son of Mr. and Mrs. Nelson Grubb, was employed by a contractor to enlarge the rear entrance to the cave, preparatory to the season of summer tourists' visits. With two other men he had placed three different charges of dynamite in the rocks at the rear end of the cave. All were ignited, and were expected to go off at one time, but when the men got outside the cave only two were heard, and supposing that the fuse of the third had failed to burn, Grubb reentered the cave to ignite the fuse. He had just got inside when the third explosion took place, and a large stone dislodged and hurled with great force struck him on the forehead, crushing it. Other stones cut and bruised other parts of his body.

He was removed to the Centre County hospital, but death resulted in a half hour after arriving there.

## Reaching Into the Fleshop.

All but seven of the State senators reached into the fleshop to get their share of increased salary and mileage. The salary was increased from \$2500 to \$3000. The seven senators who voted against the salary raise were Huffman, Lamb, Lanus, Painter, Steele, Webster and Williamson.

You will notice a familiar name missing among the seven.

## Will Build Dwelling House.

The fact that not a house in town could be rented, forced W. F. McMorrison to purchase a building lot in the Bairfoot addition, at the west end of the Church street, on which will be erected a bungalow type house as speedily as possible. Mr. and Mrs. McMorrison, since the beginning of this month, have temporary living quarters in the Old Fort hotel, with Paul Bradford. Mr. McMorrison is manager of the Sheffield Farms milk plant at Centre Hall.

## Entrance Exams. for G. T. V. S.

The eighth grade entrance examinations for the Gregg Township Vocational School for the coming year will be conducted Friday and Saturday, April 22nd and 23rd, in the grade school building at Spring Mills.

## R. K. Schedule Changed.

Slight changes have been made in the schedule of the arrival and departure of trains on the L. & T., effective Monday. At Centre Hall the train east in the morning will leave at 7:04 instead of 6:35 as heretofore, and the train west in the evening will leave at 3:52 instead of 3:44.

## JURORS FOR MAY TERM.

Grand Jurors Will Appear May 9th—Traverse Jurors on Weeks of May 16 and 23.

According to an order of Judge Furst, grand jurors will appear a week before the opening of the regular term of court, or on Monday, May 9th. The traverse jurors, like heretofore, will appear on the Monday of the week of court for which they are called.

Jurors drawn from Penns Valley are as follows:

- Grand Jurors—David G. Fortney, farmer.....Potter
- Mrs. Mary Gooding, hakpr., St. College
- James Koch, farmer.....Harris
- Edgar Miller, bank clerk.....Potter
- Paul F. Musser, laborer.....State College
- D. G. Smith, laborer.....Greig

Traverse Jurors for First Week—

- Chas. T. Bigger, farmer.....Potter
- John Bowers, laborer.....State College
- W. F. Boob, farmer.....Haines
- George Bloom, laborer.....College
- Paul E. Coxy, clerk.....Harris
- Ralph Dale, teacher.....College
- P. A. Frost, ins. agt.....State College
- T. K. Frank, merchant.....Millheim
- Edgar Feltenberger, farmer.....Greig
- Robert M. Foster, gentleman.....St. Coll.
- J. C. Hosterman, printer.....Millheim
- F. O. Hosterman, merchant.....Millheim
- W. C. Krader, salesman.....Penn
- Franklin A. Long, farmer.....Greig
- Lacy Mayes, housekeeper.....College
- D. W. Myers, agt.....College
- Chas. D. Moore, laborer.....Penn
- John D. Neese, carpenter.....Millheim
- C. E. Ohl, retired.....Greig
- C. M. Smith, salesman.....Millheim
- J. L. Tressler, laborer.....Centre Hall
- George Weaver, laborer.....Haines

Traverse Jurors for Second Week—

- Wm. D. Bartsch, laborer.....State College
- F. H. Fisher, salesman.....Ferguson
- Mrs. Myra C. Ishler, hakpr.....Potter
- George Kline, farmer.....College
- Frank D. Lee, retired.....Centre Hall
- G. E. Miller, clerk.....Millheim
- Albert H. Stover, bookkeeper.....Millheim
- R. J. White, carpenter.....State College
- R. P. Williams, carpenter.....Potter
- S. G. Walker, farmer.....Greig

(Continued from previous column) visit the hospital at this special time, but also to become a member of the Hospital corporation by the annual payment of the fee of one dollar or more while this membership drive is in progress. Now is the time to boost and to help your hospital.

## W. HARRISON WALKER SEEKS JUDGESHIP

Well Known Democrat Who Was Choice of His Party in 1925, is Again a Candidate.

