The idea of daylight-saving was first advanced by Benjamin Franklin. In 1754, while Minister to France, Franklin wrote an article pointing out that the people of Paris could, by changing their clocks, save millions of dollars a year in candles.

MISS McQUISTION LEAVES ESTATE TO CHARITY

Churches, Centre County Hospital, Presbyterian Home Profit—Nucleus for Library or Museum.

Charity, in the absence of immediate relatives, is made the beneficiary in the will of the late Mary Ellen McQuistion, of Bellefonte, filed in the office of Register Harry Rossman. Although the estate left by Miss McQuistion was not totalled in her will, it is estimated to be in five figures.

Among the institutions mentioned in the will is the Presbyterian church of Bellefonte, which will receive \$3,000, the sum to be placed in trust and the interest therefrom applied on the maintenance of the church. To the Ladies' Aid Society of the Presbyterian church, Miss McQuistion left \$1,000, also to be placed in a trust fund.

The Presbyterian Home for Women at Hollidaysburg received a bequest of \$1,500 to be used in furnishing and equipping a room as a memorial to the donor of the gift. If there is any money left, same shall be placed in trust for maintenance purposes.

A bequest of \$1,500 was made to the Centre County hospital at Bellefonte, the money to be used to furnish and equip a room as a memorial to Miss McQuistion.

Individuals who were favored in the will include Mrs. George P. Douglas, of Minneapolis, Minn., who will receive all the bedding, clothes, linens, etc., together with \$500 in cash, and Miss Regina Rapp, of Bellefonte, who will receive Miss McQuistion's diamond ring and \$500 in cash.

The remainder of the estate is to be placed in a trust fund that will be available as a nucleus for any fund started to establish a public library or museum in Bellefonte.

WHEAT GROWERS: TAKE NOTE

\$226 Added Profit on this Wheat Crop

Burier, Md.
Oct. 8, 1926

The American Agricultural Chemical Company, Baltimore, Md.

Sirs: My wheat crop which consisted of 58 acres most of which was corn stalk ground, harvested 37 bushels of fine quality grain to the acre. Not only was the grain fine in quality, but the straw good and stiff and well ripened over the entire field.

I have been using "AA QUALITY" Fertilizers (4-16-4) for several years and I believe that I get at least 25% better wheat crops than some of my neighbors who use other brands.

The bags are good and strong and the mechanical condition perfect and the treatment which I receive from your Company is all that I can ask.

Yours very truly,

MRS. THOS. C. BOSLEY & SONS

At last year's wheat prices—one 58 acre field fertilized with "AA QUALITY" Fertilizer gave the farmer \$226 added profit. Definite figures from other farmers in this locality tell the same story. Yields as high as 60 bushels an acre.

You too can make such increased profits if you select your fertilizer on its crop-producing record. The sure way to do this, is to insist on getting "AA QUALITY" Fertilizers. "Worth more per dollar because they produce more per acre."

THE AMERICAN AGRICULTURAL CHEMICAL COMPANY
Baltimore Sales Department
700 Lexington Building, Baltimore, Md.

Look for the "AA QUALITY" seal on every bag of fertilizer. It stands for 60 years of manufacturing experience.

This seal guarantees more than correct chemical analysis—it assures you of proven crop-producing value.
