Mrs. Mollie Gregg, who about two weeks ago was operated on at the Clearfield hospital for the removal of a goitre, is in a rather serious condition at her home at State College.

The Mrs. Nancy Benner home was very much improved by the erection to the front of it a large porch, a portion of which extends so that it receives the sun rays from the south.

Mrs. P. McManus returned to her home at Harrisburg after having been at the old home surroundings since the latter part of August. She spent most of the time with her sister, Mrs. William Bower, near Potters Mills.

The Hagan Garage is being repainted by John M. Coldron and helpers. The application of paint is having a marked effect on this particular building, which bore on all its parts the ugly marks of a fire that came close to totally destroying the structure.

A young Holstein cow for which Charles Smith, of Centre Hill, had recently paid \$195.00, died during last week from bloating caused by pasturing on young clover. Farmers throughout the valley have had considerable trouble and some losses this summer from bloating.

With all the canvassing of the numerous candidates for office in Centre county, there remains a phase of work that belongs to local political workers and that is to get out the vote. It is a reflection on any community that will send in a return of Tuesday's election with but a small percentage of its voters having registered their political preference.

Theodore R. Wagner, formerly a postal railway clerk running between Lock Haven and Tyrone, has been transferred to another route and will now run regularly between Williamsport and Harrisburg. Beginning the first of the month, Mr. Wagner will be off duty every third week. He is a son of Jasper Wagner, of Spring Mills, a rural mail carrier.

Mr. and Mrs. John Holdeman, of Lebanon, and Mr. and Mrs. Edward Slesser, of Palmyra, were recent guests at the home of Mr. and Mrs. Aaron O. Detwiler, of near Tusseyville. Mr. Holdeman is a son of Joseph Holdeman, who many years ago lived in Centre Hall. Another guest at this home was Mr. Detwiler's brother, Clayton Detwiler, of Philadelphia, who is a signal tower man on the Reading Railroad in North Philadelphia.

On Saturday, Mrs. J. Shannon Boozers entertained Mr. and Mrs. Harold Butler and three little children, of New York City; Mr. and Mrs. C. H. Moyer, Mrs. Butler's parents, of Reedsville, and Mr. and Mrs. D. A. Boozers, of town, at Sunset Club house, Seven Mountains. Mrs. Fay Bramhall, who before marriage was Miss Ida Sweetwood, and her husband, of Metuchen, N. J., were also entertained by Mrs. Boozers at her home here.

Mr. and Mrs. Roy Shaeffer on Friday will attend the golden wedding anniversary of Mr. and Mrs. L. W. Bathurst, of Altoona, which event will be celebrated at the home of his son-in-law and daughter, Mr. and Mrs. Charles Colbine, in Tyrone. Mr. Bathurst, many years ago, when star route mail routes were in vogue, carried mail over a route between Centre Hall and Pennsylvania Furnace. He will no doubt be recalled by some of the older residents here.

The Reporter was pleased to have a business and social call from S. F. Smith, of Freeport, Illinois, R. D., who with Mrs. Smith and Mr. and Mrs. Harry Kinzer, neighbors, formerly of Juniata county, drove to Pennsylvania to be at the old home once more. The party is stopping with Mr. and Mrs. David Stoner, in town. Mr. Stoner and Mrs. (Ellen) Smith are brother and sister. It is thirty-two years since the Smith family went to Illinois, going there from the John Bowersox farm, near Ansonburg. Prior to that Mr. Smith lived east of Linden Hall, on the Boalsburg road, where he conducted a blacksmith shop. On going to Illinois Mr. Smith continued farming until a few years ago when he retired, but later again took up blacksmithing and woodwork. Speaking of the crops along the route east, Mr. Smith said corn looked poor everywhere. Unlike here, the region about Freeport had hot, dry weather.

The first car load of potatoes to be shipped from the local shipping point were loaded beginning of this week by Roy Shaeffer. The price paid was 98 cents. It appears the yield in this neighborhood is only fair, and a larger percentage than during the past few years under marketable size. Potato fields having the most promising appearance were stricken by blight and within a few days the stalks were brown and withered.

MUSIC HELPS HIM

An accident that years ago left him a cripple has not prevented Melville J. Webster of Elkhart, Ind., from mounting to the position of one of the nation's most eminent clarinet soloists.

Webster started the study of his instrument at the age of fourteen, according to the Conn Music Center. For eleven years he was soloist with the famous John C. Weber prize band of America. For years he was the sensation of the Cincinnati Symphony orchestra.

"There is nothing unusual about my musical career," says Webster. "Almost any boy, at some time or another, cherishes a secret ambition to play a band instrument. It just happened that I was given an opportunity to carry out that ambition. I was the happiest youngster in the world when my father bought me an instrument and secured for me a competent instructor. Music became my one interest. I plunged into it with all of the enthusiasm a boy can command, greedily absorbing as many as four lessons a week.

"When my unfortunate accident came I blessed those hours of study. I was able to 'carry on' in the game of life, and on my own.

"I would advise the boy who is contemplating a musical career to consider the clarinet. In our modern music it is becoming more and more an outstanding member of the band family."

**—My Best Crop"**

Marriottsville, Md.  
October 29, 1926

The American Agricultural Chemical Company, Baltimore, Md.  
Sirs:

This year I had 72 acres in wheat and the average yield per acre was 36 bushels to the acre. I am confident that the yield on some of these acres was as high as 60 bushels.

We had a very wet fall season, consequently a lot of the late planted wheat did not come up, cutting down my average yield thereby. However 36 bushels per acre on a field of 72 acres is considered an excellent yield and I give credit principally to "AA QUALITY" Fertilizers. I can also state that it is the finest crop of wheat that I have ever raised in my 40 years of farming experience.

I have only been using "AA QUALITY" Fertilizers for the past 7 years, but from the results obtained you can readily see that I will continue with them and experiment no further.

Very truly yours,  
GEORGE W. K. RIDGELY

Such results as the above are not an accident. Neither are they unusual. They were obtained on a farm similar to yours.

"AA QUALITY" Fertilizers produce these outstanding results because only the best source of materials are used. They are scientifically compounded and blended to provide properly balanced, readily available plant foods continuously from seeding to maturity. Perfect mechanical condition insures easy and even distribution.

THE AMERICAN AGRICULTURAL CHEMICAL COMPANY  
Baltimore Sales Department  
700 Lexington Building, Baltimore, Md.

Look for the "AA QUALITY" seal on every bag of fertilizer. It stands for 60 years of manufacturing experience.

This seal guarantees more than correct chemical analysis—it assures you of proven crop-producing value.
