> tuition. Winners of third prizes will each receive \$1,000 and one year's tuition. Winners of fourth prizes will each

> receive \$2,000 in cash and one year's

Winners of fifth prizes will pach receive \$250.

Musical, civic and women's clubs in each community in each state will be invited to hold local contests to select the best young man and best young woman singers of their towns. These winners will then be certified to a state audition, which will be broadcast by a radio station in each state. A state winner of each sex will be chosen and will receive a silver medal.

The next step is a district audition. The young men and women who have won state honors will be taken to a central broadcasting station in one of five districts, where an audition will be broadcast to select the two winners-a young man and a young woman-from that district,

The two winners in each district will receive gold medals and the ten finalists thus selected will be taken to New York for the final National Audition, to be broadcast over a national network of stations. All expenses of contestants in the district and final auditions, including railroad fare, hotel bills, entertainment, etc. will be paid by the Atwater Kent Foundation.

"The spirit and purpose of the National Audition are indicated in a statement by A. Atwater Kent, presi-

dent of the Foundation, who said: "The discovery of one of those rare voices, of which each generation produces a very few, seems to me au event of profound national importance. Even when such a voice could give pleasure to only a few thousand people in a year it was a national treasure. Now that millions may enjoy it on the same evening through the medium of radio, such a voice has become priceless.

"The National Radio Audition, supported by the Atwater Kent Foundation, is an undertaking to search the entire country for beautiful voices and to offer these singers an opportunity for full development, recognition and reward."

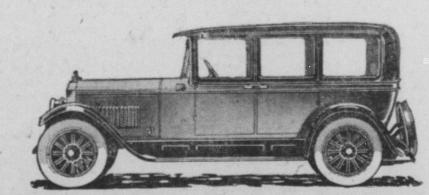

The principal qualifications for contestants are as follows:

Must not be over 25 years old; must never have been associated with a professional theatrical or operatic company; must never have been a paid principal in any concert held outside their own states; must declare an intention to follow a musical career and must be free from theatrical or musical contracts.

This limitation permits choir singers to enter the auditions, even though they may have received financial compensation for singing in churches. Other groups from which entries are anticipated are students in musical schools and locally prominent singers in high schools and colleges. Musical organizations in each state, are also afforded an opportunity to participate.