W. Harrison Walker, president of the Bellefonte Kiwanis Club, recently attended a meeting of the Phillipsburg Kiwanis Club at which M. Ward Fleming was the principal speaker. Mr. Walker also making a short address. The following day the Phillipsburg Journal referred to Mr. Walker as follows:

The decision of W. Harrison Walker, Bellefonte attorney, to enter the Judgeship race, reached several weeks ago, is receiving pretty general approval of Democrats and independents throughout the county.

Having received the Democratic nomination for judge in the campaign of 1925, Mr. Walker's friends contend that if he were the choice of the Democrats then, logically he ought to be the choice now. He made a clean fight for election and lost, and after having lost, it is a well known fact that hundreds of voters who had failed to support him for one reason or another, expressed regret.

Mr. Walker's ability is unquestioned. In addition to having the necessary knowledge of the law, he has the good judgment and horse sense especially essential on the bench. Every new judge must learn certain details of the position. They are acquired only by actual experience. If Mr. Walker were unable to master them, then it might be truthfully said that none of the others would likely be able to familiarize themselves.

Always a clean upstanding citizen who has an enviable record for honesty, patriotism and the performance of civic duties, Mr. Walker is going to put additional pep into a campaign that already gave promise of being more than ordinarily peppy.

Business methods, prompt service and careful records, have featured Mr. Walker's practice of law. This is so well known that the expression is often made, "Let Walker handle the case, for he will attend to it promptly." If nominated and elected Mr. Walker has given assurance prompt attention to business would prevail in his court.

W. Harrison Walker is now 52 years old. He has been practicing law for 31 years. His card appears in the political announcements elsewhere in this issue.

## MANY PROVISIONS IN UNIFORM TRAFFIC BILL

Authority of Highway Patrolmen to Make Arrests—Speed Limit Raised Five Miles An Hour—Uniform System of Traffic Signal Lights in Three Colors Is Provided.

Highway patrolmen would be authorized to make arrests under the provisions of the administration traffic bill as passed by the legislature.

Under the highway patrol are not given such authority.

The speed limit on open highway is increased from 30 to 35 miles.

Trucks are reclassified and slight increases made in the license fees, while motor bus licenses are based on the seating capacity of the vehicles.

The bill provides that the State, counties and municipalities are liable for the negligence of their employees in the operation of vehicles.

In case of suspension of licenses the licensee has the right to file a petition of appeal in the Dauphin county court within thirty days after suspension.

Obscene or vulgar signs or markings on automobiles are prohibited.

Operation of an automobile with a poor muffler which causes unusual noise and annoying smoke is prohibited.

Coasting down grade with the gears in neutral is prohibited.

Enforcement of local traffic conditions is left with local authorities.

The bill provides a uniform traffic light system to the extent only of three lights, green "go" permits traffic straight ahead and all right and left turns except where no such turns are permitted where indicated by signs.

Amber, or yellow, permits no movement of traffic excepting that within the intersection or a "U" turn on a two-way street back of the point of intersection. "Red" means stop, only where signs are posted permitting turns on the "red."

## The Kerlin Poultry Farm of this place has specialized for many years in high grade poultry feeds, shipping each year into every State in the Union. Their annual output of Baby Chick Starting and Growing Mash amounts to over 300 tons. They contract for as many as 15 and 18 cars at one time, buying on a small margin of profit and selling at a live-and-let-live price. The following few quotations will give one an idea of the money to be saved by buying from Kerlins: Buttermilk Starting and Growing Mash—15 1/2 per ct. protein, \$2.75 per 100 lbs. This is compounded by the manufacturers of the famous Wayne Feeds, and is a formula used exclusively for 12 consecutive years. Wayne Laying Mash, 15 per ct. protein, \$2.75 per 100 lbs. over 300 tons. They contract for as many as 15 and 18 cars at one time, buying on a small margin of profit and selling at a live-and-let-live price. The following few quotations will give one an idea of the money to be saved by buying from Kerlins: Buttermilk Starting and Growing Mash—15 1/2 per ct. protein, \$2.75 per 100 lbs. This is compounded by the manufacturers of the famous Wayne Feeds, and is a formula used exclusively for 12 consecutive years. Wayne Laying Mash, 15 per ct. protein, \$2.75 per 100 lbs. over 300 tons. They contract for as many as 15 and 18 cars at one time, buying on a small margin of profit and selling at a live-and-let-live price. The following few quotations will give one an idea of the money to be saved by buying from Kerlins: Buttermilk Starting and Growing Mash—15 1/2 per ct. protein, \$2.75 per 100 lbs.
